IMPORTANT: Please read this operation manual before starting operating the equipment.

IMPORTANT : Veuillez lire ce mode d'emploi avant de commencer à utiliser l'appareil.

IMPORTANTE: Lea este manual de operación antes de comenzar a operar el equipo.
TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE.

WARNING:
The lightning flash with arrow-head symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated “dangerous voltage” within the product’s enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within a triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product.

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

CAUTION: TO PREVENT ELECTRIC SHOCK, MATCH WIDE BLADE OF PLUG TO WIDE SLOT, FULLY INSERT.

IMPORTANT INFORMATION

WARNING: TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE.

IMPORTANT:
To aid reporting in case of loss or theft, please record the TV’s model and serial numbers in the space provided. The numbers are located at the rear of the TV.

Model No.:
Serial No.:
IMPORTANT INFORMATION

WARNING: FCC Regulations state that any unauthorized changes or modifications to this equipment not expressly approved by the manufacturer could void the user’s authority to operate this equipment.

CAUTION:
This product satisfies FCC regulations when shielded cables and connectors are used to connect the unit to other equipment. To prevent electromagnetic interference with electric appliances such as radios and televisions, use shielded cables and connectors for connections.

DECLARATION OF CONFORMITY:
SHARP LIQUID CRYSTAL TELEVISION, MODEL LC-40LE810UN/LC-46LE810UN/LC-52LE810UN/LC-60LE810UN
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.
RESPONSIBLE PARTY:
SHARP ELECTRONICS CORPORATION
Sharp Plaza, Mahwah, New Jersey 07495-1163
TEL: 1-800-BE-SHARP
For Business Customers: URL http://www.sharpusa.com

INFORMATION:
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
— Reorient or relocate the receiving antenna.
— Increase the separation between the equipment and receiver.
— Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
— Consult the dealer or an experienced radio/TV technician for help.

"Note to CATV system installer: This reminder is provided to call the CATV system installer’s attention to Article 820-40 of the National Electrical Code that provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical."

This product qualifies for ENERGY STAR when “Home” is selected for “TV Location”.
Setting “TV Location” to “Home” allows the TV to achieve an energy-saving status for household use.

DEAR SHARP CUSTOMER

Thank you for your purchase of the Sharp Liquid Crystal Television. To ensure safety and many years of trouble-free operation of your product, please read the Important Safety Instructions carefully before using this product.

IMPORTANT SAFETY INSTRUCTIONS

Electricity is used to perform many useful functions, but it can also cause personal injuries and property damage if improperly handled. This product has been engineered and manufactured with the highest priority on safety. However, improper use can result in electric shock and/or fire. In order to prevent potential danger, please observe the following instructions when installing, operating and cleaning the product. To ensure your safety and prolong the service life of your Liquid Crystal Television, please read the following precautions carefully before using the product.

1) Read these instructions.
2) Keep these instructions.
3) Heed all warnings.
4) Follow all instructions.
5) Do not use this apparatus near water.
6) Clean only with dry cloth.
7) Do not block any ventilation openings. Install in accordance with the manufacturer’s instructions.
8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11) Only use attachments/accessories specified by the manufacturer.
12) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13) Unplug this apparatus during lightning storms or when unused for long periods of time.
14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

Additional Safety Information

15) Power Sources—This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply to your home, consult your product dealer or local power company. For products intended to operate from battery power, or other sources, refer to the operating instructions.
16) Overloading—Do not overload wall outlets, extension cords, or integral convenience receptacles as this can result in a risk of fire or electric shock.
17) Object and Liquid Entry—Never push objects of any kind into this product through openings as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. Never spill liquid of any kind on the product.
18) Damage Requiring Service—Unplug this product from the wall outlet and refer servicing to qualified service personnel under the following conditions:
   a) When the AC cord or plug is damaged,
   b) If liquid has been spilled, or objects have fallen into the product,
   c) If the product has been exposed to rain or water,
   d) If the product does not operate normally by following the operating instructions.
   Adjust only those controls that are covered by the operating instructions as an improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to its normal operation,
   e) If the product has been dropped or damaged in any way, and
   f) When the product exhibits a distinct change in performance - this indicates a need for service.
19) Replacement Parts—When replacement parts are required, be sure the service technician has used replacement parts specified by the manufacturer or have the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock, or other hazards.
20) Safety Check—Upon completion of any service or repairs to this product, ask the service technician to perform safety checks to determine that the product is in proper operating condition.
21) Wall or ceiling mounting—When mounting the product on a wall or ceiling, be sure to install the product according to the method recommended by the manufacturer.
IMPORTANT SAFETY INSTRUCTIONS

• Outdoor Antenna Grounding — If an outside antenna is connected to the television equipment, be sure the antenna system is grounded so as to provide some protection against voltage surges and built-up static charges. Article 810 of the National Electrical Code, ANSI/NFPA 70, provides information with regard to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, size of grounding conductors, location of antenna-discharge unit, connection to grounding electrodes, and requirements for the grounding electrode.

EXAMPLE OF ANTENNA GROUNDING AS PER NATIONAL ELECTRICAL CODE, ANSI/NFPA 70

• Water and Moisture — Do not use this product near water - for example, near a bath tub, wash bowl, kitchen sink, or laundry tub; in a wet basement; or near a swimming pool; and the like.
• Stand — Do not place the product on an unstable cart, stand, tripod or table. Placing the product on an unstable base can cause the product to fall, resulting in serious personal injuries as well as damage to the product. Use only a cart, stand, tripod, bracket or table recommended by the manufacturer or sold with the product. When mounting the product on a wall, be sure to follow the manufacturer’s instructions. Use only the mounting hardware recommended by the manufacturer.
• Selecting the location — Select a place with no direct sunlight and good ventilation.
• Ventilation — The vents and other openings in the cabinet are designed for ventilation. Do not cover or block these vents and openings since insufficient ventilation can cause overheating and/or shorten the life of the product. Do not place the product on a bed, sofa, rug or other similar surface, since they can block ventilation openings. This product is not designed for built-in installation; do not place the product in an enclosed place such as a bookcase or rack, unless proper ventilation is provided or the manufacturer’s instructions are followed.
• The Liquid Crystal panel used in this product is made of glass. Therefore, it can break when the product is dropped or applied with impact. Be careful not to be injured by broken glass pieces in case the panel breaks.
• Heat — The product should be situated away from heat sources such as radiators, heat registers, stoves, or other products (including amplifiers) that produce heat.
• The Liquid Crystal panel is a very high technology product with 2,073,600 pixels, giving you fine picture details. Occasionally, a few non-active pixels may appear on the screen as a fixed point of blue, green or red. Please note that this does not affect the performance of your product.
• Lightning — For added protection for this television equipment during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna. This will prevent damage to the equipment due to lightning and power-line surges.
• Power Lines — An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be taken to keep from touching such power lines or circuits as contact with them might be fatal.
• To prevent fire, never place any type of candle or flames on the top or near the TV set.
• To prevent fire or shock hazard, do not place the AC cord under the TV set or other heavy items.
• Do not display a still picture for a long time, as this could cause an afterimage to remain.
• To prevent fire or shock hazard, do not expose this product to dripping or splashing.
• No objects filled with liquids, such as vases, should be placed on the product.
• Do not insert foreign objects into the product. Inserting objects in the air vents or other openings may result in fire or electric shock. Exercise special caution when using the product around children.

Precautions when transporting the TV
• When transporting the TV, never carry it by holding or otherwise putting pressure onto the display. Be sure to always carry the TV by two people holding it with two hands — one hand on each side of the TV.

Caring for the Cabinet
• Use a soft cloth (cotton, flannel, etc.) and gently wipe the surface of the cabinet.
• Using a chemical cloth (wet/dry sheet type cloth, etc.) may deform the components of the main unit cabinet or cause cracking.
• Wiping with a hard cloth or using strong force may scratch the surface of the cabinet.
• If the cabinet is very dirty, wipe with a soft cloth (cotton, flannel, etc.) soaked in neutral detergent diluted with water and thoroughly wrung out, and then wipe with a soft dry cloth.
• The cabinet is primarily made of plastic. Avoid using benzene, thinner, and other solvents, as these may deform the cabinet and cause the paint to peel off.
• Do not apply insecticides or other volatile liquids. Also, do not allow the cabinet to remain in contact with rubber or vinyl products for a long period of time. Plasticizers inside the plastic may cause the cabinet to deform and cause the paint to peel off.
Caring for the Liquid Crystal panel

- Turn off the main power and unplug the AC cord from the wall outlet before handling.
- Gently wipe the surface of the display panel with a soft cloth (cotton, flannel, etc.). To protect the display panel, do not use a dirty cloth, liquid cleaners, or a chemical cloth (wet/dry sheet type cloth, etc.). This may damage the surface of the display panel.
- Wiping with a hard cloth or using strong force may scratch the surface of the display panel.
- Use a soft damp cloth to gently wipe the display panel when it is really dirty. (It may scratch the surface of the display panel when wiped strongly.)
- If the display panel is dusty, use an anti-static brush, which is commercially available, to clean it.
- To avoid scratching the frame or screen, please use a soft, lint free cloth for cleaning. Approved cleaning cloths are available directly from Sharp in single (00Z-LCD-CLOTH) or triple (00Z-LCD-CLOTH-3) packs. Call 1-800-BE-SHARP for ordering, or VISIT http://www.sharpusa.com/SharpDirect.

CHILD SAFETY:
It Makes A Difference How and Where You Use Your Flat Panel Display

Congratulations on your purchase! As you enjoy your new product, please keep these safety tips in mind:

THE ISSUE
- The home theater entertainment experience is a growing trend and larger flat panel displays are popular purchases. However, flat panel displays are not always supported on the proper stands or installed according to the manufacturer’s recommendations.
- Flat panel displays that are inappropriately situated on dressers, bookcases, shelves, desks, speakers, chests or carts may fall over and cause injury.

THIS MANUFACTURER CARES!
- The consumer electronics industry is committed to making home entertainment enjoyable and safe.

TUNE INTO SAFETY
- One size does NOT fit all. Follow the manufacturer’s recommendations for the safe installation and use of your flat panel display.
- Carefully read and understand all enclosed instructions for proper use of this product.
- Don’t allow children to climb on or play with furniture and television sets.
- Don’t place flat panel displays on furniture that can easily be used as steps, such as a chest of drawers.
- Remember that children can become excited while watching a program, especially on a “larger than life” flat panel display. Care should be taken to place or install the display where it cannot be pushed, pulled over, or knocked down.
- Care should be taken to route all cords and cables connected to the flat panel display so that they cannot be pulled or grabbed by curious children.

WALL MOUNTING: IF YOU DECIDE TO WALL MOUNT YOUR FLAT PANEL DISPLAY, ALWAYS:
- Use a mount that has been recommended by the display manufacturer and/or listed by an independent laboratory (such as UL, CSA, ETL).
- Follow all instructions supplied by the display and wall mount manufacturers.
- If you have any doubts about your ability to safely install your flat panel display, contact your retailer about professional installation.
- Make sure that the wall where you are mounting the display is appropriate. Some wall mounts are not designed to be mounted to walls with steel studs or old cinder block construction. If you are unsure, contact a professional installer.
- A minimum of two people are required for installation. Flat panel displays can be heavy.

Note: CEA is the preeminent trade association promoting growth in the $161 billion U.S. consumer electronics industry. More than 2,200 companies enjoy the benefits of CEA membership, including legislative advocacy, market research, technical training and education, industry promotion and the fostering of business and strategic relationships.

**NOTE**
- Always use the AC cord supplied with the TV.
- The illustrations above are for explanation purposes and may vary slightly from the actual accessories.

**QUICK REFERENCE**

**Attaching the Stand**

- Before attaching (or detaching) the stand, unplug the AC cord.
- Before performing work spread cushioning over the base area to lay the TV on. This will prevent it from being damaged.

**CAUTION**
- Attach the stand in the correct direction.
- Do not remove the stand from the TV unless using an optional wall mount bracket to mount it.
- Be sure to follow the instructions. Incorrect installation of the stand may result in the TV falling over.

1. Confirm that there are 9 screws (5 short screws and 4 long screws) supplied with the stand unit.

2. Attach the supporting post for the stand unit onto the base using the box for the stand unit as shown below.
   - The supporting post attaches to the base at an off-centered location on the base. Be sure to attach the supporting post in the direction indicated below and attach the stand to the TV with the wider side of the base facing forward.

3. Insert the stand into the openings on the rear of the TV.

4. Insert and tighten the 4 screws into the 4 holes on the rear of the stand unit.

5. Insert the stand cover.
   - Insert the screw to secure the stand cover.

**NOTE**
- To detach the stand, perform the steps in reverse order.
QUICK INSTALLATION TIPS

1. Attach your antenna to the back of the television. (See page 9.)
2. Connect the AC plug for the television into the AC outlet.
3. Bundle the cords properly with the cable clamp.
4. When turning on the TV for the first time, press POWER on the touch sensor panel on the front of the TV.
5. Insert the batteries into the remote control unit. (See page 9.)

NOTE
- Place the TV close to the AC outlet, and keep the power plug within reach.

TO PREVENT RISK OF ELECTRIC SHOCK, DO NOT TOUCH UN-INSULATED PARTS OF ANY CABLES WITH THE AC CORD CONNECTED.

QUICK REFERENCE

Using the Remote Control Unit

Use the remote control unit by pointing it towards the remote control sensor on the TV. Objects between the remote control unit and the remote control sensor may prevent proper operation.

Cautions regarding the remote control unit
- Do not expose the remote control unit to shock. In addition, do not expose the remote control unit to liquids, and do not place in an area with high humidity.
- Do not install or place the remote control unit under direct sunlight. The heat may cause deformation of the remote control unit.
- The remote control unit may not work properly if the remote control sensor on the TV is under direct sunlight or strong lighting. In such cases, change the angle of the lighting or the TV, or operate the remote control unit closer to the remote control sensor.

IMPORTANT:
IF THE UNIT DOES NOT POWER ON - UNPLUG THE TELEVISION FROM THE OUTLET AND REPEAT THE INSTALLATION STEPS.
IF YOU STILL ENCOUNTER NO POWER, PLEASE CONTACT US AT 1-800-BE-SHARP.

NOTICE
- Speakers cannot be detached from the TV.
- The TV can be rotated up to 20 degrees to right and left.
Preparation

Antennas

To enjoy a clearer picture, use an outdoor antenna. The following is a brief explanation of the types of connections that are used for a coaxial cable. If your outdoor antenna uses a 75-ohm coaxial cable with an F-type connector, plug it into the antenna terminal at the rear of the TV set. For connecting the antenna cable to the TV, use commercially available cables.

Connecting Antenna Cable

- Connect the antenna cable to the TV using one of the methods in the illustration as shown (1, 2, 3 or 4).

1. Cable without a CATV converter
2. VHF/UHF antenna
3. Combination VHF/UHF antenna
4. Separate VHF/UHF antenna

1. A 75-ohm system is generally a round cable with F-type connector that can easily be attached to a terminal without tools.
2. A 300-ohm system is a flat “twin-lead” cable that can be attached to a 75-ohm terminal through a 300/75-ohm adapter.

NOTICE

F-type connector should be finger-tightened only.

When connecting the RF cable to the TV set, do not tighten F-type connector with tools. If tools are used, it may cause damage to your TV set. (The breaking of internal circuit, etc.)

Installing Batteries in the Remote Control Unit

If the remote control fails to operate TV functions, replace the batteries in the remote control unit.

1. Open the battery cover.
2. Insert two “AAA” size batteries (supplied with the product).
3. Close the battery cover.

• Place the batteries with their terminals corresponding to the (+) and (−) indications in the battery compartment.

CAUTION

Improper use of batteries can result in chemical leakage or explosion. Be sure to follow the instructions below.

• Do not mix batteries of different types. Different types of batteries have different characteristics.
• Do not mix old and new batteries. Mixing old and new batteries can shorten the life of new batteries or cause chemical leakage in old batteries.
• Remove batteries as soon as they are worn out. Chemicals that leak from batteries that come in contact with skin can cause a rash. If you find any chemical leakage, wipe thoroughly with a cloth.
• The batteries supplied with this product may have a shorter life expectancy due to storage conditions.
• If you will not be using the remote control unit for an extended period of time, remove batteries from it.
Part Names

**TV (Front)**

- Center Icon illumination (See page 30.)
- Remote control sensor
- OPC sensor *1 (See page 24.)

</table>

**NOTE**

- When using the remote control unit, point it at the TV.
Introduction to Connections

Experiencing HD Images

An HDTV without an HD source is just an ordinary TV. To enjoy HD images on the TV, you should get HD programming from the following:
- Over-the-air broadcasting via HD quality antenna
- HD cable/satellite subscription
- HD compatible external equipment

NOTE
- For information on updating to HD programming, ask your cable/satellite service provider.

Types of Connection

Image quality differs depending on the terminal used. To enjoy clearer images, check the output terminals of your external equipment and use its appropriate terminals for higher quality images.
- The illustrations of the terminals are for explanation purposes and may vary slightly from the actual products.

Displaying an External Equipment Image

To view external source images, select the input source by pressing INPUT on the remote control unit or on the TV.

