AMERICAN OWNED AND OPERATED
Model T180
USER’S MANUAL
WWW.MACHSPEED.COM
Congratulations on purchasing your Eclipse Personal Media Player! To get the most out of your purchase, please take the time to carefully read through this manual.

**Foreword**

If any problems occur during while using your Eclipse, please feel free to contact Mach Speed technical support at 580-272-0035, or sending an email to mssupport@machspeed.com.

Thank you for your support and cooperation!

Mach Speed Technologies bears no responsibility for any damage or loss of personal data due to misuse of software and/or hardware, damage to the player caused by human factors, replacement of battery, or other unforeseen circumstances. To prevent loss of your data, please backup your data regularly.

Information in the manual is subject to change without notice and is subject to copyright protection. Copying or otherwise reproducing this material without prior written consent is prohibited.

Due to Firmware changes, some of the pictures and functions described in this manual may not be the same as are included with your player. The playback times listed refer to the maximum playback times possible, using the best power savings. The actual playback time may differ as adjustments to screen brightness, power savings modes, volume, etc are made.
Note:

- Do not use the player in exceptionally cold or hot, dusty, damp or dry environments.
- Do not drop, strike, or throw your player. Physical damage to your player will void ALL warranties.
- Please charge your battery when
  - Battery power icon shows an empty icon;
  - The system automatically shuts down and the power is soon off when you switch on the unit once again;
  - There is no response if you operate on any key
- Please always follow the correct disconnect procedures for your operating system. Do not disconnect power abruptly when the player is being formatted or in the process of uploading or downloading files. Otherwise it may lead to file corruption, firmware failure, and even hardware damage.
- Please ensure that the player is powered off before inserting or removing the Micro SD Card
- We are not liable for and loss of data stored on this device.
- Please do not dismantle this player. Any disassembly not done by an authorized technician will void ALL warranties
- This product and manual are change without subject to notice.
Caution
Modifications not approved by the party responsible for compliance could void the user’s authority to operate the equipment.
NOTE- This equipment has been tested and found to comply with the limits for Class B Digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generate, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or telephone reception, which can be determined by turning the equipment off and on, the user in encouraged to try to correct the interference by one or more of the following measures:
Reorient or relocate the receiving antenna.
Increase the separation between the equipment and the receiver
Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
Consult the dealer or an experienced radio/TV technician for help.
Appearance & Keys

1. LCD display
2. Power Switch
3. Menu button, press and hold to lock & unlock the touchscreen controls.
   When locked, the screen will have a lock icon in the upper right corner, by the battery.
4. Volume Up; press and hold to increase the volume.
5. Volume Down; press and hold to decrease the volume.

**COMPUTER COMMUNICATION**

**Using Windows Media Player**

*(Note: you must use Windows Media Player 10 or later to use this feature.)*

*(Note: this player does not support DRM encrypted audio or video files, such as those downloaded from the Windows Media Player “Overdrive” download service.)*

1. Open Windows Media Player and connect the player to a working USB port. Windows Media player will prompt you with a setup screen asking you to name the MP3 player.
2. Once you have named your MP3 player, select Finish, and your Windows Media Player will open to the Sync tab.
3. Drag your music to the sync list (on the right of the screen) from the list on the left. Once you have selected the music you wish to add to the player, press Sync.

4. Windows Media player will load the songs on to your player.
5. Once all the songs you have added are synced to the unit, and Windows Media Player says that it is safe to disconnect your MP3 player, disconnect the device.

**COPY AND PASTE**

Note- This alternate method is used to load videos, pictures, and ebook files as well as audio files.

1. Connect the MP3 player to a working USB port.
2. When the unit is connected to your computer, it will create a gray and green icon in the system tray (lower right hand corner of your desktop). The icon will be called safely remove hardware.
3. Go to the “My Computer” section of your computer. In there you will find a section called “devices with removable storage”.

4. Locate the drive created by the unit, generally just called Removable Disk, with a letter in Parenthesis. Drive letters vary depending on your system configuration.
5. Open the drive by either double left clicking on the drive itself, or by right clicking to open the option menu then left click on the desired drive.
6. Locate the music stored on your computer. Generally this is stored in the “My Music” folder of your computer.

   NOTE: if you are unable to locate the music on your computer, click on start, search, files and folders, then search for “*.MP3, *.WMA”.

7. Once you have located the song files, you can right click on the song
itself, and select “copy”. Open the removable disk drive, right click on in the empty space, and select Paste. This will transfer the song on to your player.

8. Repeat step 7 for as many songs as you want to copy on to the unit.

NOTE: MAC Computers

When connected to your MAC computer, the device will act as a removable drive. Simply drag your files to the device.
Main Functions

Music
Please Note that this player supports audio files in MP3, WMA, ASF, APE, OGG, ASF, and FLAC formats. If your audio file is not in one of these formats, it will NOT play.
Please Note that this player does NOT support DRM encrypted, or Copy protected audio or video files.

Music mode allows you to listen to your audio files. To access your music files, please tap the Music icon to enter Music Mode, and then select now playing, or All Music to select a file.

Tap the play icon to begin playing. Alternatively, you can tap the power button to begin playing.

Play Icon. Tap this icon to begin playing your file.
Pause Icon. Tap this icon to pause the current file

Forward Icon. Tap this icon to skip to the next file, or press and hold this icon to fast forward the current file.

Previous Icon. Tap this icon to skip to the previous file, or press and hold this icon to rewind the current file.

Close. Exits Music playback, and returns you to music selection

Delete. Tapping this icon will allow you to delete files in the current folder

Video

Please Note that this player supports video playback of AVI files in 160x128 resolution or less. If your video file is not in AVI format, or the resolution is higher than 160x128, the device will NOT play them. If your video files do not meet these requirements, please use the video conversion tool loaded in the Tools and Manual folder on the player.

After you enter Video Mode, tap the play icon to begin playing.
Alternatively, you can tap the power button to begin playing.

- Play Icon. Tap this icon to begin playing your file.
- Pause Icon. Tap this icon to pause the current file
- Forward Icon. Tap this icon to skip to the next file
- Previous Icon. Tap this icon to skip to the previous file
- Close. Exits video playback, and returns you to video selection
- Delete. Tapping this icon will allow you to delete your videos.

**FM Radio**

**Before entering the radio mode, please insert your headphones, as these will act as an antenna, enabling better reception**

FM-Radio mode allows you to listen to the FM Radio.
Normal Play—When selected, you will tap the next and previous icons to scan .1MHz

Station Play—When selected, you will tap the next and previous icons to skip between saved stations.

Auto Search—when selected, the radio will automatically scan and save any stations with a strong enough signal as a saved station. Once it has finished scanning, the FM will enter Station Play mode.

Play Icon. Tap this icon to begin playing the radio.

Pause Icon. Tap this icon to pause radio playback. Please note that this merely stops the signal from being heard, it will NOT stop the station from continuing playback

Previous

Next

Save. Tap this icon to save a station. If you are on a station which
has already been saved, tapping this icon will delete the saved station.

❌: Return. Exits FM Playback

**Pictures**

Please note that this player supports image files in JPG, GIF, and BMP formats. If your image file is not in this format, then the images will NOT display.
