Important User Information

Important Safety Instructions

This device is designed and manufactured to assure personal safety. Improper use can result in electric shock or fire hazard. The safeguards incorporated into this unit will protect you if you observe the following procedures for installation, use, and servicing.

- Read these instructions.
- Keep these instructions.
- Heed all warnings.
- Follow all instructions.
- Do not use this apparatus near water.
- Clean only with dry cloth.
- Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- Only use attachments/accessories specified by the manufacturer.
- Unplug this apparatus during lightning storms or when unused for long periods of time.
- Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
- Carefully read and follow the Quick Install Guide and User Manual.
- Do not operate this device outside the temperature range of 5°C–35°C (41°F–95°F).
- Do not drop or shake the device.
- Do not move the device when it is powered on.
- Power supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon them or against them.
- Do not overload wall outlets.

For additional safety information, refer to www.wdc.com.
WD® Service and Support

Should you encounter any problem, please give us an opportunity to address it before returning this product. Most technical support questions can be answered through our knowledge base or e-mail support service at http://support.wdc.com. If the answer is not available or, if you prefer, please contact WD at the best telephone number shown below.

Your product includes 30 days of free telephone support during the warranty period. This 30-day period starts on the date of your first telephone contact with WD technical support. E-mail support is free for the entire warranty period and our extensive knowledge base is available 24/7. To help us keep you informed of new features and services, remember to register your product online at http://register.wdc.com.

Accessing Online Support

Visit our product support website at http://support.wdc.com and choose from these topics:

- **Downloads** - Download drivers, software, and updates for your WD product.
- **Registration** - Register your WD product to get the latest updates and special offers.
- **Warranty & RMA Services** - Get Warranty, Product Replacement (RMA), RMA Status, and Data Recovery Information.
- **Knowledge Base** - Search by keyword, phrase, or answer ID.
- **Installation** - Get online installation help for your WD product or software.
- **WD Community** – Share your thoughts and connect with other users.

Contacting WD Technical Support

When contacting WD for support, have your WD product serial number, system hardware, and system software versions available.

Product Overview

Thank you for purchasing a WD TV Live Hub Media Center. This user manual provides step-by-step instructions for installing and using your new media center. For the latest WD product information and news, visit our website at www.westerndigital.com.

The best of the Internet on your HDTV – Stream hit movies, catch up on TV shows, watch the latest videos, and stay connected to your social network. Don’t settle for online entertainment on your small computer screen. With the WD TV Live streaming media player, you can enjoy it all on your HDTV. See “Internet Services” on page 91 for more details.

Play all your personal media the easy way – Load up the high-capacity drive with all your media to create your own media jukebox. In a few clicks, you can play your home movies, share vacation slideshows, and play your music on the big screen and sound system in your living room.

Full-HD 1080p video playback; the perfect partner for your HDTV – This is the real thing; Full-HD 1080p playback. Sit back and enjoy the spectacular picture quality of brilliant high definition video and the crystal clear sound of digital audio. Use the included programmable remote control to make your entertainment choices using our crisp, animated navigation menus.

Play almost any type of media file – WD TV Live Hub supports a wide variety of the most popular file formats including HD camcorder video formats.

Your entertainment at your fingertips – Control your WD TV experience with the tap of a soft key or the swipe of a finger using the WD Remote™ app. Get one-touch access to your favorite online services, easy text input and a gesture pad for faster navigation to your favorite content. Download this free app from the Apple® App Store or the Android™ Market.

Shoot it on your mobile device. Share it on your HDTV – Download WD Photos™, a free photo and video app for your iPad®, iPhone®, iPod touch®, or Android smartphone. Take a photo or video clip with your mobile device and upload it directly to the built-in hard drive on your WD TV Live Hub media center. You can also access all the photos stored on your media center and show them off with your smartphone or tablet.

Centralize your media collection – You can store all your media in one place on the high-capacity drive in this system. The WD TV Live Hub media center finds and categorizes all the media on the built-in drive and any connected USB drives and displays it in one easy-to-view menu system. It’s a breeze to access and enjoy your media when it’s all in one place.

Access media anywhere on your home network – The Ethernet port lets you connect this media player to your home network so you can access and stream video, view photos, and play music from any Mac, PC, and network drive in your house.
Transfer files easily – Copy, move or delete files stored on a USB drive, a network drive, your camcorder, or a camera to the Live Hub built-in drive using the on-screen menus.

It's a multi-room media server streaming to any TV in your house – You can stream any file on the WD TV Live Hub media center to a WD TV Live Plus or WD TV Live media player or any DLNA/UPnP compatible TV, Blu-ray Disc™ player, or game console. The system is powerful enough to handle multiple streams so you can stream a movie to your Blu-ray Disc™ player, while viewing photos on your TV upstairs.

Bring the arcade to your HDTV – WD TV Live Hub brings casual games to your big screen TV. Test your skills with classic games such as Rockswap Adventures, Cosmox, Sudoku, and Memory.

Advanced navigation options

- Thumbnail, list, and preview modes – Browse your content by file name or by thumbnails of photos, album covers, video preview, and movie cover art.
- Media Library – This unique feature lets you view all your media by media type in one menu regardless of its location in folders or drives. You can view your content by categories such as genre, album, artist and date.
- Search – Search by genre, title, artist, filename and partial filename.

Photo viewing

- View photos as a slideshow with a variety of transitions and background music
- Zoom and pan
- Search by filename, partial filename, most recently viewed and date

Movie viewing

- Fast forward, reverse, pause, zoom, and pan
- View subtitles
- Search by filename, partial filename, most recently viewed and date

Music playback

- Fast forward, reverse, pause, shuffle, repeat
- Search by filename, partial filename, most recently viewed and date.

File Management

- Copy files between USB drives and transfer files between a USB drive connected to the media center and your computer.

S/PDIF digital output – The optical audio output sends digital signals to your AV receiver for the best surround sound experience.

Ultra-compact design - Fits easily into your entertainment center.
Features and Functions

Features

Menus

Your media is organized, categorized and ready to play – The WD TV Live Hub media center finds and categorizes all the media on the built-in drive and any connected USB drives and displays it in one easy-to-view menu system. If you have one of our My Book® Live™ network drives connected to your network, it will find the media on that, too.

Customize your media experience – Customizable screens, themes and favorites let you personalize the media experience for you and everyone and your home. The interface also remembers your last selection so you can easily continue the fun.

Choose from a variety of list viewing options – Select thumbnail view, list view and even see a little preview of your movies in your movie menu. You can add metatags to your media for better identification.

Play photo slideshows with the music you choose

Tag your favorites for instant playback

Supports DVD Navigation – View all the content included on your ripped DVDs, including complete menu navigation, chapter listings, special features, and subtitles.

Family-ready – Share your family photos, videos, music, and files on your home network and stream to any screen in the house.