1. Press INPUT.
   - The CH List screen displays.
2. Press ▲/▼ to select the input source.
   - You can also select the input source by pressing INPUT. Each time INPUT is pressed, the input source toggles.
   - An image from the selected source automatically displays.
   - If the corresponding input is not plugged in, you cannot change the input. Be sure to connect the equipment beforehand.
Connecting to External Equipment

You can connect many types of external equipment to your TV. To view external source images, select the input source from INPUT on the remote control unit or on the TV. (See pages 12 and 19.) For connecting the TV to external equipment, use commercially available cables.

**CAUTION**
- To protect equipment, always turn off the TV before connecting any external equipment.
- Please read the relevant operation manual (Blu-ray disc player, etc.) carefully before making connections.

### Connecting a Blu-ray Disc/DVD Player or HD Cable/Satellite Set-top Box

#### When using HDMI cable (INPUT 4, 5, 6 or 7):

The HDMI (High Definition Multimedia Interface) terminal is an audio-video interface that enables a connection for audio and video signals using a single cable. The HDMI terminal supports high-resolution video input.

- Blu-ray disc player
- DVD player
- HD cable/satellite set-top box

---

**NOTE**
- To enjoy 1080p display capability, connect your external equipment using an HDMI-certified cable or a component cable and set the equipment to 1080p output.
- Supported Audio format: Linear PCM, sampling rate 32/44.1/48kHz.
- When you connect external equipment using a DVI-HDMI conversion cable or when you connect ARC-compatible equipment, use INPUT 4.

#### When using DVI-HDMI conversion cable (INPUT 4):

- Blu-ray disc player
- DVD player
- HD cable/satellite set-top box

---

**NOTE**
- When using a DVI-HDMI conversion cable, you should make an analog audio connection. In this case, in addition to connecting a DVI-HDMI conversion cable to the INPUT 4 (HDMI) terminal, connect a Ø 3.5 mm stereo minijack cable to the AUDIO IN terminal and set “Audio Select” to “HDMI+Analog”. (See page 48.)
Connecting to External Equipment

■ When using Component cable (INPUT 1):
- Blu-ray disc player
- DVD player
- HD cable/satellite set-top box

When connecting Component cable:
- COMPONENT OUT
- Back panel:
  - horizontal inputs
  - AUDIO-R (Red)
  - AUDIO-L (White)
  - Y (Green)
  - PB (Blue)
  - PR (Red)

Audio cable
Component video cable

NOTE
- To enjoy 1080p display capability, connect your external equipment using an HDMI-certified cable or a component cable and set the equipment to 1080p output.
- See page 13 for connecting a Blu-ray disc player, DVD player or an HD cable/satellite set-top box to the HDMI terminal.

Connecting a VCR, Game Console, Camcorder or Cable/Satellite Set-top Box

■ When using Composite cable (INPUT 2):
- Game console
- VCR
- Camcorder
- Cable/Satellite set-top box

When connecting Composite cable:
- Back panel:
  - vertical inputs
  - AV cable (AV mini plug and RCA plugs)

NOTE
- For the AV cable to connect to the INPUT 2 terminal, use a plug described below.

<table>
<thead>

Connecting to External Equipment

Connecting an Audio Amplifier

■ When using optical fiber cable:
It is possible to output audio through the DIGITAL AUDIO OUTPUT terminal. (See page 28 for details.) PCM audio outputs from the terminal.

![Diagram of connecting optical fiber cable](image1)

**NOTE**
- Depending on the connected equipment, audio will not output from the DIGITAL AUDIO OUTPUT terminal in HDMI connection. In this case, set the audio formats of the connected equipment to PCM, 32/44.1/48 kHz.

■ When using audio cable:

![Diagram of connecting audio cable](image2)

**NOTE**
- See page 29 for details on the Output Select function.
Connecting a PC

Refer to page 48 for a list of PC signals compatible with the TV.

- When using HDMI cable (INPUT 4, 5, 6 or 7):

![Image of HDMI connection diagram]

**NOTE**

- Depending on the board, only video signals may be output. In this case, in addition to connecting an HDMI-certified cable to the INPUT 4 (HDMI) terminal, connect a Ø 3.5 mm stereo minijack cable to the AUDIO IN terminal and set “Audio Select” to “HDMI+Analog”. (See page 48.)
- The HDMI terminals only support digital signal.

- When using DVI-HDMI conversion cable (INPUT 4):

![Image of DVI-HDMI conversion cable connection diagram]

**NOTE**

- When using a DVI-HDMI conversion cable, you should make an analog audio connection. In this case, in addition to connecting a DVI-HDMI conversion cable to the INPUT 4 (HDMI) terminal, connect a Ø 3.5 mm stereo minijack cable to the AUDIO IN terminal and set “Audio Select” to “HDMI+Analog”. (See page 48.)

- When using analog RGB cable (INPUT 3):

![Image of analog RGB connection diagram]

**NOTE**

- When using an analog RGB cable, input the audio signal to the AUDIO IN terminal of INPUT 3.
- When connecting a PC to the INPUT 3, set “Audio Select” to “Video+Audio”. (See page 48.)
Watching TV

Turning On/Off the Power

Press POWER on the TV or on the remote control unit to turn the power on.

- The Initial Installation starts when the TV powers on for the first time. If the TV has been turned on before, the Initial Installation will not be invoked. For changing the settings of the Initial Installation, perform "EZ setup" on the Initial Setup menu on page 30.

Press POWER on the TV or on the remote control unit again to turn the power off.

- The TV enters standby and the image on the screen disappears.

- If you are not going to use this TV for a long period of time, be sure to remove the AC cord from the AC outlet.

- Weak electric power is still consumed even when the TV is turned off.

Initial Installation

When you turn on the TV for the first time, it will automatically memorize the broadcasting channels available in the region where you live. Perform the following steps before you press POWER on the remote control unit.

1. Insert the batteries into the remote control unit. (See page 9.)
2. Connect the antenna cable to the TV. (See page 9.)
3. Plug in the AC cord to the AC outlet. (See page 8.)

Language (Language setting)

Select from among 3 languages: English, French and Spanish.

1. Press ▲▼ to select the desired language listed on the screen, and then press ENTER.

   Language
   TV Location
   Air/Cable
   CH Search

   English
   Français
   Español

TV Location

Select "Home" or "Store" for the location where you plan to install the TV. This product qualifies for ENERGY STAR in Home mode default setting.

2. Press ◄► to select "Home" or "Store". Press ENTER to enter the setting.

   Home: "Power Saving" is set to "Advanced", and AV MODE is set to "STANDARD".
   Store: "Power Saving" is set to "Off" and AV MODE is set to "DYNAMIC (Fixed)". Picture Reset and Feature Demo can be set.

   Picture Reset: AV MODE will be set to "DYNAMIC (Fixed)" regardless of whether Picture Reset is "On" or "Off". If you select "On", AV MODE will be set to "DYNAMIC (Fixed)" if there is no operation for 30 minutes. When "Off" is selected, AV MODE will be set to "DYNAMIC (Fixed)".

   Feature Demo: When "On" is selected, after all the settings are completed, the Feature Demo screen is displayed if there is no operation for several minutes.

   Home: [Power Saving] is set to [Advanced] and [AV MODE] is set to [STANDARD].
   Store: [Power Saving] is set to [Off] and [AV MODE] is set to [DYNAMIC (Fixed)]. Picture Reset and Feature Demo can be set.

   Picture Reset: AV MODE will be set to [DYNAMIC (Fixed)] regardless of whether Picture Reset is [On] or [Off]. If you select [On], AV MODE will be set to [DYNAMIC (Fixed)] if there is no operation for 30 minutes. When [Off] is selected, AV MODE will be set to [DYNAMIC (Fixed)].

   Feature Demo: When [On] is selected, after all the settings are completed, the Feature Demo screen is displayed if there is no operation for several minutes.

NOTE

- ENERGY STAR qualification is based on AV MODE "STANDARD".

Air/Cable (Antenna setting)

Make sure what kind of connection is made with your TV when selecting "Air" or "Cable".

3. Press ◄► to select "Air" or "Cable". Press ENTER to enter the setting.

   Air
   Cable

CH Search (Channel search)

Channel auto search makes the TV look for all channels viewable in the set area.

4. When "Air" is selected in Antenna setting:

   Press ◄► to select "Start", and then press ENTER.

   Start
   Cancel

When "Cable" is selected in Antenna setting:

Press ◄► to select "Analog & Digital Search Start" to search both analog and digital broadcasts, or to select "Analog Search Start" to search only analog broadcasts, and then press ENTER.

   Analog & Digital Search Start
   Analog Search Start
   Cancel

   - The Channel search will start automatically.
   - To exit the Channel search screen, select "Cancel", and then press ENTER.

NOTE

- If no channel is found, confirm the type of connection made with your TV and try "EZ Setup" again. (See page 30.)
- For changing the settings of the Initial Installation, perform "EZ setup" on the Initial Setup menu on page 30.
Direct Button Operation

MUTE
Mutes the current sound output. Press MUTE.
- "(X) will be displayed on the screen for 30 minutes, and the sound is silenced.

NOTE
- Within 30 minutes of pressing MUTE, mute can be canceled by pressing VOL +/- or MUTE.
- Mute will be canceled after 30 minutes have passed. However, the TV will not suddenly output a loud sound as the volume level is set to 0 automatically.

Sleep Timer
Allows you to set a time when the TV automatically switches to standby. Press SLEEP.
- The remaining time displays when the sleep timer has been set.
- Each time you press SLEEP, the remaining time switches as shown below.

| Off | 30 | 60 | 90 | 120 |

- When set, the time automatically starts counting down.
- If you want to adjust the sleep timer, you can press SLEEP twice then change the time setting.
- When it is 5 minutes before the time expires, the remaining time will start to keep appearing every minute.

NOTE
- Select "Off" by pressing SLEEP to cancel the sleep timer.
- The TV will enter standby when the remaining time reaches 0.

FLASHBACK
Press FLASHBACK to switch to the previously tuned channel.
- Press FLASHBACK again to switch back to the currently tuned channel.

NOTE
- FLASHBACK will not work if no channel has been changed after the TV is turned on.

SURROUND
The surround function produces Surround effect from the speakers. Each time you press SURROUND, the mode changes between On and Off.
- On: Makes it possible to enjoy natural, realistic surround sound.
- Off: Outputs the normal sound.

NOTE
- You can have the same settings by choosing "Surround" on the menu items. (See page 26.)

FREEZE
Allows you to capture and freeze a moving image that you are watching. Press FREEZE.
- A moving image is captured.
- Press FREEZE again to cancel the function.

NOTE
- When this function is not available, "No displaying still image available," will display.
- The still image automatically goes out after 30 minutes.
- If you are using the freeze function and a broadcast activates the V-CHIP BLOCK, the freeze function will be canceled and a V-CHIP BLOCK message will appear.
- You can have the same settings by choosing "Freeze" on the menu items. (See page 28.)

Changing Channels
You can change channels in several ways.

Method 1
Using CH ▲▼ on the remote control unit or on the TV.

Method 2
Using remote control buttons 0-9, • (DOT).

Examples:
- To select a 1 or 2-digit channel number (e.g., Channel 5): Press 5 → ENTER.
- To select a 3-digit channel number (e.g., Channel 115): Press 1 → 1 → 5 → ENTER.
- To select a 4-digit channel number (e.g., Channel 22.1): Press 2 → 2 → • (DOT) → 1 → ENTER.

Method 3
Selecting the program from CH List.
1 Press INPUT on the remote control unit.
- The CH List screen displays.
2 Press △/△ to select "CABLE" or "AIR".
- A list of viewable programs is displayed.
3 Press ◄/► to select the desired channel, and then press ENTER.

NOTE
- When selecting a 1-digit channel number, it is not necessary to press 0 before the number.
- When you enter 0-9 only, channel selection will be made if there is no operation within a few seconds.
- If you push "0" by itself, nothing will happen.
- Complete the above steps within a few seconds.
- When you enter 0-9 and • (DOT), channel selection will be made if there is no operation within a few seconds.

Changing Volume
You can change the volume by pressing VOL +/- on the TV or on the remote control unit.
- To increase the volume, press VOL + .
- To decrease the volume, press VOL - .

Audio status

<table>
<thead>
<tr>
<th>Output device</th>
<th>Output Select</th>
</tr>
</thead>
<tbody>
<tr>
<td>Speaker</td>
<td>Fixed</td>
</tr>
<tr>
<td></td>
<td>Variable</td>
</tr>
<tr>
<td></td>
<td>Variable sound</td>
</tr>
</tbody>
</table>

- When "Output Select" is set to "Variable", the indicator on the screen changes as shown below.

NOTE
- See page 29 for details on the Output Select function.
Direct Button Operation

INPUT
To view external source images, select the input source by pressing INPUT on the remote control unit or on the TV.

1 Press INPUT.
   • The CH List screen displays.

2 Press ▲/▼ or press INPUT again to select the input source.
   • An image from the selected source automatically displays.
   • Each time INPUT is pressed, the input source toggles.
   • If the corresponding input is not plugged in, you cannot change the input. Be sure to connect the equipment beforehand.

NOTE
• See pages 12 to 16 and 43 for external equipment connection.

AV MODE
AV MODE gives you several viewing options to choose from to best match the surrounding environment of the TV, which can vary due to factors like room brightness, type of program watched or the type of image input from external equipment.

Press AV MODE. Current AV MODE displays.

• Press AV MODE again before the mode displayed on the screen disappears. The mode changes as shown below:

Example:
When the input source is TV, INPUT 1 or 2 terminals
AUTO → STANDARD → MOVIE → GAME
DYNAMIC (Fixed) → DYNAMIC → USER [TV]

Example:
When the input source is INPUT 3, 4, 5, 6 or 7 terminals
AUTO → STANDARD → MOVIE → GAME → PC
DYNAMIC (Fixed) → DYNAMIC → x.v.Color* → USER [TV]

* “x.v.Color” can only be selected when an x.v.Color signal is input using INPUT 4 to 7.

AUTO: Optimizes the image quality automatically based on the room brightness and image signal.

STANDARD: For a highly defined image in a normal lighting.

MOVIE: For a movie.

GAME: Lowers image brightness for easier viewing.

PC: For PC.

USER: Allows the user to customize settings as desired.

You can set the mode for each input source.

x.v.Color: Supports the x.v.Color international standard for wide color space. The x.v.Color signal allows you to experience colors that conventional color signals cannot reproduce.

DYNAMIC: For a clear-cut image emphasizing high contrast, useful for sports viewing.

DYNAMIC (Fixed): Changes the image and sound settings to the factory preset values. No adjustments are allowed.

NOTE
• You can select a different AV MODE item for each input mode. (For example, select STANDARD for TV input and DYNAMIC for INPUT 1.)
• When you play games, “GAME” is recommended for AV MODE.
• You cannot set “GAME” or “PC” when the TV is connected to the Internet or when the input source is “USB”.
• You can have the same settings by choosing “AV MODE” on the menu items. (See page 24.)

AUDIO

MTS/SAP stereo mode
The TV has a feature that allows reception of sound other than the main audio for the program. This feature is called Multi-channel Television Sound (MTS). The TV with MTS can receive mono sound, stereo sound and Secondary Audio Programs (SAP). The SAP feature allows a TV station to broadcast other information, which could be audio in another language or something completely different like weather information.

You can enjoy Hi-Fi stereo sound or SAP broadcasts where available.

• Stereo broadcasts: View programs like live sporting events, shows and concerts in dynamic stereo sound.
• SAP broadcasts: Receive TV broadcasts in either MAIN or SAP sound.

MAIN sound: The normal program soundtrack (either in mono or stereo).

SAP sound: Listen to a second language, supplementary commentary or other information. (SAP is mono sound.)

If stereo sound is difficult to hear.

• Obtain a clearer sound by manually switching to fixed mono-sound mode.

You can change MTS as shown below to match the television broadcast signal.

Press AUDIO to toggle between audio modes.

Examples: when receiving MTS and SAP
STEREO mode: STEREO → MONO
STEREO + SAP mode: ST(SAP) → SAP(ST) → MONO
MAIN + SAP mode: MAIN → SAP
MONO mode: MONO

Digital broadcasting audio mode
The types of audio transmitted in a digital broadcast include SURROUND as well as MONO and STEREO. In addition, it is possible for multiple audio tracks to accompany a single video track.

Press AUDIO to toggle between audio modes.

Example: when receiving Digital broadcasting
STEREO (Audio1) → STEREO (Audio2) → SURROUND (Audio3)

NOTE
• MTS only operates while in TV mode.
• You can have the same settings by choosing “Change Audio” on the menu items. (See page 28.)
Direct Button Operation

DOCK
Allows you to directly activate various types of applications.

NOTE
- See pages 37, 51 and 57 for details of viewable applications.
- You can display the DOCK by choosing "DOCK" on the menu items. (See page 28.)
- When this function is not available, "Can not operate this function now" will display.

POWER SAVING
Allows you to set the Power Saving level in order to decrease the power consumption and increase the backlight lifespan.

Press POWER SAVING.
- Each time you press POWER SAVING, the mode changes as shown below.
  Off → Standard → Advanced

NOTE
- You can have the same settings by choosing "Power Saving" on the menu items. (See page 27.)

