Tip

Note

Warning

Indicates that a service or function is network- or subscription-dependent. All menus or functions may not be available in your phone. Consult your network operator for more information.
Prepare the phone

Always turn off your phone and detach the charger before you insert or remove the SIM card.

To insert the SIM card and battery

1. Remove the battery cover by sliding the battery release latch down.
2. Slide the SIM card into its holder with the contacts facing down.
3. Insert the battery with the label side up and the connectors facing each other.
4. Slide the battery cover into place and close the battery release latch.
Charge the battery

Your phone battery is partly charged when you buy it. It takes approximately 3 hours to fully charge the battery.

⚠️ *It may take 30 minutes for the battery icon to appear on the screen.*

To charge the battery

1. Connect the charger to the phone. Press a key to view the charging status on the screen.
2. To remove the charger, tilt the plug upwards.

💡 You can use the phone during charging. You can charge the battery for more or less than 3 hours. *Interrupted charging will not damage the battery.*
Turn the phone on

To turn on the phone
1 Press and hold down \( \text{c} \).
2 Enter your PIN if requested. To correct mistakes, press \( \text{c} \).
3 Select **OK**.
4 Select a language.
5 At first start-up, select **Yes** to use the setup wizard to make a phone setup. Select **No** to use the setup wizard later.

! **After you have turned the phone on and entered your PIN, the name of your operator appears on the screen. This view or screen is called standby. You can now make and receive calls.**

To turn off the phone
• Press and hold down \( \text{c} \).

To use the setup wizard
• From standby select **Menu > Settings > General > Setup wizard > Basic setup.**
The SIM (Subscriber Identity Module) card, which you get from your network operator, contains information about your subscription. Always turn off your phone and detach the charger before you insert or remove the SIM card.

💡 You can save contacts on the SIM card before removing if from your phone. Contacts may also be saved in the phone memory. See Contacts on page 17.

**PIN code (SIM card lock)**

The PIN (Personal Identification Number) code is a SIM card lock that protects your subscription, but not the phone itself. If the card is locked, you have to enter the PIN code when you turn on your phone. Each PIN digit appears as *, unless it starts with emergency number digits, for example, 112 or 911. You can call an emergency number without entering a PIN.

❗ If you enter the wrong PIN three times in a row, the following message appears: PIN blocked. To unblock, enter your PUK code provided by your network operator. To unblock your SIM card, see Locks on page 34.