Automatic play – Set the player to play a selected media file automatically when the unit is turned on. Perfect for living art on your HDTV or for digital signage.

On the computer…

Sync new media – The player automatically synchronizes with watched folders so new content from any PC, Mac, or USB storage will be added to the WD TV Live Hub.

Play your media from your computer – This media center is Windows® 7 compatible, so you can use the “Play To” feature to easily stream your Windows 7 computer’s files to your TV through your media center.*

*For more information on Play To, go to: http://windows.microsoft.com.

Audio/Video Interface

• HDMI interface for digital audio and high-definition video.
• Component video interface (YPbPr, green/blue/red) for analog video connection.
• Composite interface (RCA, yellow/white/red) for analog AV connection.
• S/PDIF (optical) audio for high-fidelity digital audio.
• Auto source function enables the HD media center to detect and switch to a new interface connection. For example, the media center automatically switches to HD mode when it is connected through an HDMI cable.
- Video output resolution includes 480i, 576i, 480p, 576p, 720i, 720p, 1080i, 1080p.
- Stereo or multi-channel digital surround audio output (digital surround sound is only available when using the HDMI or S/PDIF interfaces).
- Wired or wireless Internet connection for access to online media content.

**Plug-and-Play USB 2.0 Support**
- USB storage device with a USB connector
- Portable media centers with USB connector
- Digital cameras/camcorders with USB connector

*For a list of tested, compatible USB devices, see Article #5888 in our knowledge base at [http://support.wdc.com](http://support.wdc.com).

**USB Storage File System Support**
- NTFS
- FAT/FAT32
- HFS+

## Power Button and LED Indicator

<table>
<thead>
<tr>
<th>Item</th>
<th>Component</th>
<th>Description</th>
</tr>
</thead>
</table>
| 1    | Power button | - When power LED is on:  
- Press the power button to power down the media center. The internal drive is put in sleep mode and other devices can still access it.  
- Press and hold for five seconds to completely shut down the device and make the internal drive inaccessible.  
- When power LED is off—Press the power button to power on the media center and wake the internal drive. |
| 2    | Power LED (WD logo) | - On—The power cable is connected and the power is on.  
- Off—The media center is in standby mode, turned off, or the power cable is disconnected.  
- Steady flashing—A USB device has been discovered and the unit is being mounted in the system. If the Media Library is set to On in the Setup options (see “Media Library Compilation” on page 29), the LED flashes at the same steady constant rate.  
- Three short flashes followed by three long flashed followed by three short flashes—A system diagnostic failure has occurred. See “Troubleshooting” on page 205. |
| 3    | Infrared receiver | - Receives signals from the remote control. Point the tip of the remote control to the infrared receiver and ensure that the path between the two is unobstructed. |

Download this free app from the Apple App Store or the Android Market.
Getting Started

Package Contents

WD TV Live Hub Media Center
Remote control and Two AAA batteries
AC power adapter

Installation Requirements

- Standard or HDTV with a composite (standard A/V), component (YPbPr), or HDMI input
- An available network connection for online content and services
- Optional: TV, stereo, or AV receiver with an optical digital (S/PDIF) or stereo audio input jack (audio playback only)

Operating System Compatibility

The media center is compatible with the following operating systems:

**Windows®**
- Windows XP
- Windows Vista®
- Windows 7

**Mac® OS X®**
- Leopard®
- Snow Leopard®

*Note:* Compatibility may vary depending on user’s hardware configuration and operating system.

*Important:* For highest performance and reliability, it is recommended that you install the latest updates and service pack (SP). For Windows, go to the Start menu and select Windows Update. For Mac, go to the Apple menu and select Software Update.
**Installation Procedure**

The media center installation procedure is outlined below:

1. Connect the power cable.
2. Establish a network connection.
3. Transfer content from your computer to the media center.
4. Connect the media center to your TV or entertainment unit through the desired interface option.
5. Connect a USB device containing your media content (optional).

**Step 1 - Connecting the Power Cable**

1. If applicable, connect the power clip to the power cable plug.
   The AC power adapter will vary, depending on your location. Some locations do not require a power plug clip. Units sold in those locations will have a fixed power plug. Refer to the illustration below.

   ![Power Adapter Illustration](image)

   - Installing
   - Removing
   - Installing
   - Removing

2. Connect the power cable to the media center’s DC connector, and then plug the opposite end into an AC power outlet. The media center powers up automatically.
Step 2 - Connecting the Media Center

The following figures illustrate the cable connections supported by the media center. The standard connection uses the included composite-to-mini AV cables.

Note: HDMI and S/PDIF (optical) cables are sold separately.

Important: Configure the media center’s Audio/Video settings depending on the type of connection you choose. See “Audio/Video Output” on page 174 for more information on these settings.

Choosing the Best Connection

The quality of the picture produced by your TV depends on the quality of your TV and its connection to the media center.

<table>
<thead>
<tr>
<th>Connection</th>
<th>Quality</th>
<th>Connectors</th>
</tr>
</thead>
<tbody>
<tr>
<td>HDMI</td>
<td>Best (up to 1080p)</td>
<td>Specialized, high-definition connector</td>
</tr>
</tbody>
</table>
| Component   | Better (up to 1080i)  | • Green = Y  
|             |                  | • Blue = Pb  
|             |                  | • Red = Pr   |
| Composite   | Good (480i/576i)  | • Yellow = video  
|             |                  | • Red = right audio  
|             |                  | • White = left audio |

Note: HDMI, component, and composite cables are not included.
HDMI Video and Audio (High-Definition)

HDMI combines high-definition video, multi-channel audio, and inter-component control in a single digital cable. This interface provides video quality resolution of up to 1080p.

To connect your media center using an HDMI cable:
1. Plug an HDMI cable into the HDMI connector on the media center.
2. Plug the opposite end into the HDMI port on your TV or audio/video system (if available).

Wait a few seconds for your TV to detect the media center. If it is not detected, you may need to change the input source on your TV to HDMI. Check the user documentation of your TV for more information.

Once the media center is detected, the splash screen displays to indicate system bootup, then the home screen of the user interface opens.

Note: HDMI cables are sold separately.
**Component Video and Audio (High Definition)**

The component connection only provides video signals. You will also need to connect the composite audio cables to provide sound. This interface provides video quality resolution of up to 1080i.

To connect your media center using component and audio cables:

1. Plug component cable connectors into the component jacks on the media center.
2. Plug the opposite ends into the component ports on your TV or audio/video system (if available), red to red, green to green, and blue to blue as shown below.
3. For audio, plug audio cable connectors into the audio jacks on the media center.
4. Plug the audio connectors on the opposite end of the cable into the audio input jacks on your TV, red to red and white to white.

Wait a few seconds for your TV to detect the media center. If the media center is not detected, you may need to change the input source on your TV to component. Check the user documentation of your TV for more information.