Closed Captions and Digital Closed Captions
Your TV is equipped with an internal Closed Caption decoder. It allows you to view conversations, narration and sound effects as subtitles on your TV. Closed Captions are available on some TV programs and on some VHS home video tapes at the discretion of the program provider.

Digital Closed Caption service is a new caption service available only on digital TV programs (also at the discretion of the service provider). It is a more flexible system than the original Closed Caption system, because it allows for a variety of caption sizes and font styles. When the Digital Closed Caption service is in use, it will be indicated by the appearance of a 3-letter abbreviation that also indicates the language of the Digital Closed Captions: ENG (English), SPA (Spanish), FRA (French) or other language codes.

Not all programs and VHS videotapes offer closed captions. Please look for the "CC" symbol to ensure that captions will be shown.

In the Closed Caption system, there can be more than one caption service provided. Each is identified by its own number. The "CC1" and "CC2" services display subtitles of TV programs superimposed over the program’s picture.

In the Closed Caption system, the "Text1" or "Text2" services display text that is unrelated to the program being viewed (e.g., weather or news). These services are also superimposed over the program currently being viewed.

1. Press CC.
   - This will present the Closed Caption information display.
2. Press CC while the Closed Caption information is still on the screen.
   - Press repeatedly until you select the desired closed caption service.

   ![Closed Caption Information]

   - Depending on the number of caption services in the signal being received, you will see information such as 1/2 or 1/4 displayed.
   - 1/2 means "the first of two services".

   **Example:**
   If a program has three services (Digital CC(ENG), CC1 and Text1), the closed caption display will toggle in this sequence:
   
   ![Closed Caption Sequence]
   
   - The CC button keeps a record of the last service selected in its memory.
   - If the last closed caption mode (e.g. 1/3 ENG) you selected is not available for the next program, or on another channel, the closed caption service that is available is automatically selected, and this service appears in parentheses, e.g. "1/3(CC1)".
   - Closed Caption services that appear in parentheses will not be stored in the CC button’s memory as your last selected service. Only services that you have selected with the CC button are stored.

   **Examples:**
   In a case where there are two closed caption services provided (for instance, Digital CC(ENG) and CC1), and Digital CC(ENG) is displayed as your current selection, if Digital CC(ENG) is not broadcast for the next program, the other closed caption service, CC1, will be displayed in parentheses.
   - A closed caption service appears in parentheses because the service you selected is not available and a different service is displayed on your screen. "1/1(CC1)" is displayed instead of "1/2/ENG".

   **NOTE**
   - When “Power Saving” is set to “Standard” or “Advanced”, the Power Saving leaf icon appears on the channel information window. See page 27 for details of Power Saving settings.
   - See page 29 for detailed closed caption settings.
   - When the program contains no closed caption, “...” displays in the closed caption information.
   - If the language code, e.g. "ENG", is not found on Digital TV programs, “...” will be shown.
   - Four kinds of closed caption service (CC1, CC2, Text1, Text2) are potentially available, but a broadcast may contain none or only some of these services at the discretion of the program provider.
   - When the Sidebar Widget, TV+Web or Web is displayed, Closed Captions are not available.
   - You can have the same settings by choosing "Change CC" on the menu items. (See page 28.)
Direct Button Operation

**VIEW MODE**

You can select the screen size.

1. Press **VIEW MODE**.
   - The View Mode menu displays.
   - The menu lists the View Mode options selectable for the type of video signal currently being received.

2. Press **VIEW MODE** or ▲/▼ while the View Mode menu is displayed to select a desired item on the menu.
   - You can sequentially select a View Mode that has its own aspect ratio.

---

### For 4:3 programs

**Example: Screen size images**

<table>
<thead>
<tr>
<th>Side Bar</th>
<th>S.Stretch (Smart stretch)</th>
<th>Zoom</th>
<th>Stretch</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1.png" alt="Side Bar Image" /></td>
<td><img src="image2.png" alt="S.Stretch Image" /></td>
<td><img src="image3.png" alt="Zoom Image" /></td>
<td><img src="image4.png" alt="Stretch Image" /></td>
</tr>
</tbody>
</table>

- **Side Bar**
  - Suitable for viewing conventional 4:3 programs in their normal format.

- **S.Stretch (Smart stretch)**
  - Suitable for stretching 4:3 programs to fill the screen.

- **Zoom**
  - Suitable for viewing wide-screen 2.35:1 anamorphic DVDs in full screen.

- **Stretch**
  - This mode is useful for 1.78:1 DVDs. When viewing 1.85:1 DVDs, stretch mode will still show very thin black bands at the top and bottom of the screen.

---

### For HD programs

- **Stretch**
  - Suitable for viewing wide-screen 1.78:1 aspect ratio program, stretch mode will still show very thin black bands at the top and bottom of the screen.

- **Dot by Dot (1080i/p only)**
  - Detects the resolution of the signal and displays an image with the same number of pixels on the screen.

- **Full Screen (720p only)**
  - You can select “Full Screen” only when receiving a 720p signal.

- **S.Stretch (Smart stretch)**
  - Suitable for stretching 4:3 programs to fill the screen.

- **Zoom**
  - Suitable for viewing wide-screen 2.35:1 aspect-ratio programs in full screen.

---

**NOTE**

- When using Dot by Dot or Full Screen, it is possible to see noise or bars around different outer portions of the screen. Please change view mode to correct this.
- You can have the same settings by choosing “View Mode” on the menu items. (See page 28.)

---
On-Screen Display Menu

On-Screen Display Menu Operation

1 Press MENU to display the MENU screen.
2 ① Press ▲/▼ to select the desired menu.
   ② Press ▲/▼ to select a specific adjustment item, and then press ENTER.
      • Additional related adjustment items may be displayed. Press ▲/▼ to select the desired item.
   ③ Adjust the item while referring to the guide display.
      • Operations vary depending on the function or item. Refer to the guide display corresponding to the menu setting screen for button operations.
3 Press MENU to exit.

NOTE
• Menu options differ in the selected input modes, but the operating procedures are the same.
• The screens in the operation manual are for explanation purposes (some are enlarged, others cropped) and may vary slightly from the actual screens.

LCFONT:
• This product is embedded with LC Font technology, which was developed by SHARP Corporation for clearly displaying easy-to-read characters on LCD screens.

Menu Operation Buttons

Using the remote control
Use the following buttons on the remote control to operate the menu.

MENU: Press to open or close the menu screen.
▲/▼/◄/►: Press to select a desired item on the screen or adjust a selected item.
ENTER: Press to go to the next step or complete the setting.
RETURN: Press to return to the previous step.

Using the touch sensor panel of the main unit
You can also operate the menu with the touch sensor panel of the main unit.
Button operations on the touch sensor panel correspond to the ones on the remote control as shown below.

VOL +/-: Cursor ▲/▼ on the remote control.
CH ▲/▼: Cursor ▲/▼ on the remote control.
INPUT: ENTER on the remote control.
MENU: MENU on the remote control.
On-Screen Display Menu

Menu Items

**NOTE**
- When AV MODE is set to "AUTO", part of the menu may not be displayed correctly or the setting range of the menu may be changed.
- Some menu items may not be displayed depending on the selected input source.

</tbody>
</table>

For resetting all Picture adjustment items to the factory preset values, press ▲/▼ to select "Reset", press ENTER, press ▲/▼ to select "Yes", and then press ENTER.

AV MODE (Changing Pic.Quality)
The audio and video settings can be changed to suit the program or input content being watched. Select from the following AV modes.

- **When the input source is TV, INPUT 1 or 2 terminals:**
  AUTO/STANDARD/MOVIE/GAME/USER/DYNAMIC/DYNAMIC(Fixed)

- **When the input source is INPUT 3, 4, 5, 6 or 7 terminals:**
  AUTO/STANDARD/MOVIE/GAME/PC/USER/x.v.Color/DYNAMIC/DYNAMIC(Fixed)

**NOTE**
- The selectable items vary depending on the input source.
- You can select AV MODE by pressing AV MODE on the remote control unit. See page 19 for details of AV MODE settings.

OPC Setting
Automatically adjusts the brightness of the screen.
- **Off:** The brightness is fixed at the value set in "Backlight".
- **On:** Automatically adjusts.
- **On: Display:** Displays the OPC effect on the screen while adjusting the brightness of the screen.

**NOTE**
- When set to "On", the Optical Picture Control (OPC) senses the surrounding light and automatically adjusts the backlight brightness. Make sure nothing obstructs the OPC sensor, which could affect its ability to sense surrounding light.
- When set to "On: Display", OPC effect displays on the screen while the OPC adjusts the screen brightness.

Advanced Picture Settings
This TV provides various advanced functions for optimizing the picture quality.

C.M.S. (Color Management System)
Color tone is managed using the six-color adjustment setting.

- **C.M.S.-Hue:** This is a standard to adjust the color either more reddish or more bluish in tone.
- **C.M.S.-Saturation:** Increases or decreases the saturation of a selected color.
- **C.M.S.-Value:** A higher value makes the image brighter. A lower value makes the image darker.

**NOTE**
- For resetting all adjustment items to the factory preset values, press ▲/▼ to select "Reset", and then press ENTER.
Color Temp.  
(Color Temperature)

For a better white balance, use color temperature correction.

- **High:** White with bluish tone
- **Mid-High:**
- **Middle:**
- **Mid-Low:** White with reddish tone
- **Low:**

White balance can be adjusted between a maximum of +30 and a minimum of –30 for each color temperature.

- **R Gain (LO/HI):** –30 through +30
- **G Gain (LO/HI):** –30 through +30
- **B Gain (LO/HI):** –30 through +30

**NOTE**
- For resetting all adjustment items to the factory preset values, press ▲/▼ to select "Reset", and then press ENTER.

Motion Enhancement

Use Motion Enhancement to view fast-action video more clearly.

- **120Hz High/120Hz Low:** For obtaining a clearer image.
- **Off:** Normal image.

**NOTE**
- "Motion Enhancement" may cause image noise. If this occurs, turn the function "Off".
- When AV MODE is set to "GAME" or PC format is being input, "Motion Enhancement" is not available.

Active Contrast

Automatically adjusts the image contrast according to the scene.

- **On:** Automatically adjusts the image contrast.
- **Off:** No adjustment.

Gamma Adjustment

Adjusts the differences of picture tones between bright parts and dark parts. The adjustment range of the gamma can be set to a maximum of +2 and a minimum of –2 by pressing ◀ or ▶.

Black Level

Adjusts on-screen black level to your preferred level.

- **High:** The black level gets brighter.
- **Low:** The black level gets darker.

**NOTE**
- "Black Level" is available for input signal from Composite Video, Component 480i and analog broadcasts (air and cable).

Film Mode (3:2 pull-down)

Automatically detects a film-based source (originally encoded at 24 frames/second), analyzes it then recreates each still film frame for high-definition picture quality.

- **Advanced(High)/Advanced(Low):** Select a desired level to remove jerkiness from film contents.
- **Standard:** Detects, analyzes, converts film source.
- **Off:** Normal viewing mode.

**NOTE**
- "Film Mode" does not function when you set AV MODE to "GAME".
- "Standard" does not function when channel display shows an input signal resolution of 480p, 720p, or 1080p.
- "Film Mode" is not available during PC format input.

Digital Noise Reduction

Produces a clearer video image.

- **Auto:** Automatically adjusts the level of noise reduction.
- **High/Middle/Low:** Select a desired level for viewing a clearer video image.
- **Off:** No adjustment.

**NOTE**
- "Digital Noise Reduction" is not available during PC format input.
- When AV MODE is set to "GAME", "Auto" is not available.

3D-Y/C

Provides high quality images with minimal dot crawl and cross color noise.

- **Slow:** For still images.
- **Standard:** Normal adjustment.
- **Fast:** For moving images.

**NOTE**
- "3D-Y/C" is available for input signal from Composite Video and analog broadcasts (air and cable).

Monochrome

For viewing a video in monochrome.

- **On:** For viewing in monochrome.
- **Off:** Normal color.

Range of OPC

The brightness level range of the OPC sensor's automatic adjustments can be set according to your preferences. The adjustment range of the OPC sensor can be set to a maximum of +16 and a minimum of –16.

- **Max.: –15 through +16**
- **Min.: –16 through +15**

**NOTE**
- The "Range of OPC" settings are active only when "OPC" is set to "On".
- The maximum setting cannot be set to a smaller number than the minimum setting.
- The minimum setting cannot be set to a bigger number than the maximum setting.
- Depending on the brightness of the surrounding light, the OPC sensor might not operate if the adjustment range is small.

Range of OPC

The brightness level range of the OPC sensor's automatic adjustments can be set according to your preferences. The adjustment range of the OPC sensor can be set to a maximum of +16 and a minimum of –16.

- **Max.: –15 through +16**
- **Min.: –16 through +15**

**NOTE**
- The "Range of OPC" settings are active only when "OPC" is set to "On".
- The maximum setting cannot be set to a smaller number than the minimum setting.
- The minimum setting cannot be set to a bigger number than the maximum setting.
- Depending on the brightness of the surrounding light, the OPC sensor might not operate if the adjustment range is small.

Digital Noise Reduction

Produces a clearer video image.

- **Auto:** Automatically adjusts the level of noise reduction.
- **High/Middle/Low:** Select a desired level for viewing a clearer video image.
- **Off:** No adjustment.

**NOTE**
- "Digital Noise Reduction" is not available during PC format input.
- When AV MODE is set to "GAME", "Auto" is not available.

3D-Y/C

Provides high quality images with minimal dot crawl and cross color noise.

- **Slow:** For still images.
- **Standard:** Normal adjustment.
- **Fast:** For moving images.

**NOTE**
- "3D-Y/C" is available for input signal from Composite Video and analog broadcasts (air and cable).

Monochrome

For viewing a video in monochrome.

- **On:** For viewing in monochrome.
- **Off:** Normal color.

Range of OPC

The brightness level range of the OPC sensor's automatic adjustments can be set according to your preferences. The adjustment range of the OPC sensor can be set to a maximum of +16 and a minimum of –16.

- **Max.: –15 through +16**
- **Min.: –16 through +15**

**NOTE**
- The "Range of OPC" settings are active only when "OPC" is set to "On".
- The maximum setting cannot be set to a smaller number than the minimum setting.
- The minimum setting cannot be set to a bigger number than the maximum setting.
- Depending on the brightness of the surrounding light, the OPC sensor might not operate if the adjustment range is small.

Digital Noise Reduction

Produces a clearer video image.

- **Auto:** Automatically adjusts the level of noise reduction.
- **High/Middle/Low:** Select a desired level for viewing a clearer video image.
- **Off:** No adjustment.

**NOTE**
- "Digital Noise Reduction" is not available during PC format input.
- When AV MODE is set to "GAME", "Auto" is not available.

3D-Y/C

Provides high quality images with minimal dot crawl and cross color noise.

- **Slow:** For still images.
- **Standard:** Normal adjustment.
- **Fast:** For moving images.

**NOTE**
- "3D-Y/C" is available for input signal from Composite Video and analog broadcasts (air and cable).

Monochrome

For viewing a video in monochrome.

- **On:** For viewing in monochrome.
- **Off:** Normal color.

Range of OPC

The brightness level range of the OPC sensor's automatic adjustments can be set according to your preferences. The adjustment range of the OPC sensor can be set to a maximum of +16 and a minimum of –16.

- **Max.: –15 through +16**
- **Min.: –16 through +15**

**NOTE**
- The "Range of OPC" settings are active only when "OPC" is set to "On".
- The maximum setting cannot be set to a smaller number than the minimum setting.
- The minimum setting cannot be set to a bigger number than the maximum setting.
- Depending on the brightness of the surrounding light, the OPC sensor might not operate if the adjustment range is small.
Audio Settings

You can adjust the sound quality to your preference with the following settings.

Example

<table>
<thead>
<tr>
<th>Menu</th>
<th>Audio Settings</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Auto Volume</td>
</tr>
<tr>
<td></td>
<td>Bass</td>
</tr>
<tr>
<td></td>
<td>Treble</td>
</tr>
<tr>
<td></td>
<td>Balance</td>
</tr>
<tr>
<td></td>
<td>Surround</td>
</tr>
<tr>
<td></td>
<td>Bass Enhancer</td>
</tr>
<tr>
<td></td>
<td>Reset</td>
</tr>
<tr>
<td></td>
<td>Clear Voice</td>
</tr>
</tbody>
</table>

1. Press MENU to display the MENU screen, and then press ◀/▶ to select “Audio Settings”.
2. Press ▲/▼ to select a specific adjustment item.
   - Select “Auto Volume”, “Surround”, “Bass Enhancer” or “Clear Voice”, and then press ENTER to set each item.
3. Press ▲/▼ (or ◀/▶) to select the desired setting, and then press ENTER.
4. Press MENU to exit.

### Selected item

<table>
<thead>
<tr>
<th>Selected item</th>
<th>◀button</th>
<th>▶button</th>
</tr>
</thead>
<tbody>
<tr>
<td>Treble</td>
<td>For weaker treble</td>
<td>For stronger treble</td>
</tr>
<tr>
<td>Bass</td>
<td>For weaker bass</td>
<td>For stronger bass</td>
</tr>
<tr>
<td>Balance</td>
<td>Decrease audio from the right speaker</td>
<td>Decrease audio from the left speaker</td>
</tr>
</tbody>
</table>

### Auto Volume

Different sound sources sometimes do not have the same loudness level, such as a program and its commercial breaks. The Automatic Volume Control (Auto Volume) reduces this problem by equalizing levels.

