WARNING: While using steam feature, do not place fingers on the ridged area of the iron. Do not leave the iron unattended. Do not use it while bathing or in the shower. Do not store or place the iron where it can reach a children or individuals with burns, electrocution, fire, or injury to persons:

- Do not pull, twist, or wrap line cord around appliance. Use handles or knobs.

- Keep the cord away from heated surfaces.

- Never use outdoors or operate while aerosol (spray) products are being used or where oxygen is being administered.

- Do not use in areas where liquid may come in contact with electrical parts.

- Do not place or drop into water or other liquid.

- If an appliance falls into water, unplug it immediately. Do not reach into water while it is hot or plugged in.

- Do not use the appliance in the presence of any aerosol, sprays, or flammable materials.

- Do not place the iron on a soft surface such as a bed or couch, where the air openings may become blocked.

- Do not place the iron on an extension cord with this appliance.

- Do not use outdoors or operate with wet hands.

- Do not touch hot surfaces of the appliance.

- Do not touch hot surfaces of the appliance.

- Do not use this appliance only for its intended use, as described in this manual. DAMAGE use attachments not recommended by the manufacturer.

- Do not operate this appliance if it has a damaged cord or plug, if it is not working properly or if it has been dropped or dam-

- gaged, or dropped into water. Return the appliance to the store or retailer where it was purchased or an authorized service center for examination and repair.

- Always unplug appliance immediately after using.

- Always unplug when the iron is not in use.

- Before plugging the iron in, make sure it is dry.

- Before plugging the iron in, make sure it is dry.

- Always use a heat resistant glove when handling hot iron.

- Always use a heat resistant glove when handling hot iron.

- Never leave the iron unattended. If you need to leave the iron unattended, always shut off the iron or unplug it.

- If your hair is delicate, thin and easy to tangle, minimum heat will be needed. Set the comb to maximum tension control. Set the comb to maximum tension control. Set the comb to maximum tension control. Set the comb to maximum tension control. Set the comb to maximum tension control.

- The three settings let you achieve different hair types.

- Coarse, hard-to-straighten hair requires high heat (395°F). To get started, pick up a section of hair that is 1 ½” wide and not more than ½” thick.

- Thick hair benefits from medium to high heat (330°F). To get started, pick up a section of hair that is 1 ½” wide and not more than ½” thick.

- Fine hair is best straightened at 300°F. To get started, pick up a section of hair that is 1 ½” wide and not more than ½” thick.

- Your hair type determines the temperature settings for your hair.

- The results are sensational: silky, shinier, pin-straight styles that last!

- The 2-step styling system first infuses hair with conditioning ionic steam, and then locks in all that healthy moisture with heated plates.

- Keep your straightener’s easy-glide plates clean and free of tangles. Use a damp cloth to clean plates.

- Tourmaline Ceramic™ technology and our 2-stage styling system lets you achieve lasting salon-quality, straight-haired results. Tourmaline Ceramic™ technology and our 2-stage styling system lets you achieve lasting salon-quality, straight-haired results.

- Ionic properties neutralize positive charges in the air, reducing the static electricity that dulls hair and causes fly-away frizzies. Hair instantly becomes more manageable and shiny.

- Ionic technologies eliminate static electricity in the air, reducing the static electricity that dulls hair and causes fly-away frizzies. Hair instantly becomes more manageable and shiny.

- Coarse, hard-to-straighten hair requires high heat to maximum heat at 365°F to 395°F.

- The uniform heat recovery system maintains the plates at a constant temperature, for consistent results. The uniform heat recovery system maintains the plates at a constant temperature, for consistent results.

- Experience is the best teacher – after using the iron several times, you will know the best way to straighten and style your hair. Experience is the best teacher – after using the iron several times, you will know the best way to straighten and style your hair.
WARNING: IF YOU THINK THE POWER IS OFF WHEN THE SWITCH IS OFF YOU'RE WRONG.

Everyone knows that electricity and water are a dangerous combination. But did you know that an electric appliance is still electrically live even if the switch is off? If the plug is in, the power is on. So when you are not using your appliances, keep them unplugged.

ALWAYS UNPLUG SMALL APPLIANCES

LIMITED FIVE-YEAR WARRANTY Conair will repair or replace (at our option) your unit free of charge for 60 months from the date of purchase if the appliance is defective in workmanship or materials.

To obtain service under this warranty, return the defective product to the service center listed below together with your purchase receipt and $5.00 for postage and handling. California residents need only provide proof of purchase and should call 1-800-3-CONAIR for shipping instructions. In the absence of a purchase receipt, the warranty period shall be 60 months from the date of manufacture.

Everyone knows that electricity and water are a dangerous combination. But did you know that an electric appliance is still electrically live even if the switch is off? If the plug is in, the power is on. So when you are not using your appliances, keep them unplugged.

ALWAYS UNPLUG SMALL APPLIANCES

CAUTION NEVER allow the power supply cord to be pulled, twisted, or severely bent. Never wrap the cord tightly around the appliance, causing it to rupture and short circuit. Inspect the cord frequently for damage. Stop use immediately if damage is visible or if unit stops or operates intermittently.

STORAGE

When not in use, your appliance is easy to store. Allow appliance to cool, then simply store out of reach of children in a safe, dry location. Do not jerk or strain cord at plug connections. Do not wrap the cord around the appliance. Allow the cord to hang or lie loose and straight at the point of entry into the appliance.

Your High Temperature Steam Straightener is virtually maintenance free. No lubrication is needed. Keep all vents and openings clear of dirt and dust. If cleaning becomes necessary, disconnect the unit from the power source, allow to cool and wipe exterior with a cloth. If any abnormal condition occurs, unplug the unit, allow it to cool, and return it for repair to an authorized service representative only. No repairs should be attempted by the consumer.

CAUTION NEVER allow the power supply cord to be pulled, twisted, or severely bent. Never wrap the cord tightly around the appliance, causing it to rupture and short circuit. Inspect the cord frequently for damage. Stop use immediately if damage is visible or if unit stops or operates intermittently.