Once the media center is detected, the splash screen displays to indicate system bootup, then the home screen of the user interface opens.

*Note: Component and audio cables are sold separately.*
Composite AV Connection (Standard Definition)

To use a composite connection:

1. Plug the composite connectors into the composite jacks on the media center.
2. Plug the opposite ends into the composite input ports on your TV, yellow to yellow, red to red, and white to white.
3. Select the appropriate TV input source.

Wait a few seconds for your TV to detect the media center. If the media center is not detected, you may need to change the input source on your TV to composite. Check the user documentation of your TV for more information.

Once the media center is detected, the splash screen displays to indicate system bootup, then the home screen of the user interface opens.

Note: Composite cables are sold separately.
Home Theater (High-Definition)

To connect a home theater system using HDMI:

1. Plug an HDMI cable into the HDMI connector on the media center.
2. Plug the opposite end into the HDMI In port on your A/V receiver.
3. Plug an HDMI cable into the HDMI Out port on your A/V receiver.
4. Plug the opposite end into the HDMI port on your TV (if available).
5. Select the appropriate TV input source.
6. Set the appropriate audio output option on the media center. See “Audio Output” on page 175.

To connect a home theater system using S/PDIF:

1. Plug a S/PDIF cable into the S/PDIF connector on the media center.
2. Plug the opposite end into the S/PDIF In port on your A/V receiver.
3. Plug HDMI, component, or composite connectors to the appropriate Out ports on the media center.
4. Plug the opposite end(s) into the appropriate port(s) on your TV.
5. Select the appropriate TV input source.
6. Set the appropriate audio output option on the media center. See “Audio Output” on page 175.

Note: HDMI, S/PDIF, component, and composite cables sold separately.
Step 3 - Connecting to Your Network

The media center can be connected to your home network so you can transfer files back and forth from your networked computer to the media center, and access the Internet and network storage using a wired or wireless network connection. A network connection provides access to locally stored and online media content.

Wired Network Connection

Note: Ethernet cables are sold separately.

To connect to a home network using an Ethernet cable:

1. Plug an Ethernet cable (sold separately) into the Ethernet connector on the media center.
2. Plug the opposite end of the Ethernet cable directly into a LAN port on a router or network switch (if using a switch, it must be connected to the router).

For detailed instructions on wireless and wired network connections and configuration, see “Network Setup” on page 68.

Note: Streaming over wi-fi may be unstable due to various reasons such as a weak network connection, signal strength, variable speeds, or other environmental factors. You can create instant high-speed, wired network connections and gain fast, reliable access to the Internet without running wires all over your house using WD Livewire™ Powerline AV Network kit (sold separately). For more information, visit http://products.wdc.com/WDLivewire.

Transferring Media Content From Your Computer

See “Step 3 - Loading Content On Your Media Center” on page 18.

Accessing Media Content From the Network

See “Network Services” on page 74.

Accessing Online Media Content

See “Internet Services” on page 91.
Step 3 - Loading Content On Your Media Center

Transfer your favorite content from your computer to your media center. You can also transfer files from your media center to your computer.

1. Turn on your computer.
2. Connect the drive’s power cable (see “Step 1 - Connecting the Power Cable” on page 11).
3. Use Ethernet cables to connect the media center (see “Step 3 - Connecting to Your Network” on page 17) and a computer to your router as shown above.

Windows

Using WD Link™

2. Double-click on the downloaded installer file and follow the on-screen prompts to install WD Discovery.
3. Click 📱 or Start, then click Programs > WD Link > WD Link.
4. Click WDTVLiveHub in the Network Storage Found list.
5. The media player displays in the Drive Mapping list. Click WDTVLiveHub under Drive Mapping.
6. Select an available drive letter from the Available Drive Letters list.
7. Click **Map Drive**.

8. Click **OK**.

9. Close the WD Link Tool.

10. Click **Start** and then (My) **Computer**. The media center root displays. You can now drag and drop files and folders into the media center’s internal hard drive using (My) **Computer** or Windows Explorer.

**Using Windows**

As an alternative to using WD Link, access the media center as follows:

Windows 7/Vista:

- Click **Start** and then **Computer** > **Network** and locate the media center.

Windows XP/Vista/7:

- In Windows Explorer or in a Web browser, enter `\wdtvlivehub` as the address.

**Macintosh**

1. Turn on your computer and wait for the operating system to load.
2. Open Finder.
3. *Mac OS X Leopard/Snow Leopard:* Click the WD TV Live Hub icon under **SHARED**.

4. Drag and drop your media files from your computer to the media center or from the media center to your computer.
Step 5 - Connecting a USB Device (Optional)

The media center has two USB ports that support playback from WD USB external drives.*

* For a list of supported WD external drives, see article #5688 in or knowledge base at http://support.wdc.com.

To connect the USB device:

1. Connect the USB device to either of the media center’s USB ports.

2. Wait for a few moments while the media center scans the USB device for media files. (Scanning is enabled by default. If you want to turn off automatic scanning, go to “Media Library Compilation” on page 29.)

3. The Sync and Transfer screen appears. Pressing OK copies all the media files from the USB device into the media center’s internal drive. The files will all be synced to a designated folder ("USB_Sync") in the media center’s internal drive. For each new USB device, a designated folder is created based on the USB volume name. The media center only syncs and copies files that are new (by date modified) or different than what’s already stored rather than moving the entire contents of the external USB device each time.

Note: You can turn off or adjust the Sync and Transfer function in the Setup > Operation menu. See “Sync From USB Storage” on page 190.
To unlock a locked WD USB device:

A USB device must be unlocked for the media center to access its contents.

1. Navigate to the Home screen, and select the menu for the media content you wish to access. It can be Music, Videos, or Photo.
2. In the Unlock your WD Drive screen, press ◀/▶ to select OK, then press OK.
3. Use the navigation buttons ▲▼◄► to type in the USB drive access password in the on-screen keyboard. Select Submit, then press OK.

   If a wrong password is entered, press ◀/▶ to select OK, press OK, then type in the correct password. If you enter the wrong password five consecutive times, the USB drive is placed in a hold state. Press OK to close the error message. Disconnect the USB drive. Power cycle and reconnect the USB drive and type in the correct access password.

4. Once the USB drive has been unlocked, the menu bar for the selected media type will appear. Press ▲▼◄► to choose a filter option for displaying supported media contents, then press OK.

   Supported content for the selected media type will be displayed.

5. Use the navigation buttons ▲▼◄► to select the content you wish to access, then press OK to start media playback.

**Removing a USB Device**

To prevent data loss, it is highly recommended that you first press the EJECT button on the remote control before removing a USB device.

To remove a USB device:

1. Press the HOME button.
2. Press the EJECT button.
3. Press ▲▼ to select the USB device.
4. Press OK. With the selected, press OK again.