- **High**: Reducing the loudness gaps among different sound sources strongly.
- **Middle**: Reducing the loudness gaps among different sound sources slightly.
- **Low**: Reducing the loudness gaps among different sound sources slightly.

### Surround

The surround function produces Surround effect from the speakers.

- **On**: Makes it possible to enjoy natural, realistic surround sound.
- **Off**: Outputs the normal sound.

### Bass Enhancer

This function allows you to enjoy bass-enhanced sound.

- **On**: Bass Enhancer function is on.
- **Off**: Normal sound.

### Clear Voice

This function emphasizes speech against background noise for greater clarity.

### NOTE

- Audio menu is grayed out when “Output Select” is set to “Variable”. (See page 29.)
- For resetting Audio adjustment items, except “Clear Voice”, to the factory preset values, press ▲/▼ to select “Reset”, press ENTER, press ▲/▼ to select “Yes”, and then press ENTER.
Power Control

Power control setting allows you to save energy.

Example

Power Control Setting

<table>
<thead>
<tr>
<th>Power Control Menu</th>
</tr>
</thead>
<tbody>
<tr>
<td>Power Control</td>
</tr>
<tr>
<td>Audio Only</td>
</tr>
<tr>
<td>Power Saving</td>
</tr>
<tr>
<td>No Signal Off</td>
</tr>
<tr>
<td>No Operation Off</td>
</tr>
</tbody>
</table>

Example

1. Press MENU to display the MENU screen, and then press ←/→ to select “Power Control”.
2. Press ↑/↓ to select a specific adjustment item, and then press ENTER.
3. Press ↑/↓ (or ←/→) to select the desired setting, and then press ENTER.
4. Press MENU to exit.
   - Skip this step for “Audio Only”.

Audio Only

When listening to music from a music program, you can turn the screen off and enjoy audio only.

Video On: Audio is output without screen image.
Video Off: Both screen images and audio are output.

NOTE
- The screen image will return to normal when a button (except those for audio adjustment, such as VOL, MUTE, SURROUND, AUDIO) is pressed.

Power Saving

This function allows you to set the Power Saving level in order to decrease the power consumption and increase the backlight lifespan.

- **Standard:** Optimizes power reduction based upon video content. When set to “Standard”, " " appears on the screen.
- **Advanced:** Optimizes power reduction based upon video content and engages OPC. When set to “Advanced”, " " appears on the screen.
- **Off:** This function does not work.

NOTE
- “Power Saving” does not function when you set AV MODE to “AUTO” or “DYNAMIC (Fixed)”.
- You cannot select a different Power Saving item for each AV MODE.
When “Power Saving” is set, the “OPC” settings for all AV Modes will automatically change.
- If you set "OPC" to "On" when "Power Saving" is set to "Standard", then the "Power Saving" setting will change to "Advanced".
- When you change the "Power Saving" setting from "Advanced" to "Off" or to "Standard", "OPC" will be set to "Off".
- "AUTO" and "DYNAMIC (Fixed)" will remain set to "Off".
- When "Power Saving" is set to "Standard" or "Advanced", the Power Saving leaf icon appears to the left of "OPC" in the Picture Settings menu screen.
- You can select Power Saving by pressing POWER SAVING on the remote control unit. (See page 20.)

No Signal Off

When set to "Enable", the power will automatically shut down if there is no signal for 15 minutes.

NOTE
- When it is 5 minutes before the power shuts down, the remaining time will start to keep appearing every minute.
- "Disable" is the factory preset value.
- When a TV program finishes, this function may not operate.

No Operation Off

When set to "Enable", the power will automatically shut down if there is no operation for 3 hours.

NOTE
- When it is 5 minutes before the power shuts down, the remaining time will start to keep appearing every minute.
- "Disable" is the factory preset value.
On-Screen Display Menu

System Options

1 Press MENU to display the MENU screen, and then press ▲/▼ to select "System Options".
2 Press ▲/▼ to select a specific adjustment item and then press ENTER.
3 Press ▲/▼ (or ▶/◀) to select the desired setting, and then press ENTER.
4 Press MENU to exit.

View Option

These functions are useful for adjusting the audio and video settings. The View Option functions can be operated with the remote control unit.

View Mode

This function changes the screen size. Select "View Option" on the menu to display the View Mode menu screen. The View Mode menu varies depending on the input source.

NOTE

• You can select View Mode by pressing VIEW MODE on the remote control unit.
  — See page 21 for adjusting the video being input from a TV or other audiovisual equipment.
  — See page 47 for adjusting the video being input from a PC.
  — See page 59 for adjusting the video being input from Netflix.

Freeze

Allows you to capture and freeze a moving image that you are watching.
• Select "Freeze" again on the menu and press ENTER to return to the normal image.

NOTE

• You can select Freeze by pressing FREEZE on the remote control unit. See page 18 for details of Freeze function.

Change Audio

Allows you to change the audio when multiple audio is available for the program you are watching.

NOTE

• You can change Audio by pressing AUDIO on the remote control unit. See page 19 for details of Audio function.

Change CC

Allows you to change the Closed Caption display. Select "Change CC" on the menu to display the Closed Caption information.
• The information displayed varies depending on the program you are watching.

NOTE

• You can change Closed Caption by pressing CC on the remote control unit. See page 20 for details of Closed Caption function.

DOCK

The DOCK can be displayed by selecting "DOCK" on the MENU screen.

NOTE

• You can display the DOCK by pressing DOCK on the remote control unit. (See page 20.)

Input Terminal Setting

Audio Setup

You can output digital audio to an AV amplifier or similar device whose DIGITAL AUDIO INPUT terminal is connected to the DIGITAL AUDIO OUTPUT terminal on the TV. Please select an audio output format compatible with the audio format of the program you are watching and the equipment connected.

PCM: The optical output terminal outputs audio signal in PCM form. If your digital audio system does not support Dolby Digital, select "PCM".

Dolby Digital: The optical output terminal outputs audio signal in Dolby Digital form. It reproduces sound from surround program of digital.

Input Skip

This setting allows you to skip the HDMI or PC-IN Input ("Input 3 (PC)", "Input 4 (HDMI)", "Input 5 (HDMI)", "Input 6 (HDMI)", and "Input 7 (HDMI)") on the Input Selection operation.

Yes: Skips the input.
No: Does not skip input.

Input Label

Lets you set the input terminal displayed when using the CH List or channel display. Press ▲/▼/◀/▶ to select the new name for the input mode.
• Using the software keyboard, you can enter up to 10 characters for text. (See page 52.)

NOTE

• You cannot change labels if the input source is TV.

HDMI Setup

To watch an HDMI or PC-IN equipment image, select "INPUT4", "INPUT5", "INPUT6" or "INPUT7" from the CH List using INPUT on the remote control unit or on the TV.

Auto View:
Enable: To use View Mode based on signal recognition, including an HDMI signal.
Disable: No function.

NOTE

• Refer to your external equipment operation manual for the signal type.
• When connecting a DVI-HDMI conversion adapter/cable to the HDMI terminal, the image may not come in clearly.
### Output Select

Allows you to select what controls the audio output.

**Fixed:** Sound via speaker is adjusted with \( \text{VOL}^+ / - \) on the remote control unit or \( \text{VOL}^- / + \) on the TV. Sound via the AUDIO OUT terminal is not adjustable and outputs at a consistent level.

**Variable:** Sound via the AUDIO OUT terminal is adjusted with \( \text{VOL}^+ / - \) on the remote control unit or \( \text{VOL}^- / + \) on the TV. Sound via speaker is muted.

### Color System

Select the video signal system compatible with your equipment from the list below:

Auto/NTSC/PAL-M/PAL-N

**NOTE**
- "Color System" can only be set for the INPUT 2.
- If you have already set the Secret No., input the 4-digit secret number here. See page 31 for setting a secret number.

### Menu Design

#### Language

You can also select a language from the System Options menu. Select from among 3 languages: English, French and Spanish.

#### Channel Selecting Effect

You can select whether to use transition effects when changing channels.

- **Yes:** A transition effect is used when the channel is changed.
- **No:** No function.

#### Program Title Display

Select the CH display when changing channels for digital broadcasting.

- **Yes:** "Program Info." displays.
- **No:** "Program Info." does not display.

### Position

For adjusting a picture’s horizontal and vertical position.

- **H-Pos.:** Centers the image by moving it to the left or right.
- **V-Pos.:** Centers the image by moving it up or down.

**NOTE**
- For resetting adjustments to the factory preset values, press \( \text{\uparrow}/\downarrow \) to select "Reset", and then press \( \text{ENTER} \).
- When connecting a PC to the HDMI terminal, the image position will be automatically adjusted. It cannot be manually adjusted.
- The screen position variable ranges depend on the View Mode or the signal type. The ranges can be seen on the position-setting screen.
- Adjustments are stored separately according to input source.

### Caption Setup

This function allows you to adjust the closed caption screen appearance to suit your preference. You can adjust 7 items: "Caption Size", "Font Style", "Foreground Color", "Foreground Opacity", "Background Color", "Background Opacity" and "Character Edge".

**Example:**

- **Selectable items available for "Font Style".**
  - **Default:** The font specified by broadcasting station or default font.
  - **Type 0:** Proportional font used in the MENU screen.
  - **Type 1:** Monospaced with serifs.
  - **Type 2:** Proportionally spaced with serifs.
  - **Type 3:** Monospaced without serifs.
  - **Type 4:** Proportionally spaced without serifs.
  - **Type 5:** Casual font type.
  - **Type 6:** Cursive font type.
  - **Type 7:** Small capitals.

**NOTE**
- For resetting adjustments to the factory preset values, press \( \text{\uparrow}/\downarrow \) to select "Reset", and then press \( \text{ENTER} \).
- The default value depends on the broadcasting station.

### Game Play Time

This function displays the elapsed game time so you do not lose track of the time. To display the elapsed time, select "GAME" for the AV MODE before starting the game.

- **On:** The elapsed time is displayed every 30 minutes when you switch to GAME mode in external input mode.
- **Off:** No adjustment.

### Operation Lock Out

This function locks the operation buttons on the TV and the remote control.

- **Off:** No adjustment.

- **RC Control Lock:** All buttons on the remote control are locked.

- **Button Control Lock:** All buttons on the TV, except POWER, are locked.

When "RC Control Lock" or "Button Control Lock" is selected, a confirmation screen appears.

- **On:** Locks the operation buttons.
- **Off:** No adjustment.

**NOTE**
- To unlock the buttons on the remote control by using the touch sensor panel of the main unit (see page 22):
  1. Press \( \text{MENU} \) to display the MENU screen, and then press \( \text{VOL}^- / + \) to select "System Options".
  2. Press \( \text{CH}/\uparrow/\downarrow \) to select "Operation Lock Out", and then press \( \text{INPUT} \).
  3. Press \( \text{CH}/\uparrow/\downarrow \) to select "Off", and then press \( \text{INPUT} \).
  4. Press \( \text{MENU} \) to exit.

- To unlock the buttons on the TV, press \( \text{MENU} \) on the remote control, and then select "Off" in "Operation Lock Out".
## Icon Light Up Setting
When this function is set to "On", the LED on the front of the TV turns on.

**NOTE**
- "On" is the factory preset value. If you want to turn off the LED, set the function to "Off".

## Demo Mode
You can select the image from several types of demo mode.

**4 Color LCD/AQUOS Net/Feature Demo/Auto Play**
- If you select "Auto Play", you need to set playback type.
  - **Continuous**: Play Demos continuously.
  - **10 min.**: Play Demos every 10 minutes.
  - **20 min.**: Play Demos every 20 minutes.

**NOTE**
- This function will be canceled when you press **EXIT** on the remote control unit.
- When "Demo Mode" is set to "4 Color LCD", "AQUOS Net" or "Feature Demo", pressing **FREEZE** pauses/restarts demo.
- "Demo Mode" may not be selected depending on input signal type.
- "Demo Mode" may be automatically canceled depending on input signal type.

## Initial Setup

### Example

<table>
<thead>
<tr>
<th>Initial Setup</th>
<th>Menu</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Initial Setup</strong></td>
<td></td>
</tr>
<tr>
<td><strong>EZ Setup</strong></td>
<td>Broadcasting Setting</td>
</tr>
</tbody>
</table>

**1** Press **MENU** to display the MENU screen, and then press **◄ ►** to select "Initial Setup".

**2** Press **▲▼** to select a specific adjustment item, and then press **ENTER**.
- When you select "EZ Setup", "CH Setup", "Parental CTRL" or "Reset", you can enter the 4-digit secret number here. See page 31 for setting a secret number.

**3** Press **▲▼** (or **◄ ►** ) to select the desired setting, and then press **ENTER**.

**4** Press **MENU** to exit.

### EZ Setup
You can run EZ Setup again, even after setting up the preset channels.

- **Language**: Select from among 3 languages (English, French and Spanish).
- **TV Location**: Select "Home" or "Store" for the location where you plan to install the TV. This product qualifies for ENERGY STAR in Home mode default setting.
  - **Home**: "Power Saving" is set to "Advanced", and AV MODE is set to "STANDARD".
  - **Store**: "Power Saving" is set to "Off" and AV MODE is set to "DYNAMIC (Fixed)". Picture Reset and Feature Demo can be set.
- **Picture Reset**: AV MODE will be set to "DYNAMIC (Fixed)" regardless of whether Picture Reset is "On" or "Off". If you select "On", AV MODE will be reset to "DYNAMIC (Fixed)" if there is no operation for 30 minutes. When "Off" is selected, AV MODE will be set to "DYNAMIC (Fixed)".
- **Feature Demo**: When "On" is selected, after all the settings are completed, the Feature Demo screen is displayed if there is no operation for several minutes.
  - ENERGY STAR qualification is based on AV MODE "STANDARD".
- **Air/Cable**: Make sure what kind of connection is made with your TV when selecting "Air" or "Cable".
- **CH Search**: Channel auto search makes the TV look for all channels viewable in the set area.

**NOTE**
- See Initial Installation on page 17 for setting each item.
- If no channel is found, confirm the type of connection made with your TV and try "EZ Setup" again.
- If you select "Analog Search Start" and initiate the channel search, the CH Memory for Cable Digital will be deleted.
Broadcasting Setting

CH Setup
If Initial Installation does not memorize all the channels in your region, follow the instructions below to manually memorize the channels.

Air/Cable: Make sure what kind of connection is made with your TV when selecting "Air" or "Cable".

CH Search: Channel auto search makes the TV look for all channels viewable in the set area.

CH Memory: You can select the channels to skip in each ANALOG (Air), ANALOG (Cable), DIGITAL (Air) and DIGITAL (Cable).

On: Skips channels. (Channel selection disabled using CH ∧/∨.)
Off: Does not skip channels. (Channel selection enabled using CH ∧/∨.)

Remove Scrambled CH: This function makes the TV look for and then delete digital cable channels that are scrambled and so unavailable in the set area. The process may take more than 20 minutes.

Yes: Starts to remove scrambled channels.
No: This function does not work.

NOTE
- See Initial Installation on page 17 for setting each item.
- If no channel is found, confirm the type of connection made with your TV and try channel search again.
- If you select "Analog Search Start" and initiate the channel search, the CH Memory for Cable Digital will be deleted.

Favorite CH (Favorite Channel Setting)
This function allows you to program 4 favorite channels, in 4 different categories. By setting the favorite channels in advance, you can select your favorite channels easily.

To register your favorite channel:
Select "Register" and then press ENTER. Press ▲/▼/◄/► to select the position in the category, and then press ENTER to register.

To delete your favorite channel:
Select "1 Data Clear" and then press ENTER. Press ▲/▼/◄/► to select the channel you want to delete, and then press ENTER. Select "Yes" and then press ENTER.

To delete all the favorite channels, select "All Data Clear".

NOTE
- Before setting the channel, select the channel you want to register as a favorite channel.
- You can display the "Favorite CH" screen by pressing FAVORITE CH on the remote control.

Antenna Setup-DIGITAL
In order to receive digital air broadcasts, you need a digital broadcast antenna. You can confirm the antenna configuration through the "Antenna Setup-DIGITAL" screen. If necessary, adjust the direction of the antenna to obtain the maximum signal strength.

Signal Strength: The signal strength of DIGITAL channel is displayed. The signal information is based on the current channel.

Channel Strength: Input the 2-digit channel number to check the signal strength of the selected channel. Make sure the signal is strong enough for each channel.
- This function is available for DIGITAL (Air) only.

Wall Mount Audio Setup
This selects the optimal audio for the program you are currently watching even when the TV is mounted to a wall.

Yes: Selects the optimal audio.
No: No adjustment.

Reset
If complex adjustments are made and the settings cannot be restored to normal, you can reset the settings to the factory preset values.
- If you have already set the Secret No., input the 4-digit secret number here.

NOTE
- The Channel Setup settings will not be changed.
- The Language settings will not be changed.
- The Secret number settings will not be changed.
- The TV Location settings will not be changed.

