Introducing the Samsung Ultrabooks. Don’t forget to breathe.

Three Stunning Versions
Samsung offers three gorgeous versions of the ultra-slim, ultra-light Series 5 ultrabook:
- 14” with a 500GB HDD, ExpressCache technology and an optical disk drive;
- 13” with a 500GB HDD and ExpressCache technology;
- 13” with a 128GB SSD. Each will take your breath away.

An Ultrabook with an ODD
Samsung offers one of the only ultrabooks with an integrated optical disk drive (14” model). It’s a truly full-featured ultrabook that sacrifices nothing.

Sleek and Chic Samsung Design
Ultra-light, ultra-thin and ultra-sleek, you’ll never get tired of staring at the Series 5 ultrabook.

Amazing High Definition Display
Samsung excels at picture quality. The razor-sharp high-definition LCD screen features SuperBright™ technology, for a brilliant 350-nit screen (up to 40% brighter than many traditional PCs) and stunning range of color (up to 16 million colors).

ExpressCache Technology
The blazing fast performance of solid state. The massive storage of a hard disk drive. Innovative ExpressCache technology combines them both.

Ease of Use
There’s beauty in simplicity. Our PowerPlus battery technology gives you a battery that lasts all day. Easy Settings allow you quick control. Easy Migration makes setup a snap, and Sleep-and-Charge USB can charge a device even when the ultrabook is off.

At Samsung, it is our goal to reduce everything you see and feel about our latest product to a single word: Wow. Our latest manifestations of that goal are the Series 5 ultrabooks. With breathtaking design and stunning picture quality, along with the connectivity you need, they’ll inspire you wherever you choose to take them. Wherever you go, make the trip better by bringing along a Series 5 ultrabook. Life is too short to settle for anything less than wow. Designed to go. Power to perform.