5. Disconnect the USB device from the media center.
Operating the Media Center

Using the Remote Control

The media center’s ergonomic remote control lets you navigate the Home screen, browse for media files, enable playback options, and customize the system settings. The infrared sensor detects signals from the remote.

Important: Make sure there are no obstructions between the remote control and the infrared sensor on the media center.

Using a USB Keyboard

As an alternative to using the remote control, you can plug a USB keyboard into either of the two USB ports on the media center.

### Button | Function
---|---
EJECT | Switches to safe mode so you can safely remove a USB device.
MUTE | Turns off the volume output
Subtitle | Switches a video’s subtitles (if applicable)
Audio | Switches a video’s audio stream (if applicable)
Setup | Brings up the Setup menu

### Alpha-numeric keys
- Pressing any of these keys once inputs the corresponding number.
- Pressing keys 2-9 multiple times inputs the corresponding alpha characters.
- While listening to a song or music playlist, press and hold any of the 0-9 buttons to create a preset.

### A, B, C, D
- User assignable shortcut/function keys. See “Remote Settings” on page 189. Default settings are as follows (only valid when inside the Videos, Music, or Photos menus):
  - Pressing A activates the sort and filter menu.
  - Pressing B activates the select content source menu.
  - Pressing C activates the change view menu.
  - Pressing D activates the dashboard menu.

### Key or key sequence | Function
---|---
HOME | Displays the main menu and the various options for playback of files and device setup.
CTRL + P (Power) | Suspends the device into sleep mode and turns off video output.
UP, DOWN, LEFT, & RIGHT ARROWS | Navigate through Home options, menu screens, media libraries, on-screen keyboards, and toolbars.
ENTER | Displays the media directories and Settings screens.
| Turns information bar ON or OFF.
| Begins playback of the selected media file.
| Enables the currently selected setting in a Settings option screen.
S (Stop) | Discontinues playback.
ESC (Back) | Goes back to the previous screen.
- (Reverse) | Scans backward during audio/video playback. Supports the following speeds: 2x, 4x, 8x, 16x.

|                     | Pressing **CTRL + A** activates the sort and filter menu. |
| CTRL + B            | Pressing **CTRL + B** activates the select content source menu. |
| CTRL + C            | Pressing **CTRL + C** activates the change view menu. |
| CTRL + D            | Pressing **CTRL + D** activates the dashboard menu. |
Using the Media Center Menu

The Home screen displays when turn on your media center or press HOME on the remote control. The menu options in this screen let you browse your media library and configure the media center’s settings.

Home Screen Options

The main Home options are:

- Videos
- Music
- Photos
- Files
- Setup
- Services
- Games
- RSS
- New Firmware (automatically detects new firmware and only appears when new firmware is available)

The Music, Videos, and Photos options represent folders for the different media types. Media contents will be displayed either as file/file folders in the media center, network attached storage, or a USB drive directory or as a media library compilation list based on metadata information. For example, music files can be categorized based on their genre or the artist’s name.

Setup lets you customize the way you use the media center and set preferences for media playback. For more information, see “Setup and Advanced Features” on page 173.

Setting Time and Weather

- To set the time in the media center screen display, see “Set Time & Country” on page 190.
- To set the temperature in the media center screen display, see “AccuWeather.com” on page 95.
Home Screen Navigation

Use the following keys to navigate through the menu screens.

<table>
<thead>
<tr>
<th>Button</th>
<th>Function</th>
</tr>
</thead>
<tbody>
<tr>
<td>Left/Right arrows</td>
<td>Move from one option to the next</td>
</tr>
<tr>
<td>Down arrow</td>
<td>View the dashboard</td>
</tr>
<tr>
<td>OK</td>
<td>Launches your selection</td>
</tr>
</tbody>
</table>

Media Center Dashboard

Press ▼ at the home screen or navigate to ▶ then press OK in the Videos, Music, or Photos menus to launch the dashboard. Press ▼ or Back to exit the dashboard. Your Favorites are shown by default.

Navigate to ▼ to filter the media files and internet service links shown on the main dashboard page by category and media type. For example, to find photos you have added recently, select New Items and press OK, Photos and press OK, then press OK again.

Navigate to ▼ and press OK to toggle between list and thumbnail views.
Press up, Use the left/right navigation buttons, then press OK in the dashboard to display your media files by the following categories:

- **Favorites** (see “Favorite” on page 39)
- **New Items** (displays media files you have added within a certain date range. See “Show New Items” on page 181 for details and instructions for adjusting the date range)
- **Queue** (Use the left/right navigation buttons then select the Videos, Music, or Photos icon, then press OK - see “Add to Queue” on page 39)
- **Recently Viewed** (displays media files you have viewed in the last xx days)

After selecting a category, filter the results by media type (Videos, Audio, or Photo). Then, use the navigation buttons to select a file then press OK to begin playback.
Dashboard Options

With a file selected in any of the dashboard categories, press Options.

Use the ▲/▼ navigation buttons to select from the following options, then press OK.

- **Add to Queue** (when a file in Favorites, Last 30 Days, or Recently Viewed is selected - see “Add to Queue” on page 39).
- **Rate** (see “Rate” on page 39).
- **Re-Order** - use this option to move items up or down in viewing sequence in both Favorites and Queue categories. Using the navigation buttons, place the cursor where you want the selected file located.
- **Favorite** (when a file in Queue, Last 30 Days, or Recently Viewed is selected - see “Favorite” on page 39).
- **Copy** (see “Move & Copy” on page 40).
- **Remove from Favorite/Remove from Queue** - removes the selected file from the Favorites or Queue categories.
- **Delete** (see “Delete” on page 40).
- **Select Multiple** (see “Select Multiple” on page 41).

Media Library Compilation

Media Library Compilation refers to the process of scanning and consolidating the media contents of the media center, network attached storage, or an attached USB device into one comprehensive database so that you can easily browse and locate media files based on certain metadata information (e.g., video files are categorized based on title or release date).
Media Library Compilation Exemptions

The following conditions will prevent the media library compilation process.

- The USB device has read-only protection.
- There is not enough storage space on the media center, network attached storage, or USB device.
- A drive is locked.

To turn off Media Library Compilation (default is On):

1. Navigate to Home | Setup | System.
2. Select Media Library, and then press OK.
3. Select OFF, then press OK.

**Note:** Clear Media Library clears then rebuilds the media library.

Supported Categories for Media Library Compilation

Once the media library compilation process is completed, all available media files are organized under their respective media type directory. By default, media contents are displayed as thumbnails (music album/movie poster art, image thumbnail). The content categories are listed in the following table.