Individual Setting

Secret No.
Allows you to use a secret number to protect certain settings from being accidentally changed.

IMPORTANT:
Three conditions must be met to enable the V-Chip (see pages 32 to 33):
1. Secret No. is registered.
2. V-Chip/V-Chip (DTV Only) settings have been made.
   - The "V-Chip (DTV Only)" will only be selectable when a new rating system can be downloaded via digital broadcasting in the U.S.
3. "Status" is set to "On".

■ Setting the Secret No.
You can set and change the secret number by using 0-9.

Yes: Changes or sets the Secret No.
No: The confirmation screen to clear the Secret No. appears when the Secret No. has been set. When the Secret No. has not been set, the previous screen will be displayed.

■ Secret No. Clear
You can clear your secret number.

Yes: Your secret number is cleared.
No: Your secret number is not cleared.

NOTE
- As a precautionary measure, make a note of your secret number and keep it in a familiar place.
- If the secret number is cleared, the Status setting automatically sets to "Off". "V-Chip" and "Status" will not be selectable from the menu.
On-Screen Display Menu

Parental CTRL
(Parental Control Setting)

Status
Used to enable or disable the parental control function.
This function will not be selectable from the menu if you do not first configure your secret number.

- **On**: Enables Parental CTRL.
- **Off**: Disables Parental CTRL.

V-Chip

V-CHIP is an electronic filtering device built into your TV. This tool gives parents a great degree of control over broadcasts accessed by their children. It allows parents to select programs judged suitable for child viewing while blocking ones judged not suitable. It does so automatically once you activate the V-CHIP feature in your TV. “V-Chip” and “Status” will not be selectable from the menu if you do not first configure your secret number.

- The U.S. has two rating systems for viewing content: TV Parental Guidelines and movie ratings.
- The TV Parental Guidelines work in conjunction with the V-CHIP to help parents screen out inappropriate television shows from their children.
- Movie ratings are used for original movies rated by the Motion Picture Association of America (MPAA) as watched on cable TV and not edited for television. The V-CHIP can also be set to block MPAA-rated movies.

**NOTE**
- The setting automatically enters "Block" for any ratings below your selection.
- If Status is not set to "On", the configuration settings will not work.

MPAA (Voluntary movie rating system)

**Example**

<table>

Press ▲/▼ to adjust the item to your desired position. "▲" indicates the item is blocked. Press MENU to exit.

- G: General audiences. All ages admitted.
- PG: Parental guidance suggested. Some material may not be suitable for children.
- R: Restricted. Under 17 requires accompanying parent or adult guardian (age varies in some jurisdictions).
- NC-17: No one 17 and under admitted.
- X: X is an older rating that is unified with NC-17 but may be encoded in the data of older movies.

**NOTE**
- Voluntary movie rating system only uses an age-based rating.

Press ▲/▼ to adjust the item to your desired position. "▲" indicates the item is blocked. Press MENU to exit.

TV Parental Guidelines

**Example**

<table>
<thead>
<tr>
<th>Rating</th>
<th>TV-Y</th>
<th>TV-Y7</th>
<th>TV-G</th>
<th>TV-PG</th>
<th>TV-14</th>
<th>TV-MA</th>
</tr>

<td>☒ ☒ ☒ ☒ ☒</td>
<td>☒ ☒ ☒ ☒ ☒</td>
</tr>
</tbody>
</table>

When setting an individual content-based rating item:

1. Press ▶ or ENTER to access blocked content items from the currently selected age-based rating item.
2. Press ▲/▼ to select an individual item, and then press ENTER to unblock it ("▲" is removed). Repeat the same steps for the other items.
3. Press ▶ or RETURN to register after all individual content rating items are set.

**Content**
- FV: Fantasy violence.
- V: Violence.
- S: Sexual situation.
- L: Adult language.
- D: Sexually suggestive dialog.

✘: The content rating can be set, but this rating is not normally broadcast by TV stations.
✘: Content rating can be set.
Canadian Rating Systems (Canadian English ratings and Canadian French ratings)
• The TV rating systems in Canada are based on the Canadian Radio-Television and Telecommunications Commission (CRTC) policy on violence in television programming.
• While violence is the most important content element to be rated, the structure developed takes into consideration other program content like language, nudity, sexuality and mature themes.
• When setting the V-CHIP on the Canadian system you can choose either the Canadian English ratings or the Canadian French ratings.

■ Canadian English Ratings

<table>
<thead>
<tr>
<th>Example</th>
</tr>
</thead>
<tbody>
<tr>
<td>E</td>
</tr>
<tr>
<td>C8+</td>
</tr>
<tr>
<td>PG</td>
</tr>
<tr>
<td>18+</td>
</tr>
</tbody>
</table>

Press ▲/▼ to adjust the item to your desired position. "▲" indicates the item is blocked. Press MENU to exit.

E: Exempt: Includes news, sports, documentaries and other information programming; talk shows, music videos, and variety programming.
C: Children: Intended for younger children under the age of 8 years. Pays careful attention to themes that could threaten their sense of security and well-being.
C8+: Children over 8 years old: Contains no portrayal of violence as the preferred, acceptable, or only way to resolve conflict; nor encourage children to imitate dangerous acts which they may see on the screen.
G: General: Considered acceptable for all age groups. Appropriate viewing for the entire family, contains very little violence, physical, verbal or emotional.
PG: Parental Guidance: Intended for a general audience, but may not be suitable for younger children (under the age of 8) because it could contain controversial themes or issues.
14+: Over 14 years: Could contain themes where violence is one of the dominant elements of the storyline, but it must be integral to the development of plot or character. Language usage could be profane and nudity present within the context of the theme.
18+: Adults: Intended for viewers 18 years and older and might contain depictions of violence, which while related to the development of plot, character or themes, are intended for adult viewing. Could contain graphic language and portrayals of sex and nudity.

■ Canadian French Ratings

<table>
<thead>
<tr>
<th>Example</th>
</tr>
</thead>
<tbody>
<tr>
<td>E</td>
</tr>
<tr>
<td>8ans+</td>
</tr>
<tr>
<td>16ans+</td>
</tr>
<tr>
<td>NONE</td>
</tr>
</tbody>
</table>

Press ▲/▼ to adjust the item to your desired position. "▲" indicates the item is blocked. Press MENU to exit.

E: Exempt programming.
G: General: All ages and children, contains minimal direct violence, but may be integrated into the plot in a humorous or unrealistic manner.
8ans+: General but inadvisable for young children: May be viewed by a wide public audience, but could contain scenes disturbing to children under 8 who cannot distinguish between imaginary and real situations. Recommended for viewing with parent.
13ans+: Over 13 years: Could contain scenes of frequent violent scenes and therefore recommended for viewing with parent.
16ans+: Over 16 years: Could contain frequent violent scenes and intense violence.
18ans+: Over 18 years: Only for adult viewing. Could contain frequent violent scenes and extreme violence.

■ How to temporarily release the V-CHIP BLOCK
When the V-CHIP BLOCK is working and censors a broadcast, "V-CHIP HAS BEEN ACTIVATED." displays.
1 Press ENTER while the V-CHIP is working, and then the secret number setting menu displays.
2 Input the 4-digit secret number by using 0–9. At this time V-CHIP BLOCK temporarily releases.

■ Reactivating the temporarily released V-CHIP BLOCK
You can reactivate the temporarily released V-CHIP BLOCK as shown below.
• Select "Status" setting from the Parental CTRL menu to reactivate BLOCK. (See page 32.)
• Select "V-Chip" setting ("MPAA", "TV Guidelines", "Can. English Ratings" or "Can. French Ratings") from the Parental CTRL to reactivate BLOCK. (See pages 32 to 33.)
• Switch off the TV power.

NOTE
• Performing any of the three above will activate the V-CHIP BLOCK.
Information

Example

1 Press MENU to display the MENU screen, and then press ◄► to select “Information”.
2 Press ◄► to select a specific adjustment item, and then press ENTER.
3 Press ◄► (or ◄►) to select the desired setting, and then press ENTER.
4 Press MENU to exit.

Identification
The current version of the TV software is displayed.

Digital Caption Info.  
(Digital Caption Information)
This function allows viewing of digital closed caption information for the digital broadcast program being viewed.

NOTE
• This list is not displayed for analog broadcasts or external input audio/video.
• This information is not included in CC1, CC2, Text1, or Text2, and is not displayed in a list.

Software Update
This is used to upgrade the system software to enhance the TV functions.

1 Press MENU to display the MENU screen, and then press ◄► to select “Information”.
2 Press ◄► to select “Software Update”, and then press ENTER.
• If you have already set the Secret No., go to step 3.
3 Input the 4-digit secret number by using 0-9.

4 Press ◄► to select “Manual Update” or “Auto Update Setting”, and then press ENTER.
• The operations thereafter vary depending on the setting.

Manual Update
Select the method for manually updating the software.

Network Update: Downloads the update file via the network and then updates the software. (See page 35.)
USB memory: Updates the software using a USB memory device containing the update file. (See pages 35 to 36.)

NOTE
• A broadband connection and Internet Setting are required to update the software using the network. (See page 51.)
• It may take time to access and download the update depending on the Internet connection and other factors.

Auto Update Setting
When the TV is on or Netflix is used, this function enables the TV to connect to the network and check for updates automatically.

Yes: Enables Auto Update Setting.
No: Disables Auto Update Setting.

When an update is available, a message is displayed. Press ◄► to select “Yes”, and then press ENTER to display the download screen. (See page 35.)

NOTE
• This function does not work when a broadband connection or Internet Setting is not available.
On-Screen Display Menu

■ Updating the Software via the Network

1 Press ◄► on the Manual Update screen to select “Network Update”, and then press ENTER.
   - The TV connects to the network and checks for updates.
   - To cancel, press ENTER.

2 The current version of the TV and the latest version of firmware are displayed. To update the TV software, select “Yes”, and then press ENTER.

   - When a server connection cannot be established or an update is not available, a message is displayed. If a server connection cannot be established, check the broadband connection and Internet Setting.

3 After the update file is downloaded, the software update process begins.

4 When the software is successfully updated, a screen is displayed indicating that the update process is completed.
   Press ENTER.
   The TV restarts, and it takes a while until the system update is completed. Do not unplug the AC cord.

   - If the software was not updated successfully, check the broadband connection and Internet Setting, and then try updating the software again.

■ Updating the Software with a USB Memory Device

To check for the availability of a software update, visit http://www.sharpusa.com/products/support/. If you have any questions, please call 1-800-BE-SHARP (800-237-4277).

CAUTION
- Do not remove the USB memory device or unplug the AC cord while the software is being updated.
- Be sure to properly follow the whole procedure described below, step by step. Otherwise, for example, the TV cannot read the data in the USB memory device and software updating will fail.

1 Insert the USB memory device with the update file into the USB 1 or USB 2 terminal on the TV.
   - When you update the software, use only one USB terminal. Either USB 1 or USB 2 is usable.

2 Press ◄► on the Manual Update screen to select “USB Memory”, and then press ENTER.
3 Press ENTER to start checking the data in the USB memory device.

4 During the data checking, “Checking” blinks.

- The current version of the TV software and the version of the update file on the USB memory device are displayed. To update the TV software with the update file, select “Yes”, and then press ENTER.

   **Example**

<table>
<thead>
<tr>
<th>Current Version</th>
<th>Latest Version</th>
</tr>
</thead>
<tbody>
<tr>
<td>XXXXXXXX</td>
<td>XXXXXXXX</td>
</tr>
</tbody>
</table>

- If the USB memory device is not properly installed or the correct update file cannot be found on the USB memory device, an error message is displayed. Check the file on the USB memory device, and then reinsert the USB memory device correctly.

   **Example**

   Software update file is not detected in the USB memory device. Confirm that you have transferred the file to the USB memory device and retry software update.

   OK

   There is more than one software file in the USB memory device. Confirm that only the software update file is in the USB memory device.

   OK

5 Press ENTER to start updating.

   **Example**

   Press “OK” to restart the TV and complete the update. Wait several minutes and do not unplug the AC cord.

   OK

   Now updating

   50%

   Do not unplug AC cord.

   **CAUTION**

   - Do not remove the USB memory device or unplug the AC cord while the software is being updated.

6 When the software is successfully updated, a screen is displayed indicating that the update process is completed. After this screen is displayed, the TV automatically turns off and then turns on again.

   **Example**

   Software update is complete.

   Update Version UXXXXX2

   • If the update has failed, check the file in the USB memory device and try Software Update again.

   Failed to complete update. Retry Software Update. If system update fails again, contact the customer service center.

7 After the screen shown below is displayed, press ENTER.

   System software was successfully updated. Remove the USB memory device.

   OK

8 Remove the USB memory device.
Enjoying Photo and Music Playback

You can enjoy viewing photos and listening to music from external USB memory devices.

**NOTE**
- Depending on the USB memory device, the TV may not be able to recognize the recorded data.
- Use only alphanumeric characters for naming files.
- File names over 80 characters (may vary depending on character set) may not be displayed.
- Do not remove a USB memory device or memory card from the TV while transferring files, using the slide show function, or switching screens, or before you exit "USB" from the CH List.
- Do not insert and remove a USB memory device to and from the TV repeatedly.
- When using a card reader, be sure to insert Memory first before using the card reader.
- USB input cannot be selected when displaying the browser (including the Sidebar Widget). Close the browser first.

### Viewing Photos and Listening to Music

1. Insert the USB memory device with recorded photos or music into the USB 1 or USB 2 terminal on the TV.
   - The USB Media screen is displayed.
   - If USB memory devices are inserted into both terminals, the USB 1 terminal has priority.
   - The display varies depending on the type of data recorded in the USB memory device.

   **CAUTION**
   - Do not use a USB extension cable when connecting a USB memory device to the USB terminal on the TV.
   - Using a USB extension cable may prevent the TV from performing correctly.

2. Press ▲/▼ to select "Photo" or "Music", and then press ENTER.

3. Press ▲/▼/◄/► to select the drive where you want to find your files, and then press ENTER.
   - You can display the USB MENU screen by pressing D.
   - If the TV is turned off and then on again, the number assigned to the USB drive may change.

4. Press ◄/► to select the desired folder, and then press ENTER.

**NOTE**
- You do not need to select the drive in step 3 when there is only one drive in the connected USB device.
- Up to 16 drives can be displayed.

### Displaying the USB Media Screen

The USB Media screen can be displayed even by using the menu screen.

#### When displaying the data with the CH List screen

1. Press INPUT to display the CH List screen.
2. Press ▲ or press INPUT again to select "USB".
   - The display varies depending on the type of data recorded in the USB memory device.

**NOTE**
- You cannot enter this mode when a USB memory device is not inserted into the TV.
- "VIEW MODE" is fixed during this mode.
- "USER (USB)" is the default value for AV MODE setting. Each time you press AV MODE, the mode changes between "USER (USB)", "DYNAMIC (Fixed)", "DYNAMIC" and "STANDARD".

#### When displaying the data with the DOCK

1. Press DOCK to display the DOCK.
2. Press ◄/► to select "USB Media", and then press ENTER.

Other Viewing Options

Presetting Remote Control Function

You can operate the connected AV products (AV receiver, cable box, SAT tuner, DTV, VCR, DVD, BD, LD) using the presetting manufacturer function of your remote control unit.

1. Press an appropriate button (STB, DVD-VCR or AUDIO) to operate the connected equipment.
2. Press an appropriate button (STB, DVD-VCR or AUDIO) and DISPLAY at the same time to enter the code registration mode.
3. Press 0-9 to enter the manufacturer code. (See page 42.)
   - Preset mode is finished once the LED no longer lights up.
4. After registering the code, the LED will stop blinking then turn off after one second. (If you perform an incorrect operation, the LED will blink quickly then turn off.)

Operating the Connected Equipment

To operate the connected equipment, press STB, DVD-VCR or AUDIO to select your device. (STB (cable converter), DVD, BD, VCR or AUDIO.) The remote control unit button will function as follows.

1. **POWER (SOURCE)**
   - Turns the connected equipment power on and off.
2. ** Starts playback. (VCR, DVD, BD)
3. ** Rewinds the tape and allows picture search. (VCR)
   - Hold down to go in reverse. (DVD, BD)
4. ** Stops the tape transport. (VCR)
   - Playback stops when pressed. With some DVD/Blu-ray disc players, pressing the button twice may open the disc tray. (DVD, BD)
5. ** Pressing quickly once takes you to the start of the chapter currently playing. Each time you press it, you move back to the start of the previous chapter. (DVD, BD)
6. **. (DOT) (STB)
   - Press a button (or buttons) that corresponds to the channel that you wish to watch.
7. ** Rapidly advances the tape and allows picture search. (VCR)
   - Hold down to fast forward. (DVD, BD)
8. ** Sets pauses and still pictures. (VCR, DVD, BD)
9. ** Pressing quickly once takes you to the start of the next chapter. Each time you press it, you move ahead to the start of the next chapter. (DVD, BD)
10. ** Starts recording. (VCR)
11. ** FLASHBACK
   - Press to switch between the current channel and the channel you were watching immediately before. Some manufacturers do not preset FLASHBACK. (STB)
12. ** CH\ or CH\ to tune in to a higher or lower channel. (STB)
   - Press to select the channel of the TV tuner on the VCR. (VCR)
13. ** MENU
   - When this button is pressed, the DVD/BD menu will display. (DVD, BD)
14. ** , ENTER
   - Press the button to select items on the STB GUIDE screen or STB MENU screen. (STB)
   - Press the button to select items on the DVD/BD menu screen. (DVD, BD)
   - ENTER: Press to activate the selected function. (STB, DVD, BD)

* Depending on the brand, the codes of some BD players may not be supported.

