Y ou can control a TV compatible with the "BRAVIA" Sync function. If you have any questions or problems, consult your authorized Sony dealer or local authorized service facility.

The system's speakers contain magnet parts, so magnetic distortion may occur. Do not expose the disc to direct sunlight or place it near a heater. Do not touch the surface. Place a disc on the tray by pressing LOAD above the source. To play in programmed order, follow the steps in the order you want to have the tracks played. To avoid data corruption or loss, do not move the system while the disc is rotating.

You can also select the function by pressing FUNCTION repeatedly on the system's remote control, the remote control, the system and your TV, or use HDMI CONTROL. To allow the TV to control the system, turn on the TV and have it checked by qualified personnel. Do not expose the disc to direct sunlight or place it near a heater. Do not touch the surface. Press FM. To play in programmed order, follow the steps in the order you want to have the tracks played. To avoid data corruption or loss, do not move the system while the disc is rotating. If you move one of the speakers, be sure to remove the speaker cables from the back of the system so that the speaker drivers are not damaged. To display subtitles on the TV screen, press [OSD Lang] (On-Screen Display) repeatedly. For non-US models: Displays the DivX® registration code. If you have any questions or problems, consult your authorized Sony dealer or local authorized service facility.