<table>
<thead>
<tr>
<th>Media Type</th>
<th>Category</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Music</td>
<td>All Tracks</td>
<td>Displays a list of all audio files arranged in alphabetical order.</td>
</tr>
<tr>
<td></td>
<td>Artist</td>
<td>Content is categorized based on the artist name.</td>
</tr>
<tr>
<td></td>
<td>Genre</td>
<td>Content is categorized based on genre.</td>
</tr>
<tr>
<td></td>
<td>Album</td>
<td>Content is categorized based on album names.</td>
</tr>
<tr>
<td></td>
<td>Date</td>
<td>Content is organized by date modified.</td>
</tr>
<tr>
<td></td>
<td>Folders</td>
<td>Contents are displayed in audio file folders.</td>
</tr>
<tr>
<td></td>
<td>Recent</td>
<td>Displays a list of audio folders/files that have been accessed recently.</td>
</tr>
<tr>
<td></td>
<td>Playlist</td>
<td>Displays a list of music playlists.</td>
</tr>
</tbody>
</table>
Locating Your Contents on the Drive

There are two ways of locating a particular media file depending on whether or not the media library compilation function is enabled.

Manual Search

You can manually search for a media file by navigating to the specific media section and browsing through the available file folders. This method is recommended if there are only a limited number of files to search through. Otherwise, it is better to enable the media library compilation and use the built-in Search function.

### Button Function

<table>
<thead>
<tr>
<th>Button</th>
<th>Function</th>
</tr>
</thead>
<tbody>
<tr>
<td>▲▼</td>
<td>Select a media type (photos, video, or music) or settings</td>
</tr>
<tr>
<td>▲▼</td>
<td>Select one of the option icons in an Internet service’s submenu bar</td>
</tr>
<tr>
<td>◀▶</td>
<td>Move within a category</td>
</tr>
<tr>
<td>OK</td>
<td>Launches your selection</td>
</tr>
</tbody>
</table>

Use the navigation buttons to move around a particular folder; press Back to move between folders.

### Thumbnail Support for Media Files

Your media center supports thumbnails in two ways - embedded or external (some file formats do not support embedded thumbnails).

Embedded thumbnails are images that are part of the media file itself. File formats that support embedded thumbnails:

- Music - MP3 and WMA
- Photo - JPEG
- Video - MP4
To add an external thumbnail:

With an individual file or music album selected, press **Options**, then select **Get Content Info** (see “Get Content Info” on page 38). As an alternative, or if the database did not find any info:

1. Select a JPEG, GIF, or PNG image file that you want to display as a thumbnail of the music or video file.
2. Save the file in the same location as the file it will represent, according to the following guidelines:

**Folder Thumbnail Guidelines**

**Music:**
- Display folder.jpg (the image file must be named “folder.jpg” or thumbnail will not function)
- If no folder.jpg file is found, display the first embedded album art image found in the folder
- If no album art is available, display the first .JPG in the folder

**Photo:**
- Display thumbnail

**Video:**
- Display embedded cover art
- If no embedded cover art is available, display image file associated with the video file to be played (for example video.mkv will be associated with video.JPG)

**File Thumbnail View Functions (Defaults)**

**Music:**
- Display album art (.MP3 file with embedded .JPG)
- If no album art is available, display the image file with the same name as the audio file to be played. (for example, song.wav will be associated with song.jpg)

**Photo:**
- Display thumbnail

**Video:**
- Display .MP4 with embedded .JPG
- Display image file associated with the video file to be played (for example video.mkv will be associated with video.JPG)

**Search Function**

You must first enable the Media Library Compilation feature before using the Search function. Go to “Media Library Compilation” on page 29 for instructions.

To perform a media search:

1. Go to the main browser screen of the type of media you want to search for (**Videos**, **Music**, or **Photos**).
2. Press 📣 on the remote control.
3. Select **Title**, **Director**, or **Actor** (Videos); **Title**, **File Name**, **Album** or **Artist** (Music); or **Title** (Photos). Press OK, then † to select the ▶. Press OK.

4. Select **Contains** or **Starts with**, then press OK twice.
5. Using the on-screen keyboard:

- Use the navigation buttons to select a character, then press **OK** to input it in the search bar. Alternatives to this method are as follows:
  - Use the alpha-numeric keys on the remote control to enter search terms. For example, press the **2** button a number of times to enter a, b, or c; press the **3** button a number of times to enter d, e, or f, etc.
  - Plug a USB keyboard into the media center as an alternative to the methods above. See “Using a USB Keyboard” on page 24.
- Select **ABC** or **abc**, then press **OK** to input characters in a different case.
- Select **@##&**, then press **OK** to display the symbol keyboard for inputting special keyboard characters.
- Select **.com**, then press **OK** to display the symbols for special characters such as .com, www., .net, .org, etc.
- Press **Options** for multi-lingual/multi-character input (applicable to certain letters on the keyboard).
- If you want to erase the last character entered, navigate to **Del** then press **OK**.
- Navigate to **Backspace** and press **OK** to move the cursor backward and **Next Page** to move the cursor forward in the Search field (you can also press **Backspace** to move the cursor backward and **Next Page** to move the cursor forward in the Search field).

6. Once you define the search parameters, select **Submit** on the bottom of the on-screen keyboard, then press **OK**. All files with filenames that begin with the characters entered in the search field will be included in the search results. For example, inputting ‘glo’ will result to a search results like this:

- Global party.mpeg
- Glow of the Field.jpg
- Gloss.mp3

7. If there are no media files matching the search parameters, press **OK** to display the on-screen keyboard again and redefine the search parameters.
If media files matching the search parameters you set are found, they will be listed as shown below (the result of entering ‘bea’ in Photos).

Use the navigation buttons to select the media file you are looking for, and then press **OK** or **►** to initiate playback.
Watching Video

You can watch videos on your TV using the media center.

**Supported Video Formats**

The following video file formats are supported.

- AVI (Xvid, AVC, MPEG1/2/4)
- MPG/MPEG
- VOB/ISO
- MKV (h.264, x.264, AVC, MPEG1/2/4)
- TS/TP/M2T (MPEG1/2/4, AVC, VC-1)
- MP4/MOV (MPEG4, h.264)
- M2TS
- WMV9 (VC-1)

**Video Playback**

To play back video:

1. Navigate to the Home | Videos menu, then press **OK**.

2. The screen displays available video files and video folders in the media center’s local drive by default. The display will either be in preview view (default), grid view, list view, or gallery view, depending on your Browser Display setting (see “Video Settings” on page 182 for more information on Browser Display settings). Preview mode displays file size, and file type and genre (if available) for the selected video.
If Media Library is enabled, you can choose to navigate using sorting (Alphabetical, Date, Ratings, Recently Viewed) and filter options (All Video, Genre, Playlists, Folder, Favorites) See “Supported Categories for Media Library Compilation” on page 30 for details.