**NOTE**

- Numbers marked with * are SAT codes, all others are STB codes.
Using AQUOS LINK

Controlling HDMI Equipment Using AQUOS LINK

What’s AQUOS LINK?
• Using the HDMI CEC (Consumer Electronics Control) protocol, with AQUOS LINK you can interactively operate compatible system equipment (Blu-ray disc equipment, AV amplifier, DVD).
• By connecting AQUOS LINK-compatible devices with HDMI-certified cables to the TV, you can control a recorder or AV amplifier using the remote control of the TV.
• AQUOS LINK allows you to operate the HDMI-connected equipment with one remote control.

Connected AQUOS LINK-compatible devices can be operated without changing the settings of the remote control unit.

REC STOP and OPTION buttons will function only when AQUOS LINK is used.

■ One Touch Play
While the TV is in standby mode, it automatically turns on and plays back the image from the HDMI source.

■ One Touch Recording
Press ●REC while you are viewing a broadcast received with the AQUOS LINK-compatible recorder. The AQUOS LINK automatically recognizes the connected HDMI device and starts recording.

■ Single remote control
The AQUOS LINK automatically recognizes the connected HDMI device and you can control the TV and the devices as if using a universal remote control.

■ Control the AQUOS LINK-compatible audio system
Set the volume of AQUOS LINK-compatible audio system.

NOTE
• For connecting the TV to AQUOS LINK-compatible equipment, use commercially available cables.
• Point the remote control toward the TV, not to connected HDMI equipment.
• Video noise may occur depending on the type of HDMI cable used. Make sure to use an HDMI-certified cable.
• Up to 3 pieces of HDMI recording equipment and one AV amplifier can be connected using this system.
• These operations affect the HDMI equipment selected as the current input source. If the equipment does not operate, turn on the equipment and select the appropriate input source using INPUT.

The above description is an example of the AQUOS LINK function.
The steps in “AQUOS LINK Setup” on page 44 need to be completed beforehand.
Refer to this operation manual and the operation manual of the AQUOS LINK device to be used with this TV.
Using AQUOS LINK

AQUOS LINK Setup

Example

1 Press MENU to display the MENU screen, and then press \( \uparrow/\downarrow \) to select “System Options”.
2 Press \( \rightarrow/\leftarrow \) to select “AQUOS LINK Setup”, and then press ENTER.
3 Press \( \uparrow/\downarrow \) to select a specific item, and then press ENTER.
4 Press \( \uparrow/\downarrow \) (or \( \uparrow/\downarrow \)) to select the desired setting, and then press ENTER.
5 Press MENU to exit.

AQUOS LINK Control

Select AQUOS LINK Control to disable AQUOS LINK function even when an AQUOS LINK-compatible HDMI device is connected to the TV. This function prevents the device from starting to operate unexpectedly.

Enable: You can operate AQUOS LINK-compatible equipment.

Disable: AQUOS LINK function does not work.

Auto Power On

If this is activated, the One Touch Play function is enabled.

Yes: While the TV is in standby mode, it automatically turns on and plays back the image from the HDMI source.

No: This function does not work.

Selecting Recorder

When multiple AQUOS LINK-compatible devices are connected, this function allows you to set the recorder for recording when you press \( \text{REC} \) on the TV’s remote control unit.

Press \( \uparrow/\downarrow \) to select the recorder for recording.

NOTE

- When an AQUOS LINK-compatible audio system or other equipment is connected between the TV and recorder, “Sub” is displayed.

Channel Select Key

This function can be set for each input terminal.

On: The remote control unit of the TV can be used to select the channel, display program information, and perform other operations of a connected AQUOS LINK-compatible recorder.

Off: This function does not work.

Audio Return Channel

This function allows you to listen to the TV audio via audio equipment without using an optical fiber cable, which conventionally is required.

Requirements for using an ARC-compatible AV amplifier:

- ARC-compatible AV amplifier connected to the ARC-compatible HDMI terminal (INPUT 4). (Refer to the operation manual of the ARC-compatible equipment for details.)
- Use of an ARC-compatible cable.
  
  Auto: You can listen to the TV audio with ARC-compatible audio equipment.
  
  Off: This function does not work.

NOTE

- If the TV audio cannot be output from the AV amplifier even after making the necessary settings, connect the TV to the AV amplifier with an optical fiber cable and select “Off.”
Using AQUOS LINK

Link Operation Menu

One Touch Recording

This function allows easy one-touch recording of the program being viewed on the TV to AQUOS LINK-compatible equipment with a recording function by simply pressing REC on the remote control.

Prepare the connected AQUOS LINK-compatible recorder for recording. Check the following items.

- Make sure that the antenna cable is connected.
- Check that there is sufficient available space on the recording media (HDD, DVD, etc.).
- On the TV, use “AQUOS LINK Setup” and “Selecting Recorder” to select the equipment for recording.
- By default, the recorder connected to INPUT 4 is selected for recording.

1 Press REC to start recording.
   - When you are viewing a broadcast received with the AQUOS LINK-compatible recorder selected in “Selecting Recorder”, recording to the AQUOS recorder of the broadcast being viewed starts.
   - When you are viewing a broadcast received with equipment other than the AQUOS LINK-compatible recorder selected in “Selecting Recorder” or other external input equipment, pressing REC on the remote control does not start recording.

2 Press REC STOP to stop recording.

One Touch Playback

AQUOS LINK allows you to operate the HDMI-connected equipment with one remote control.

Press ➤ to start playing back a title.

- The last played program is played back. You can use the following buttons during broadcast viewing.

<table>
<thead>
<tr>
<th>Buttons</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>POWER (SOURCE)</td>
<td>Turns the power of the HDMI connected devices on and off.</td>
</tr>
<tr>
<td>◀</td>
<td>Hold down to go in reverse.</td>
</tr>
<tr>
<td>▶</td>
<td>Starts playback.</td>
</tr>
<tr>
<td>▶</td>
<td>Hold down to fast forward.</td>
</tr>
<tr>
<td>■</td>
<td>Playback stops.</td>
</tr>
<tr>
<td>▼</td>
<td>Sets pauses and still pictures.</td>
</tr>
<tr>
<td>◀</td>
<td>Pressing quickly once takes you to the start of the chapter currently playing. Each time you press it, you move back to the start of the previous chapter.</td>
</tr>
<tr>
<td>▶</td>
<td>Pressing quickly once takes you to the start of the next chapter. Each time you press it, you move ahead to the start of the next chapter.</td>
</tr>
</tbody>
</table>

NOTE

- The buttons ◀/▶ do not function with the following Blu-ray disc players currently available.
  - BD-HP20U, BD-HP50U

Turning On/Off AQUOS LINK-compatible Equipment

You can manually turn on/off the power of connected AQUOS LINK-compatible equipment.

1 Press OPTION to display the Link Operation Menu screen.

2 Press ▲/▼ to select “Recorder Power On/Off”, and then press ENTER.

3 Select “On” (or “Off”) and press ENTER to turn on (or off) the equipment.
Using AQUOS LINK

Using the Device Operation Panel
You can use the device operation panel to control playback operations.

1 Press OPTION to display the Link Operation Menu screen.
2 Press ▲/▼ to select “Device Operation Panel”, and then press ENTER.
3 Press ▲/▼/▲/▼ to select the desired operation.

**NOTE**
- This function works only when AQUOS LINK-compatible equipment with the Device Control Panel function is connected.

Playback of Titles Using AQUOS LINK
This section explains how to play back a title in the AQUOS LINK-compatible equipment.

1 Power on the AQUOS LINK-compatible equipment, and select appropriate external input.
2 Press OPTION to display the Link Operation Menu screen.
3 Press ▲/▼ to select “Play from Rec. List”, and then press ENTER.
   • The title list data from the connected AQUOS LINK-compatible equipment displays.
4 Select the title with ▲/▼/▲/▼, and then press ▶ to start playback.

**NOTE**
- This function works only when AQUOS LINK-compatible equipment is connected.

Displaying the Setup Menu of AQUOS LINK-Compatible Equipment
You can call up a setup menu from the connected AQUOS LINK-compatible equipment.

1 Press OPTION to display the Link Operation Menu screen.
2 Press ▲/▼ to select “Show Start Menu”, and then press ENTER.
   • The setup menu of the AQUOS LINK-compatible equipment is displayed.

**NOTE**
- Depending on the status of the equipment (recording or in standby mode, etc), the setup menu will not be displayed.
- The setup menu will not be displayed with the player BD-HP20U currently available.

Selecting Media Type for AQUOS LINK-Compatible Recorder
You can switch the media (HDD or DVD) for playback or recording on the AQUOS LINK-compatible recorder.

1 Press OPTION to display the Link Operation Menu screen.
2 Press ▲/▼ to select “Change Media of Device”, and then press ENTER.
3 Select the desired media such as DVD or HDD.
   • The Media type toggles each time you press ENTER in “Change Media of Device”.
   • Select the media to be operated by the player.

**NOTE**
- The Media type toggles each time you press ▲/▼/▲/▼.

Timer Recording
You can call up the AQUOS LINK-compatible recorder’s EPG and preset timer recordings using the TV’s remote control.

1 Press OPTION to display the Link Operation Menu screen.
2 Press ▲/▼ to select “Link Booking (Rec. Book)”, and then press ENTER.
   • The recorder’s EPG is displayed.
3 Select the program to record.
   • You can use ▲/▼/▲/▼, ENTER, RETURN, EXIT and the colored buttons.

**NOTE**
- This function works only when an AQUOS LINK-compatible recorder is connected.
- Refer to the operation manual of the recorder for details.

Listening with the AQUOS Audio Speaker System
You can select to listen to the TV sound only from the AQUOS LINK-compatible audio system and manually change its sound mode.

1 Press OPTION to display the Link Operation Menu screen.
2 Press ▲/▼ to select “Change Audio Output Device”, and then press ENTER.
3 Press ▲/▼ to select “By AQUOS audio SP”, and then press ENTER.
   • The sound from the TV speaker is muted and only the sound from the AQUOS LINK-compatible audio system is audible.
   • You can use VOL +/− and MUTE.
Select “By AQUOS SP”, and then press ENTER to listen to the TV sound.

Manually Changing AQUOS AUDIO Speaker System’s Sound Mode

1 Press OPTION to display the Link Operation Menu screen.
2 Press ▲/▼ to select “Change Surround Mode”, and then press ENTER.
   • The sound mode changes each time you press ENTER.
   • Refer to the operation manual of the AQUOS LINK-compatible audio system for details.

HDMI Device Selection
If multiple HDMI devices are connected in a daisy chain, you can specify which device to control here.

1 Press OPTION to display the Link Operation Menu screen.
2 Press ▲/▼ to select “Choosing Operating Device”, and then press ENTER. The HDMI device toggles each time you press ENTER.

Displaying the Link Operation Menu

1 Press OPTION to display the Link Operation Menu screen.
2 Press ▲/▼ to select “AQUOS LINK Setup”, and then press ENTER.
   • The AQUOS LINK Setup menu screen is displayed.
Using a PC

Displaying a PC Image on the Screen

**VIEW MODE**

You can select the screen size.

1. Press **VIEW MODE**.
   - The View Mode menu displays.
   - The menu lists the View Mode options selectable for the type of video signal currently being received.

2. Press **VIEW MODE** or ▲/▼ while the View Mode menu is displayed to select a desired item on the menu.
   - You can sequentially select a View Mode that has its own aspect ratio.

**NOTE**
- Connect the PC before making adjustments. (See page 16.)
- Selectable screen size may vary with input signal type.
- You can have the same settings by choosing “View Mode” on the menu items. (See page 28.)

Example: Screen size images

<table>
<thead>
<tr>
<th>Input signal</th>
<th>Normal</th>
<th>Zoom</th>
<th>Stretch</th>
<th>Dot by Dot</th>
</tr>
</thead>
<tbody>
<tr>
<td>4:3</td>
<td>Keeps the original aspect ratio in a full screen display.</td>
<td>For viewing widescreen programs. The top and bottom of the image is cropped.</td>
<td>An image fully fills the screen.</td>
<td>Detects the resolution of the signal and displays an image with the same number of pixels on the screen.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Input signal</th>
<th>Stretch</th>
<th>Dot by Dot</th>
</tr>
</thead>
<tbody>
<tr>
<td>16:9</td>
<td>An image fully fills the screen.</td>
<td>Detects the resolution of the signal and displays an image with the same number of pixels on the screen.</td>
</tr>
</tbody>
</table>
Using a PC

1 Press \textbf{MENU} to display the \textbf{MENU} screen, and then press \textbf{c/d} to select “System Options”.

2 Press \textbf{a/b} to select “Input Terminal Setting”, and then press \textbf{ENTER}.

3 Press \textbf{a/b} to select “PC input”, and then press \textbf{ENTER}.

4 Press \textbf{a/b} (or \textbf{c/d}) to select or adjust the desired setting, and then press \textbf{ENTER}.

\section*{Adjusting the PC Image}

\subsection*{Auto Sync. (for Analog PC Input Mode Only)}

For automatically adjusting the PC image.

\textbf{Yes}: Auto Sync. starts and “Now adjusting the image.” displays.

\textbf{No}: This function does not work.

\textbf{NOTE}

- “Auto Sync.” may fail even if “Completed” displays.
- “Auto Sync.” may fail if the computer image has low resolution, has unclear (black) edges, or is moved while executing “Auto Sync.”.
- Be sure to connect the PC to the TV and switch it on before starting “Auto Sync.”.

\subsection*{Fine Sync.}

Ordinarily you can easily adjust the picture as necessary to change image position using “Auto Sync.”. In some cases, however, manual adjustment is needed to optimize the image.

- \textbf{H-Pos.}: Centers the image by moving it to the left or right.
- \textbf{V-Pos.}: Centers the image by moving it up or down.
- \textbf{Clock}: Adjust when the image flickers with vertical stripes.
- \textbf{Phase}: Adjust when characters have low contrast or when the image flickers.

\textbf{NOTE}

- For resetting all “Fine Sync.” adjustment items to the factory preset values, press \textbf{a/b} to select “Reset”, and then press \textbf{ENTER}.
- It is not necessary to adjust the “Clock” or “Phase” when a digital signal is being input, so it cannot be selected.
- The default cursor position may not be in the center, because the screen position variable ranges may be asymmetrical.
- The screen position variable ranges depend on the View Mode or the signal type. The ranges can be seen on the position-setting screen.

\section*{Setting Audio Input}

\subsection*{Audio Select}

This function sets the terminal to output the computer audio. The adjustment items vary depending on the input source. Select the input source corresponding to the terminal connected to the PC and then adjust the desired item.

\textbf{INPUT 3}

\textbf{Video}: Select this when the TV and PC are connected using an analog RGB cable and the audio is not input.

\textbf{Video+Audio}: Select this when the TV and PC are connected using an analog RGB cable and the audio is input via a Ø 3.5 mm stereo minijack.

\textbf{INPUT 4}

\textbf{HDMI(Digital)}: Select this when the TV and PC are connected using an HDMI-certified cable and audio is input via the same cable.

\textbf{HDMI+Analog}: Select this when the TV and PC are connected using a DVI-HDMI conversion cable and the audio is input via a Ø 3.5 mm stereo minijack.

\textbf{NOTE}

- When “Audio Select” is set to “HDMI(Digital)”, sound will not be produced if you use only an HDMI-certified cable to connect HDMI-compatible equipment. To produce sound, you should make an analog audio connection.
- If you want to connect HDMI-compatible equipment using only an HDMI-certified cable, set “Audio Select” to “HDMI(Digital)”.

\section*{PC Compatibility Chart}

It is necessary to set the PC correctly to display XGA and WXGA signal.

\begin{tabular}{|l|l|l|l|}
\hline

Using a PC

RS-232C Port Specifications

■ PC control of the TV
- Attach an RS-232C cable cross-type (commercially available) to the supplied Din/D-Sub RS-232C for the connections.

NOTE
- This operation system should be used by a person who is accustomed to using computers.

■ Communication conditions
Set the RS-232C communication settings on the PC to match the TV’s communication conditions. The TV’s communication settings are as follows:

- Baud rate: 9,600 bps
- Data length: 8 bits
- Parity bit: None
- Stop bit: 1 bit
- Flow control: None

■ Communication procedure
Send the control commands from the PC via the RS-232C connector.

The TV operates according to the received command and sends a response message to the PC.

Do not send multiple commands at the same time.

■ Command table
- Commands not indicated here are not guaranteed to operate.

■ Parameter
- Input the parameter values, aligning left, and fill with blank(s) for the remainder. (Be sure that 4 values are input for the parameter.)

When the input parameter is not within an adjustable range, “ERR” returns. (Refer to “Response code format”.)