3. Locate the video file you want to play.
   ▪ To begin playback of a single video file, highlight the file, and then press OK.
   ▪ To begin playback of a video playlist, highlight the playlist name, then press PAUSE/PLAY.
   ▪ To begin playback of all video files in a folder, highlight a video in that folder, then press PAUSE/PLAY.
   ▪ To find a video on a network share or media center, follow the instructions in “Accessing Media Content from the Network” on page 74.

If you try to open a video file that has been partially played before, you are prompted to choose whether to play the file from the beginning or resume playback from the last playback position. Select Resume to resume playback or Restart to start playback from the beginning.

Sort & Filter Videos

You can sort and filter the videos shown in the video menu based on your preferences using the sorting & filter option.

Filter

1. Press A or navigate to the sort and filter content icon , and press OK.
2. Press , then ▲ / ▼ to select Filter by All, Folders, Genre, Playlist, and Favorites.
   Press OK to display videos by the criteria selected.

Note: If you have your media files organized by folder, it may be easier and quicker to find your files by using the Filter option to only show folders.

3. With the green check mark selected, press OK again.
Sorting

1. Press △ or navigate to the sort and filter content icon ●, and press OK.
2. Press ►, then ▲/▼ to select Sorting by Date, Alphabetically, by Ratings, or by Recently Viewed. Press OK to display videos by the criteria selected in either ascending (arrow up) or descending (arrow down) order.

3. Press ►. With the green check mark ● selected, press OK again.

Videos Menu Options

In the main Videos screen, press Options. The Videos menu options display. Press Back when finished to return to the main menu.

Get Content Info

Press ▲/▼ and select Get Content Info from the list of options prompts the media center to connect to an online media database to gather information about the file. For example, Get Info returns the MPAA rating, duration of the movie, genre, studio photos, and movie trailers based on the movie’s title.
If a No Content Info Found message displays, navigate to the keyboard icon then press **OK**.

Enter the whole title or a portion of the title using the on-screen keyboard, select **Submit**, then press **OK** to associate info with the content. Select a title from the list, then press **OK**.

**Rescan Info**

Press ▲/▼ and select **Rescan Info** from the list of options after you have associated content info with a file. The rescan info option updates content info or allows you to correct content info that was associated with the file in error.

**View Info**

Press ▲/▼ and select **View Info** from the list of options after you have associated content info with a file. A synopsis/description of the title info displays.

**Add to Queue**

Adding videos to the queue provides quick access to these files via the dashboard (see “Media Center Dashboard” on page 27).

**Rate**

Rate your videos and other media files so you can sort and filter them by ratings and access them quickly in the dashboard.

1. Press ▲/▼ and select **Rate Video** from the list of options.
2. Press ◀/▶ to highlight the number of stars corresponding to your preferred rating. Five is the highest rating, and one is the lowest.
3. Press **OK** to confirm your rating.

**Favorite**

Favorite your videos other media files so you can sort and filter them by favorite and access them quickly in the dashboard.

1. Press ▲/▼ and select **Favorite** from the list of options.
2. Press **OK**.
**Move & Copy**

1. Press ▲/▼ and select **Move** or **Copy** from the list of options, then press OK.
2. Select a storage destination for the file you want to move or copy, then press OK.
3. Use the navigation buttons to select the location where you want to move or copy the file. When you have selected the location, press OK to place the file there (if selecting a network or media server location, see “Accessing Media Content from the Network” on page 74).
4. Press ► to select the green check mark ✔, then press OK.

**Delete**

1. Press ▲/▼ and select **Delete** from the list of options.
2. Select Yes, then press OK to confirm deletion.

**Upload to Facebook**

You can upload a video to Facebook by selecting this option.

1. Press ▲/▼ and select **Upload to Facebook** from the list of options.
2. Select the account you want to post the file to then press OK, or select **Add Account** to add a Facebook account (see “Facebook” on page 106 for details).
3. The screen below displays. Press OK to select “Don’t ask me again!” if you do not want this screen to appear again, then press ► to select the green check mark ✔️. Press OK.

**Select Multiple**

Select multiple files then press **Options** to apply changes to more than one file.

1. Press ▲/▼ and select **Select Multiple** from the list of options.
2. The edit multiple screen displays. Use the navigation buttons to **Select All**, **Select Page**, or **Clear All** files shown, or **Continue** to the next group of files, then press OK.

3. With multiple files selected, press **Options** to apply changes to more than one file.
# Video Playback Controls

Use these buttons on the remote control to control video playback:

<table>
<thead>
<tr>
<th>Button</th>
<th>Function</th>
</tr>
</thead>
<tbody>
<tr>
<td>STOP</td>
<td>Discontinues video playback</td>
</tr>
<tr>
<td>PAUSE/PLAY</td>
<td>Pauses or resumes video playback</td>
</tr>
<tr>
<td>FF (fast forward) or REV (reverse) to scan video (press repeatedly to select the scan speed)</td>
<td>Scans the video playback forward or backward. The media center supports the following scan speeds: 2x, 4x, 8x, 16x</td>
</tr>
<tr>
<td>Press PAUSE/PLAY to resume playback on the selected position</td>
<td></td>
</tr>
<tr>
<td>NEXT</td>
<td>Plays the next video file in the video folder/playlist. Press during Fast Forward to skip forward 10 minutes. Press NEXT to skip to the next chapter (if the video file supports chapters).</td>
</tr>
<tr>
<td>PREV</td>
<td>Plays the previous video file in the video folder/playlist. Press during Fast Reverse to skip back 10 minutes. Press PREV to skip to the previous chapter (if the video file supports chapters).</td>
</tr>
<tr>
<td>Up arrow</td>
<td>Move subtitles up on the screen.</td>
</tr>
<tr>
<td>Down arrow</td>
<td>Move subtitles down on the screen.</td>
</tr>
<tr>
<td>Left arrow</td>
<td>Reduce subtitle display speed.</td>
</tr>
<tr>
<td>Right arrow</td>
<td>Increase subtitle display speed.</td>
</tr>
<tr>
<td>Subtitle</td>
<td></td>
</tr>
<tr>
<td>Audio</td>
<td></td>
</tr>
</tbody>
</table>
Video Playback Options

- To display the video playback options while playing a video, press **Options**.
- To return to the video, press **Back**.

Get Content Info

See “Get Content Info” on page 38.

View Chapter

If you are viewing a multichapter video file, you can select which chapter to play.

To select the video chapter:

1. Press **Options**.
2. Highlight **View Chapter**, then press **OK**.

3. Press ▲/▼ to highlight your chapter selection, then press **OK** twice.

Subtitle

Use this option to view subtitles during video playback. Make sure the subtitle files are located in the same folder as the current video, and that it has the same filename as the video file.

**Note:** Subtitle files (specific types that are supported) need to have the exact same file name as the media they are playing (the extensions will be different) and need to be located in the same folder as the video file.
To view subtitles:

1. During video playback, press **Subtitle** repeatedly until your desired subtitles display or “Subtitle Off” appears. Or, press **Options**, highlight **Subtitles**, then press **OK** and follow the steps below.
2. Select your preferred language or **Off** (to disable subtitles), then press **OK**.
3. With the green check mark ✅ selected, press **OK** again.

### Adjust Subtitles

After selecting subtitles, use this option to adjust subtitles during video playback.

1. During video playback, press **Options**.
2. Highlight **Adjust Subtitles**, then press ▶️.

**Adjust Subtitles** submenu options include:

- **Position & Size** - use navigation buttons to adjust position and speed, press OK repeatedly to adjust size).
- **Color (of subtitle text)** - select fill and border color from the Subtitle Color menu.
- **Encoding** - see “Additional Encoding Support” on page 193.

### Play Mode

Use the play mode option to set video repeat options. Press **OK** repeatedly until the repeat icon you want is displayed. Options include:
- **Repeat All** – All the video files in the current video folder are played in sequence and repeatedly until you press **STOP** or **Back**.

- **Repeat One** – The current video file is played repeatedly until you press **STOP** or **Back**.

**Audio Channel Selection**

Use this option to select the audio language used in the video playback. This option is only available if the current video has more than one audio track. Make sure the audio tracks are located in the same folder as the current video.

To select the audio channel:

1. During video playback, press **Audio** (or press **Options**, highlight **Audio**, then press **OK**).
2. Repeat the step above until your desired language or track plays.

**Favorite**

See “Favorite” on page 39.

**Rate**

See “Rate” on page 39.

**Add to Queue**

See “Add to Queue” on page 39.

**Selecting Video Zoom and Pan Options**

Use this option to change the viewing scale of the video playback screen and to pan the video display.

1. During video playback, press **Options**.
2. Select **Zoom & Pan**, then press **OK**.
3. Press **OK** repeatedly to cycle through the available zoom options. Use the navigation buttons to pan the display.

**Delete**

See “Delete” on page 40.
Displaying the Video Playback Panel

Use this option to display the Video Playback Panel on the bottom of the screen. This panel shows the following information about the current video:

![Video playback progress bar and elapsed and total playback times]

To view the Video Playback Panel:

1. During video playback, press **OK**. The video playback panel appears on the bottom of the screen, showing a progress bar along with the elapsed and total playback times.

2. Some videos allow you to advance to a specific time. Select **Skip to Desired Time**, then click **OK**. A keyboard displays:

![Keyboard for entering time]

3. Use the navigation buttons to position the cursor under each number in the Hour, Minute, and Second fields, then select a number from the keyboard. Select **Submit** then press **OK** when finished to advance to the specific time. Press **OK** to hide the Video Playback Panel when finished.
DVD Navigation

In most cases, when the contents of an entire DVD have been successfully saved and stored in the media center’s internal drive or on an attached USB hard drive or a networked hard drive connected to the media center, you will experience the same DVD menu navigation functionality using the buttons on the media center remote as you would using a DVD remote for a DVD player connected to a television.

---

**Important:** For DVD navigation to work, the VOB files must be placed in a folder named VIDEO_TS.

---

**Note:** Video files such as AVI, MP4, MKV, and MT2S are “single track” video files that do not provide DVD navigation features.

DVD Navigation Controls

Use these buttons on the remote control to control DVD navigation video playback:

<table>
<thead>
<tr>
<th>Button</th>
<th>Function</th>
</tr>
</thead>
<tbody>
<tr>
<td>STOP</td>
<td>Discontinues video playback</td>
</tr>
<tr>
<td>PAUSE/PLAY</td>
<td>Pauses or resumes video playback</td>
</tr>
<tr>
<td>FF (fast forward) or REV (reverse)</td>
<td>Scans the video playback forward or backward</td>
</tr>
<tr>
<td>NEXT</td>
<td>• Press during Fast Forward to skip forward 10 minutes.</td>
</tr>
<tr>
<td></td>
<td>• Press NEXT to skip to the next chapter.</td>
</tr>
<tr>
<td>PREV</td>
<td>• Press during Fast Reverse to skip back 10 minutes.</td>
</tr>
<tr>
<td></td>
<td>• Press PREV to skip to the previous chapter.</td>
</tr>
<tr>
<td>Up arrow</td>
<td>• At the main menu, move between selections such as Play Movie, Scene Selection, Set Up, Special Features, etc.</td>
</tr>
<tr>
<td></td>
<td>• Move subtitles up on the screen during video playback.</td>
</tr>
<tr>
<td>Down arrow</td>
<td>• At the main menu, move between selections such as Play Movie, Scene Selection, Set Up, Special Features, etc.</td>
</tr>
<tr>
<td></td>
<td>• Move subtitles down on the screen during video playback.</td>
</tr>
</tbody>
</table>
To display the video playback options, press Options.
To hide the options, press Back or Options again.

**DVD Navigation Playback Options**

- At the main menu, move between selections such as Play Movie, Scene Selection, Set Up, Special Features, etc.
- Reduce subtitle display speed during video playback.
- Increase subtitle display speed during video playback.

**Main Menu Selection**

To show the main menu in DVD navigation mode:

1. Press Options.
2. Highlight Menu, then press OK. The main menu displays.

**Selecting Subtitles**

See “Subtitle” on page 43.

**Audio Channel Selection**

See “Audio Channel Selection” on page 45.

**Get Content Info**

See “Get Content Info” on page 38.
Playing Music

You can listen to audio files on your TV/audio system using the media center.

Supported Audio Formats

- MP3
- WAV/PCM/LPCM
- WMA
- AAC
- FLAC
- MKV
- AIF/AIFF
- OGG
- Dolby Digital Plus
- DTS

Music Playback

1. Navigate to the Home | Music menu, then press OK.

2. The screen displays available music files and folders in the media center’s local drive by default. The display will either be in grid view (default) or list view, depending on your Browser Display setting (see “Music Settings” on page 184 for more information on Browser Display settings).

If Media Library is enabled, you can choose to navigate using sorting (Alphabetical, Date, Ratings, Recently Viewed) and filter options (All, All Tracks, etc.).
Genre, Artist, Album, Playlists, Favorites) See “Supported Categories for Media Library Compilation” on page 30 for details.

3. Locate the audio file you want to play.
   - To begin playback of a single audio file, highlight the file, then press **OK**.
   - To begin playback of an album, highlight the album, then press **OK**. Press **OK** again to play the album.
   - To begin playback of a music playlist, highlight the playlist name, and then press **PAUSE/PLAY**.
   - To begin playback of all audio files in a folder, highlight an audio file in that folder, and then press **PAUSE/PLAY**.
   - To find audio files on a network share or media center, follow the instructions in “Accessing Media Content from the Network” on page 74.

**Sort & Filter Music**

You can sort and filter music based on your preferences using the sort & filter option.