Any numerical value can replace the “x” on the table.

NOTE
- If an underbar (_) appears in the parameter column, enter a space.
- If an asterisk (*) appears, enter a value in the range indicated in brackets under CONTROL CONTENTS.
- Any numerical value can replace the “x” on the table.
Using the Internet

- By connecting your TV to a broadband system, you can access the Internet from the TV.
- Display the “Sidebar Widget” on the screen to check out the latest Internet information and access a range of useful information for AQUOS users from the original home page.

* About the original home page
- The original home page is a website set up specifically for AQUOS owners.
- The website is worth visiting as it provides a range of useful information, including tips on using your AQUOS and a frequently asked questions section.

Internet Setup

Connecting to the Internet
- To connect your TV to the Internet, you must have a broadband Internet connection.
- Use an ETHERNET cable (commercially available) to connect the ETHERNET terminal on the TV to your broadband router (commercially available).
- If you do not have a broadband Internet connection, consult the store where you purchased your TV or ask your Internet service provider or telephone company.

Checking your Internet connection
- Press AQUOS NET twice or three times to switch to the TV+Web or Web screen. When the original home page appears, now you are connected to the Internet.
- If you have failed to connect to the Internet in the above operation, then an error message will appear. In this case, press EXIT to return to the normal TV screen and check the relevant settings (see page 51).
- If you still cannot connect to the Internet, please consult your Internet service provider or telephone company.

Information on the PLC adapter

The SHARP PLC adapter kit (sold separately) lets you use the existing electrical wiring in your house to create a home network.*1 Simply plug the adapters into electrical outlets at the desired locations, and then connect your computer and other devices to the adapters with LAN cables (two LAN cables are provided).

If you have Broadband Internet service, connect your router to one of the adapters to allow all your network devices to access the Internet. Data can be exchanged at speeds of up to 85 Mbps*2 on your network.

*1: PLC does not have router function. To connect to the Internet via network, Broadband Internet connection and related devices such as router etc is required.
*2: The actual communication speed may be affected by power line conditions, other electrical appliances and network conditions.

</tbody>
</table>
Perform the procedures below to check your TV’s network settings.

**Ethernet Setup**

1. Press EXIT to display the normal TV screen.
2. Press MENU to display the MENU screen, and then press \(\uparrow\downarrow\) to select “Initial Setup”.
3. Press \(\uparrow\downarrow\) to select “Internet Setting”, and then press ENTER.
4. Press \(\uparrow\downarrow\) to select “Communication Setup”, and then press ENTER.
5. Press \(\uparrow\downarrow\) to select “Ethernet Setup”, and then press ENTER.
   - Check that numbers are displayed for each setting.
   - If there are any settings without numbers, specify the numbers by following the on-screen instructions.
   - For information on how to enter text, see page 52.
6. Press MENU to exit.

**Setting the Zip Code**

1. Repeat steps 1 to 4 in Ethernet Setup.
2. Press \(\uparrow\downarrow\) to select “Zip Code”, and then press ENTER. After “Change” is highlighted, press ENTER again.
3. Press \(\uparrow\downarrow\) to select “US/Mexico” or “Canada”, and then press ENTER.
4. Enter your zip code.
   - The U.S. and Mexico use 5-digit zip codes. Canada uses 6-digit codes.
   - For the U.S. and Mexico, use 0-9 on the remote control unit to enter your zip code. For Canada, use the software keyboard.
5. After “Complete” is highlighted, press ENTER.
6. Press MENU to exit.

**Interactive Service**

If you do not want other people to connect to the Internet in your absence, you can make settings to keep the TV away from the Internet.

1. Press MENU to display the MENU screen, and then press \(\uparrow\downarrow\) to select “Initial Setup”.
2. Press \(\uparrow\downarrow\) to select “Internet Setting”, and then press ENTER.
3. Press \(\uparrow\downarrow\) to select “Interactive Service”, and then press ENTER.
   - Input the 4-digit secret number by using 0-9.
4. Press \(\uparrow\downarrow\) to select “No”, and then press ENTER.
   - If you want to allow Internet connection, select “Yes”, and then press ENTER.
5. Press MENU to exit.

**Displaying Updated Information and Support Service**

This function can be used to display up-to-date information on the Sidebar Widget via the Internet and allow you to receive support service over the network.

**Sidebar Widget**

1. Press AQUOS NET repeatedly to display the Sidebar Widget.
   - Each time you press AQUOS NET, the screen image toggles as shown below:
     - Sidebar Widget ➔ TV+Web ➔ Web ➔ TV
   - When you are not connected to the Internet, a network function explanation screen is displayed. The services displayed vary depending on circumstances.
2. Press \(\uparrow\downarrow\) to select a title, and then press ENTER.
   - The web page for the selected title is displayed.
   - The service details vary depending on circumstances.
3. Press EXIT to return to the normal TV screen.

**AQUOS Advantage Live**

1. Press DOCK to display the DOCK.
2. Press \(\uparrow\downarrow\) to select “AQUOS ADVANTAGE LIVE”, and then press ENTER.
3. Press \(\uparrow\downarrow\) to select the desired service.
   - **My Account:** Register your AQUOS LCD today and receive a free 3 month warranty extension! Use this service to complete registration, view user and warranty information.
   - **Live Support:** Connect to Sharp service center over the internet to receive remote assistance for AQUOS. Sharp advisors will remotely connect to AQUOS and can provide variety of services such as setup, performance diagnostic, etc. You must agree to the terms and conditions when using Live Support.
   - **Mail Center:** Stay connected with SHARP news and more!
   - **Learn More:** Learn more about the many benefits of AQUOS Advantage membership available to you.
   - **New Software:** Stay up to date with the latest AQUOS LCD TV software.
   - **User Guide:** In depth AQUOS operating instructions for your AQUOS LCD TV.
4. Press EXIT to return to the normal TV screen.

**NOTE**
- The display may change as a result of a software update.
**Entering Text (Software Keyboard)**

When you are editing an input screen or specifying the Ethernet settings used for accessing the Internet, enter text from the software keyboard.

**NOTE**
- You can enter up to 128 characters for text.

The text you enter is displayed as you type it in. To move the cursor (the current input position), use "↑" or "↓" on the software keyboard.

Press "↑" to select the type of characters entered: alphabet, number or sign. (The selectable types depend on the input source.)

While you are entering text, likely input conversion candidates are displayed based on what you typed in.
- You can also enter text by pressing A, B or C on the remote control unit.

### Buttons Description

<table>

<tr>
<td>C (blue)</td>
<td>Directly enters prediction candidate 3.</td>
</tr>
<tr>
<td>D (yellow)</td>
<td>Enters a space.</td>
</tr>
</tbody>
</table>

**Caps Off/Caps On/Caps Lock**

If "alphabet" is selected in "Character Set", this switches characters between uppercase and lowercase.

Each time you press ENTER, the character type switches as shown below:
- Caps Off: all the characters are lowercased
- Caps On: only the first character is uppercased
- Caps Lock: all the characters are uppercased

**Done**
Applies the entered information and closes the software keyboard.

**Quit**
Closes the software keyboard without applying the entered information.
- You can also close the software keyboard by pressing EXIT on the remote control unit.

**Clear**
Erases the character string.
- When the cursor is somewhere in a line: the character string to the right of the cursor will be erased.
- When the cursor is at the right end of a line: the entire line will be erased.

**Delete**
If the cursor is at the right end of a line, this erases text one character at a time.
- You can also delete text by pressing RETURN on the remote control unit.
Using the Browser

- Press A/B/C/D to select a link that you want to jump, and then press ENTER.

EXIT
- Press the button to return to the TV screen.

RETURN
- Press the button to return to the previous page.

Example: The image shown below, which is only for explanation, is subject to change.

About links
- Web pages on the Internet often include “links” that allow you to jump to other web pages (or sites).
- “Links” can take various forms, including words or images, but they always work in the same way letting you jump to the link destination when you select them.
- Selected items (such as links of text input fields) are enclosed in a yellow frame.
- You can jump from a “link” to the corresponding link destination.

CAUTION
- If the power is cut due to a power failure or the TV being unplugged while you are using the Internet, information such as bookmarks or cookies may not be saved correctly.

NOTE
When a security notification window is displayed:
- Press ENTER to close the window.
- This window appears when you visit a web page that has security protection, or when you move from a protected page to an unprotected page.
- In “Security Settings” you can set whether or not this window is displayed. (See page 56.)

When a cookie confirmation window appears:
Choose whether or not to accept the cookie (see page 56), and then press ENTER.
- In “Cookies” settings you can set whether or not this window is displayed. You can also opt to delete all the cookies at once. (See page 56.)

To users who access the Internet from a PC
- When you access the Internet from this TV, the procedures may not be the same as regular browser-based access on a PC.
- You cannot download files.
- You cannot view a history of the pages you have visited.
- You cannot change the startup page displayed when you press AQUOS NET.
- Pop-up windows appear in separate tabs.
- On some pages, video and audio cannot be played, and text or images may not be displayed correctly.

When “?” is displayed in a page:
- The page failed to load successfully, or it contains images with formats that cannot be displayed on the TV. Try reloading the page by selecting “?” (see page 54) in the toolbar.
Using the Internet

Using the Toolbar
You can use the toolbar to control the browser and to specify settings.

1 Press D on the remote control unit to display the toolbar.
2 Press ◄/► to select a function, and then press ENTER.

<table>
<thead>
<tr>
<th>Selected item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>

<tr>
<td>Displays the Browser menu.</td>
<td></td>
</tr>
</tbody>
</table>

Using Tabs
You can use tabs to view up to 3 web pages at the same time. Each page appears in a separate tab, and you can switch between the tabs.

1 Press B on the remote control unit to display the Tab menu.
   • You can also display the Tab menu by clicking “🔍” in the toolbar.

<table>
<thead>
<tr>
<th>Selected item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Select This</td>
<td>Displays the web page in the selected tab.</td>
</tr>
<tr>
<td>Close This Tab</td>
<td>Closes the selected tab. • You can also press C on the remote control unit to close a tab.</td>
</tr>
<tr>
<td>Close Other Tabs</td>
<td>Closes the other (unselected) tabs.</td>
</tr>
<tr>
<td>Create New Tab</td>
<td>Creates a new tab. • You can also press A on the remote control unit to create a tab.</td>
</tr>
</tbody>
</table>

2 Press ◄/► to select a tab.
3 Press ▲/▼ to select the item you want to use, and then press ENTER.
Using the Internet

Saving the URL of the Current Page
Adding a web page to your bookmarks allows you to return to that page later by simply selecting it from your list of bookmarks.

1 Display the page that you want to bookmark.
2 Press D on the remote control unit to display the toolbar.
3 Press ▼ to select “❤” in the toolbar, and then press ENTER.
4 Select “Yes”, and then press ENTER.
   • The page is added to your bookmarks.

Opening a Bookmarked Page
1 Press D on the remote control unit to display the toolbar.
2 Press ▼ to select “❤” in the toolbar, and then press ENTER.
   • Your bookmarks list is displayed.
3 Press ▲/▼/◄/► to select the page you want to access, and then press ENTER.
   • The selected page is displayed.
   • If you have bookmarked 11 or more web pages, press ◄/► to scroll through your bookmarks list.

When opening a bookmark in a new tab:
1 Press A instead of ENTER.
   • The Bookmarks menu appears.
2 Select “Open in New Tab”, and then press ENTER.

Editing Bookmarks
You can rearrange or delete the bookmarks.

Switching between the URL and title name
1 Press D on the remote control unit to display the toolbar.
2 Press ◄/► to select “❤” in the toolbar, and then press ENTER.
   • Your bookmarks list is displayed.
3 Press ▲/▼ to select the title you want to edit from the bookmarks list, and then press A on the remote control unit.
   • The Bookmarks menu appears.
4 Select “Display by Address” or “Display by Title” in the Bookmarks menu, and then press ENTER.

Rearranging displayed items
1 Press D on the remote control unit to display the toolbar.
2 Press ◄/► to select “❤” in the toolbar, and then press ENTER.
   • Your bookmarks list is displayed.
3 Press ▲/▼ to select the title you want to display in a different position from the bookmarks list, and then press A on the remote control unit.
   • The Bookmarks menu appears.
4 Press ▲/▼ to select “Move Up” or “Move Down”, and then press ENTER.

Deleting bookmarks
1 Press D on the remote control unit to display the toolbar.
2 Press ◄/► to select “❤” in the toolbar, and then press ENTER.
   • Your bookmarks list is displayed.
3 Press ▲/▼ to select the title you want to delete, and then press A on the remote control unit.
   • The Bookmarks menu appears.
4 Press ▲/▼ to select “Delete”, and then press ENTER.
   • To delete all the bookmarks, select “Delete All”.
5 Press ◄/► to select “Yes”, and then press ENTER.
Using the Internet

Browser Settings
You can check or modify your browser settings from the Browser menu. The Browser menu includes a display settings menu and a security settings menu.

1. Press D to display the toolbar.
2. Press ▲/▼ to select “ен” in the toolbar, and then press ENTER.
3. Press ▲/▼ to select the settings menu you want to access.
4. Press ▲/▼ to select and confirm the item you want to set.
5. Press ▲/▼/▲/▼ to specify the required setting, and then press ENTER.
6. Press D to exit.

View Settings
Zoom In/Out:
- Zoom in: Displays content enlarged to 200%.
- Normal: Displays content at 100%.
- Zoom out: Displays content reduced to 75%.
Encoding: Selects the desired encoding from the list below:
- Western (ISO-8859-1)/Unicode (UTF-8)
Page Information: Displays information about the currently displayed page.
Reset:
- Yes: Resets the browser settings.
- No: Does not reset the browser settings.

Security Settings
Security:
- Save Setting: If you select this option, a message is displayed when you move from a protected page to an unprotected page. To change this setting, remove the tick, select “Save Setting” and then press ENTER.
- Root Certificates/CA Certificates: Displays the list of certificates. To disable a certificate, select the certificate to be disabled and press A to display the sub-menu. Select “Disable”, and then press ENTER.
  - Disabled certificates are shown unticked in the certificate list screen.
Cookies:
- Accept all: Select this option to accept all cookies.
- Reject all: Select this option when you do not want to accept cookies.
- Prompt before accepting: When you open a page that uses cookies, this option displays a confirmation message.
- Delete All Cookies: Deletes all your cookies.
Server Certificates: Displays certificates for the connected server.
Browser Information: Displays browser information.

Using the Internet

Instantly Watching Movies from Netflix

Please check that the most current software is loaded on TV by selecting "Auto Update Setting" on "Software Update" (see page 34) or by visiting http://www.sharpusa.com/products/support/ to check for a download of the newest software version.

This function allows you to enjoy Netflix through the Internet. Netflix is an online DVD and Blu-ray Disc rental service, offering rental-by mail and streaming instantly to Netflix members.

• To enjoy this function, make a broadband Internet connection to both your PC and the TV (see page 50), and then set Internet Setting (see page 51), then perform the following operation.

NOTE
• The quality depends on the network speed and original bit rate.
• For more information on Netflix visit http://www.netflix.com/help or login to your Netflix account and click "Help" at the top of the page.
• Netflix is only available in the U.S.
• Illustrations are examples and may differ from the actual Netflix screens. The display and operations may change as a result of a software update.
• Use Netflix without configuring a proxy server. Part or all of Netflix may not be available when connecting to the Internet via a proxy server.
• When Netflix is used, “Position” does not work.

Settings for Watching Netflix Content on the TV

1 Press DOCK to display the DOCK.
2 Press ▲ to select "NETFLIX", and then press ENTER.
3 Read the Disclaimer displayed on the screen. If you agree, press ▲ on the last page to select "Agree", and then press ENTER. (If you do not agree, this service cannot be used.)

4 Obtain the Netflix activation code.

■ If you do not have a Netflix account
  1 Press ▲ to select "no-start my FREE trial", and then press ENTER.

The screen of the TV

2 Subscribe by visiting http://www.netflix.com/sharp from your PC.
3 Press ▲ to select "I’m now a member", and then press ENTER.

The screen of the TV

4 If you have a Netflix account
Press ▲ to select "yes-activate instant streaming from Netflix", and then press ENTER.

The screen of the TV

5 You will see the following window.
• The activation code is displayed.
Using the Internet

6 Using your PC, visit http://www.netflix.com/activate, and then enter the activation code displayed in step 5.

The screen of the PC

- After a period of time, the TV will be activated, and the empty instant Queue screen will be displayed.

Adding Content to the Instant Queue

7 To add a movie to the instant Queue of the TV, select the “Add to Instant” button on Netflix "Watch Instantly" web page using your PC.

- After a period of time, the instant Queue registered using your PC will appear on the TV screen.

Playing Back Content in the Instant Queue on the TV

8 Press ▲/▼ to select the desired title, and then press ENTER.

- When registration and set-up are completed, you can jump from the DOCK to the instant Queue screen. (See steps 1 to 2 in Settings for Watching Netflix Content on the TV.)

The screen of the TV

- When there are more than one title in the instant Queue, press ◀/▶ to scroll through several thumbnails so you can perform a quicker search.
- The parental control settings on the TV (see pages 32 to 33) do not apply to Netflix. To adjust the parental controls for your instant Queue, go to Netflix.com/YourAccount.
- The time required to display the instant Queue screen varies depending on the Internet connection status and the number of titles in the instant Queue.

9 The title you selected is displayed.

- To return to the step 8, press ▲. Press ▲/▼ to select "play", and then press ENTER or ▶ to start playback.

The screen of the TV

- After a period of time, playback of the movie begins.

The buttons that can be used during playback

<table>
<thead>
<tr>
<th>Buttons</th>

</tr>
</tbody>
</table>

Deactivating Netflix Function

1 Press MENU to display the menu screen.
2 Press ▲/▼ to select "Information", and then press ENTER.
3 Press ▲/▼ to select "Netflix Help", and then press ENTER.
4 Press ▲/▼ to select "Deactivate", and then press ENTER.

- To confirm the Netflix status, check the information displayed on the screen and click "OK".

The screen of the TV
VIEW MODE

You can select the screen size.

1 Press VIEW MODE.
   • The View Mode menu displays.

2 Press VIEW MODE or ▲/▼ while the View Mode menu is displayed to select a desired item on the menu.
   • You can sequentially select a View Mode that has its own aspect ratio.
   • You can have the same settings by choosing "View Mode" on the menu items. (See page 28.)

Example: Screen size images

SHARP IS NOT AN AGENT OF AND ASSUMES NO RESPONSIBILITY FOR THE ACTS OR OMISSIONS OF THIRD PARTY CONTENT OR SERVICE PROVIDERS, NOR ANY ASPECT OF THE CONTENT OR SERVICE RELATED TO SUCH THIRD PARTY PROVIDERS.

IN NO EVENT WILL SHARP AND/OR ITS AFFILIATES BE LIABLE TO YOU OR ANY THIRD PARTY FOR ANY DIRECT, INDIRECT, SPECIAL, INCIDENTAL, PUNITIVE, CONSEQUENTIAL OR OTHER DAMAGES, WHETHER THE THEORY OF LIABILITY IS BASED ON CONTRACT, TORT, NEGLIGENCE, BREACH OF WARRANTY, STRICT LIABILITY OR OTHERWISE AND WHETHER OR NOT SHARP AND/OR ITS AFFILIATES HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
Appendix

Removing the Stand

- Before detaching (or attaching) the stand, unplug the AC cord.

**CAUTION**
- Do not remove the stand from the TV unless using an optional wall mount bracket to mount it.

**LC-40LE810UN/LC-46LE810UN/LC-52LE810UN**

Before attaching/detaching the stand
- Before performing work, make sure to turn off the TV.
- Before performing work spread cushioning over the base area to lay the TV on. This will prevent it from being damaged.

![Diagram of LC-40LE810UN/LC-46LE810UN/LC-52LE810UN removing the stand]

1. Loosen the screw used to secure the stand cover and remove the cover.
2. Unfasten the four screws used to secure the stand in place.
3. Detach the stand from the TV. (Hold the stand so it will not drop from the edge of the base area.)

**NOTE**
- To attach the stand, perform the above steps in reverse order.

**LC-60LE810UN**

Before attaching/detaching the stand
- Before performing work, make sure to turn off the TV.

![Diagram of LC-60LE810UN removing the stand]

1. Loosen the screw used to secure the stand cover.
2. Remove the cover.
3. Unfasten the four screws used to secure the stand in place.
4. Detach the stand from the TV.

**NOTE**
- To attach the stand, perform the above steps in reverse order.
# Setting the TV on the Wall

## CAUTION

**LC-40LE810UN**
- This TV should be mounted on the wall with both the AN-37AG2 (SHARP) wall mount bracket and the AN-37P30 (SHARP) attachment of the wall mount bracket. The TV cannot be mounted when with only the AN-37AG2 wall mount bracket. The use of other wall mount brackets may result in an unstable installation and may cause serious injuries.

**LC-46LE810UN/LC-52LE810UN/LC-60LE810UN**
- This TV should be mounted on the wall only with the wall mount bracket AN-52AG4 (SHARP). The use of other wall mount brackets may result in an unstable installation and may cause serious injuries.
- Installing the TV requires special skill that should only be performed by qualified service personnel. Customers should not attempt to do the work themselves. SHARP bears no responsibility for improper mounting or mounting that results in accident or injury.

### Using an optional bracket to mount the TV

- You can ask a qualified service professional about using an optional AN-37AG2 + AN-37P30 or AN-52AG4 bracket to mount the TV on the wall.
- Carefully read the instructions that come with the bracket before beginning work.

### Hanging on the wall

<table>
<thead>
<tr>
<th>AN-37AG2 + AN-37P30 or AN-52AG4 wall mount bracket. (See the bracket instructions for details.)</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image" alt="Vertical mounting" /></td>
</tr>
</tbody>
</table>

### About setting the TV angle

**AN-37AG2 + AN-37P30**
- The center of the display: $\frac{5}{16}$ inch (7.6 mm) under the “A” position.

**AN-52AG4**
- The center of the display: $\frac{3}{64}$ inch (1 mm) above the “b” position.

**LC-46LE810UN**
- The center of the display: 43/64 inch (16.7 mm) above the “f” position.
- Refer to the operation manual of AN-37AG2/AN-37P30 or AN-52AG4 for details.

## NOTE

- Detach the cable clamp on the rear of the TV when using the optional mount bracket.
- Due to the terminal configuration on this TV, when you wall-mount this model, make sure there is enough space between the wall and the TV for the cables.
- To use this TV mounted on a wall, remove the AC cord holder and the screws at the 4 locations on the rear of the TV, and then use the screws supplied with the wall mount bracket to secure the bracket to the rear of the TV.
# Troubleshooting

<table>
<thead>
<tr>
<th>Problem</th>
<th>Possible Solution</th>
</tr>
</thead>
</table>
| • No power | • Check if you pressed **POWER** on the remote control unit. [Page 17]  
• Is the AC cord disconnected? [Page 8]  
• Has the power been turned on? [Page 17] |
| • Unit cannot be operated. | • External influences such as lightning, static electricity, may cause improper operation. In this case, operate the unit after first turning off the power of the TV or unplugging the AC cord and replugging it in after 1 or 2 minutes. |
| • Remote control unit does not operate. | • Is the equipment to be operated by the remote control unit set correctly? Press **TV** to set the remote control unit to the setting for operating the TV.  
• Are batteries inserted with polarity (+, -) aligned? [Page 9]  
• Are batteries worn out? (Replace with new batteries.)  
• Are you using it under strong or fluorescent lighting?  
• Is a fluorescent light illuminated near the remote control sensor?  
• Is "RC Control Lock" selected in "Operation Lock Out"? [Page 29] |
| • Picture is cut off/with sidebar screen. | • Is the image position correct? [Page 29]  
• Are screen mode adjustments such as picture size made correctly? [Pages 21 and 47] |
| • Strange color, light color, or color misalignment | • Is the sleep timer set? [Page 18]  
• Check the power control settings. [Page 27]  
• The unit's internal temperature has increased. Remove any objects blocking vent or clean. |
| • Power is suddenly turned off. | • Is connection to other components correct? [Pages 12 to 16 and 43]  
• Is the volume too low? [Page 18]  
• Is "Variable" selected in "Output Select"? [Page 29]  
• Have you pressed **MUTE** on the remote control unit? [Page 18]  
• Check the audio output of the connected external equipment. Is the volume too low or muted?  
• When external equipment is connected via an HDMI cable, you may need to configure the audio to be output through the HDMI cable.  
• When audio is not output from external equipment connected to the INPUT 3 or INPUT 4 terminal, check the "Audio Select" setting. [Page 48]  
• Even when external equipment is connected using an HDMI-certified cable, an audio cable connection may be required depending on the type of equipment and the media being played back. In this case, in addition to connecting an HDMI-certified cable to the INPUT 4 (HDMI) terminal, connect a Ø 3.5 mm stereo minijack cable to the AUDIO IN terminal and set "Audio Select" to "HDMI+Analog". [Page 48]  
• When connecting a PC via an HDMI-certified cable, check the following:  
  - Is the audio output of the PC configured correctly? Check the audio output settings and output audio format in Sound Properties on the PC.  
    Only PCM format audio can be output. Compressed audio (with a sampling rate of 32kHz, 44.1kHz, or 48kHz) and DTS format audio cannot be output.  
    - Depending on the board, only video signals may be output. In this case, in addition to connecting an HDMI-certified cable to the INPUT 4 (HDMI) terminal, connect a Ø 3.5 mm stereo minijack cable to the AUDIO IN terminal and set "Audio Select" to "HDMI+Analog". [Page 48]  
• If you are using a DVI-HDMI conversion cable to connect external equipment to the TV, check the following:  
  - Is an audio cable connected? The DVI-HDMI conversion cable is for video only. Connect a Ø 3.5 mm stereo mini jack cable to listen to the audio.  
  - Is INPUT 4 being used? When the TV is connected to another HDMI terminal, the audio and video are not output together even if a Ø 3.5 mm stereo minijack cable is connected to the shared AUDIO IN terminal for INPUT 3 and INPUT 4.  
  - Check the "Audio Select" setting. Set "Audio Select" to "HDMI+Analog". [Page 48] |
### Problem Possible Solution

- **No picture**
  - Is connection to other components correct? ➔ *Pages 12 to 16 and 43*
  - Is the correct input selected? ➔ *Pages 12 and 19*
  - Is “On” selected in “Audio Only”? ➔ *Page 27*
  - If the PC image is not displayed, check the following:
    - When connecting a laptop PC to the TV, check that display output mode of the PC is set to external monitor.
    - Check the resolution setting on the PC. Is a non-compatible signal being input? ➔ *Page 48*

- **Picture quality of HD programs is poor.**
  - To enjoy HD images from external equipment, you are required to set up HDMI connection or component connection.
  - If the program content is not of HD quality, HD images cannot be displayed. Check that the program you are viewing provides HD images.
  - The HD cable/satellite set-top box may need to be configured to output HD images via cable/satellite.
  - The cable/satellite broadcast may not support a signal resolution of 1080p.

- **The TV sometimes makes a cracking sound.**
  - This is not a malfunction. This happens when the cabinet slightly expands and contracts according to change in temperature. This does not affect the TV’s performance.

- **The original home page cannot be displayed.**
  - Is the ETHERNET cable connected correctly? ➔ *Page 50*
  - Check the settings of "Communication Setup" and "Interactive Service". ➔ *Page 51*

- **Some Internet functions used on a PC are not available from the TV.**
  - The TV has only limited functions compared with regular PC browsers. ➔ *Page 53*

### Troubleshooting - Error Message

<table>
<thead>
<tr>
<th>The example of an error message displayed on a screen</th>
<th>Error code</th>
<th>Possible Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Failed to receive broadcast.</td>
<td>E202</td>
<td>• Check the antenna cable. Check that the antenna is correctly setup.</td>
</tr>
<tr>
<td>• No broadcast now.</td>
<td>E203</td>
<td>• Check the broadcast time in the program guide.</td>
</tr>
</tbody>
</table>
| • An incompatible audio signal has been received.    | —          | • This message is displayed when an audio format other than PCM is input. (Dolby Digital and DTS audio formats are not supported.)
  - Set the audio output format of connected external HDMI equipment to PCM.
  - Refer to the operation manual of the external equipment for setting details. |

### CLEARING THE SECRET NUMBER

If you forget the secret number, clear the secret number using the following procedure.

1. Select an item from the list below to display the secret number input screen. (For operating the on-screen display menu, see page 22.)
   - "Color system" (➔ “Input Terminal Setting” ➔ System Options menu).
   - “EZ Setup” or “Reset” (➔ Initial Setup menu).
   - “AH Setup” (➔ “Broadcasting Setting” ➔ Initial Setup menu).
   - “Parental CTRL” (➔ “Individual Setting” ➔ Initial Setup menu).
   - “Software Update” (➔ Information menu).

2. Press and hold both CH/ and VOL + on the TV simultaneously until the message appears on the screen.

   The secret number is [ ] [ ] [ ] [ ]

**NOTE**

- As a precautionary measure, make a note of your secret number above, cut it from this manual, and keep it in a safe place.

### Cautions regarding use in high and low temperature environments

- When the unit is used in a low temperature space (e.g. room, office), the picture may leave trails or appear slightly delayed. This is not a malfunction, and the unit will recover when the temperature returns to normal.
- Do not leave the unit in a hot or cold location. Also, do not leave the unit in a location exposed to direct sunlight or near a heater, as this may cause the cabinet to deform and the Liquid Crystal panel to malfunction.
- Storage temperature: −4°F to +140°F (−20°C to +60°C)
## Optional Accessory

The listed optional accessory is available for the Liquid Crystal Television. Please purchase it at your nearest shop.

- Additional optional accessories may be available in the near future. When purchasing, please read the newest catalogue for compatibility and check the availability.

## LIMITED WARRANTY

### CONSUMER LIMITED WARRANTY

SHARP ELECTRONICS CORPORATION warrants to the first consumer purchaser that this Sharp brand Liquid Crystal Display product (the “Product”), when shipped in its original container, will be free from defective workmanship and materials, and agrees that it will, at its option, either repair the defect or replace the defective Product or part thereof with a new or remanufactured equivalent at no charge to the purchaser for parts or labor for the period(s) set forth below.

This warranty does not apply to any appearance items of the Product or if the serial number or model number affixed to the Product has been removed, defaced, changed, altered or tampered with. This warranty does not cover installation or signal reception problems. This limited warranty will not apply if the Product has been or is being used in a commercial setting or application; this warranty is meant solely for the non-commercial, household use of the Product by consumers in their home or residence. If you intend to or already use this Product for commercial purposes or in a commercial setting, there are warranties available to cover your use of this Product, the terms of which may vary. Please contact 1-888-GO-SHARP for further information.

In order to enforce your rights under this limited warranty, you should follow the steps set forth below. You must be able to provide proof of purchase to the servicer, which proof must include the date of purchase.

To the extent permitted by applicable state law, the warranties set forth are in lieu of, and exclusive of, all other warranties, express or implied. Specifically ALL OTHER WARRANTIES OTHER THAN THOSE SET FORTH ABOVE ARE EXCLUDED. ALL EXPRESS AND IMPLIED WARRANTIES INCLUDING THE WARRANTIES OF MERCHANTABILITY, FITNESS FOR USE, AND FITNESS FOR A PARTICULAR PURPOSE ARE SPECIFICALLY EXCLUDED. IF, UNDER APPLICABLE STATE LAW, IMPLIED WARRANTIES MAY NOT VALIDLY BE DISCLAIMED OR EXCLUDED, THE DURATION OF SUCH IMPLIED WARRANTIES IS LIMITED TO THE PERIOD(S) FROM THE DATE OF PURCHASE SET FORTH BELOW. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS. YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE.

The warranties given herein shall be the sole and exclusive warranties granted by Sharp and shall be the sole and exclusive remedy available to the purchaser and only for the time periods set forth herein. No other representations or promises made by anyone are permitted. Correction of defects, in the manner and for the period of time described herein, shall constitute complete fulfillment of all liabilities and responsibilities of Sharp to the purchaser with respect to the Product, and shall constitute full satisfaction of all claims, whether based on contract, negligence, strict liability or otherwise. Sharp does not warrant nor shall Sharp be liable, or in any way responsible, for Products which have been subject to abuse (including, but not limited to, improper voltage), accident, misuse, negligence, lack of reasonable care, alteration, modification, tampering, misuse, improper operation or maintenance or any damages or defects in the Product which were caused by repairs or attempted repairs performed by anyone other than a Sharp authorized servicer. Nor shall Sharp be liable or in any way responsible for any incidental or consequential economic or property damage. Some states do not allow limits on warranties or on remedies for breach in certain transactions; in such states, the limits herein may not apply.

THIS LIMITED WARRANTY IS VALID ONLY IN THE FIFTY (50) UNITED STATES, THE DISTRICT OF COLUMBIA AND PUERTO RICO.

<tr>
<td>Warranty Period for this Product:</td>
<td>One (1) year parts and labor from the date of purchase.</td>
</tr>
<tr>
<td>Additional Exclusions from Warranty Coverage (if any):</td>
<td>In order for the Product to be serviced, the Product must be readily available to the servicer, free and clear of any complex or non-standard installation, mounting or other encumbrance which would unreasonably interfere with servicing the Product. The Servicer will remount the Product after service, provided that such remounting is not into a complex or non-standard installation. Any additional labor and materials required to remove and/or reinstall a Product above and beyond the foregoing are not covered by this warranty, may result in additional charges and are the responsibility of the consumer. Image Retention resulting from a fixed image being displayed for long periods of time is not covered by this Limited Warranty (see Operation Manual on how to prevent this).</td>
</tr>
<tr>
<td>Where to Obtain Service:</td>
<td>From a Sharp Authorized Servicer located in the United States. To find the location of the nearest Sharp Authorized Servicer, please call Sharp toll free at 1-800-BE-SHARP.</td>
</tr>
<tr>
<td>What to do to Obtain Service:</td>
<td>Contact your Sharp Authorized Servicer to obtain in home service for this product. The Servicer will come to your location and if necessary remove the unit for repair at the Servicer’s facility and return the set to you once completed. Be sure to have Proof of Purchase available.</td>