**Filter**

1. Press **A** or navigate to the sort and filter content icon **[ ]**, and press **OK**.
2. Press **[ ]**, then **▲** / **▼** to select Filter by All Albums, All Tracks, Genre, Artist, Folders, Playlist, and Favorites. Press **OK** to display music by the criteria selected.

---

*Note: If you have your media files organized by folder, it may be easier and quicker to find your files by using the Filter option to only show folders.*

3. With the green check mark **[ ]** selected, press **OK** again.
Sorting
1. Press ▶️ or navigate to the sort and filter content icon ▼️, and press OK.
2. Press ▶️, then ▲/▼ to select Sorting by Date, Alphabetically, Ratings, or by Recently Viewed. Press OK to display music by the criteria selected in either ascending (arrow up) or descending (arrow down) order.
3. Press ▶️. With the green check mark ✔️ selected, press OK again.

Music Menu Options
In the main video screen, press Options. The Music menu options display. Press Back when complete to return to the main menu.

Get Content Info
The Music get content info function is the same as the Videos get content info function. See “Get Content Info” on page 38.

Rescan Info
The Music rescan info function is the same as the Videos rescan info function. See “Rescan Info” on page 39.

View Info
The Music view info function is the same as the Videos view info function. See “Video Playback Controls” on page 42.
**Favorite**

The Music favorite function is the same as the Videos favorite function. See “Favorite” on page 39.

**Rate**

The Music rate function is the same as the Videos rate function. See “Rate” on page 39.

**Move & Copy**

The Music move and copy functions are the same as the Videos move and copy functions. See “Move & Copy” on page 40.

**Delete**

The Music delete function is the same as the Videos delete function. See “Delete” on page 40.

**Edit Multiple**

The Music edit multiple function is the same as the Videos edit multiple function. See “Select Multiple” on page 41.

**Preset Music**

The Preset Music function allows you to assign a numbered button on the remote to a song for quick playback.

1. Press ▲/▼ to select **Preset Music**. Press ►.

2. Press ▲/▼ to select a numbered remote button, then press **OK**.
Music Playback Controls

Use these buttons on the remote control to control music playback when in the music playback screen:

<table>
<thead>
<tr>
<th>Button</th>
<th>Function</th>
</tr>
</thead>
<tbody>
<tr>
<td>STOP</td>
<td>Stop audio playback</td>
</tr>
<tr>
<td>PAUSE/PLAY</td>
<td>Pause or resume audio playback</td>
</tr>
<tr>
<td></td>
<td>1. Press <strong>FF</strong> (fast forward) or <strong>REV</strong> (reverse) to scan the audio file (press repeatedly to select the scan speed). Scan the audio playback forward or backward. The media center supports the following scan speeds: 2×, 4×, 8×, 16×.</td>
</tr>
<tr>
<td></td>
<td>2. Press <strong>PLAY</strong> to resume playback on the selected position.</td>
</tr>
<tr>
<td>Press <strong>PREV</strong> (previous track) once.</td>
<td>Start playback from the beginning</td>
</tr>
<tr>
<td>Press <strong>NEXT</strong></td>
<td>Play the next audio track in the music folder/playlist</td>
</tr>
<tr>
<td>Press <strong>PREV</strong> (previous track) twice.</td>
<td>Play the previous audio track in the music folder/playlist</td>
</tr>
<tr>
<td>0-9</td>
<td>While listening to a song or music playlist, press and hold any of the 0-9 buttons to create a preset.</td>
</tr>
</tbody>
</table>

Note: If you leave the music playback screen, the only playback controls that work are the **STOP** button (to stop music playback) and **Options** (during photo playback - to jump to the previous or next track).
Music Playback Screen

The music playback screen displays the following information about the currently playing album and/or audio file:

- Album art (if available)
- Album name
- Audio filename(s)
- Track number/total tracks
- Elapsed time and total playback time
- Current repeat mode (if enabled)
- Shuffle mode (if enabled)
- Audio playback progress bar
- Artist

Music Playback Options

- To display the music playback options, press Options.
- To hide the options, press Back or Options again.
Get Content Info

The Music get content info function is the same as the Videos get content info function. See “Get Content Info” on page 38.

Rescan Info

The Music rescan info function is the same as the Videos rescan info function. See “Rescan Info” on page 39.

View Info

The Music view info function is the same as the Videos view info function. See “Video Playback Controls” on page 42.

Add to Queue

The Music add to queue function is the same as the Video add to queue function. See “Add to Queue” on page 39.

Favorite

The Music favorite function is the same as the Video favorite function. See “Favorite” on page 39.

Rate

The Music rate function is the same as the Video rate function. See “Rate” on page 39.

Play Mode

Use the music play mode to set repeat and shuffle options.

Repeat

To set the music repeat mode:

1. During music playback, press Options.
2. Select Play Mode, then press OK repeatedly until the repeat icon you want is displayed. Options include:
   - Repeat All – All the audio files in the current music folder/playlist are played in sequence and repeatedly until you press STOP or Back.
   - Repeat One – The current audio track is played repeatedly until you press STOP or Back.
   - Repeat All and Shuffle – All the audio files in the current music folder/playlist are played repeatedly in sequence and shuffled until you press STOP or Back.

The icon for the enabled repeat mode will appear below the playback progress bar.
Shuffle
Use this option to set the audio tracks in the current music folder/playlist to play in random order.

To enable music shuffle mode:
1. During music playback, press Options.
2. Select Play Mode, then press OK repeatedly until the repeat icon you want is displayed. Options include:
   - **Shuffle** – All the audio files in the current music folder/playlist are shuffled repeatedly until you press STOP or Back.
   - **Repeat All and Shuffle** – All the audio files in the current music folder/playlist are played repeatedly in sequence and shuffled until you press STOP or Back.

Delete
The Music delete function is the same as the Videos delete function. See “Delete” on page 40.

Preset Music
See “Preset Music” on page 52.

Playing Music From Your iPod®
Apple® uses a proprietary naming scheme and because of this the media center is unable to display the original names for the folders and files as they are in your iPod. The media center instead reassigns new names for the folders and files, but only while in use with the media center. The original file information is preserved in your iPod. You can view the original file information when you play a file where the screen will display the metadata.

Note: The media center does not support playback of protected premium content such as movies or music from the iTunes® Store, Cinema Now, Movielink®, Amazon Unbox™, and Vongo®.

To use your iPod with the media center, simply plug your iPod in to the USB port and navigate through the interface menu.

Note: The media center only supports USB mass storage mode. iPod Touch is not a USB mass storage device and is therefore not supported.
Viewing Photos

You can view your digital photos both individually and in slideshow mode on your TV using the media center.

**Supported Image File Formats**

- **GIF** (Animated GIFs are not supported)
- **BMP** (non-compressed)
- **JPEG** (grayscale, RGB, YCbcY) (does not support CMYK or YCCK)
- **TIF/TIFF** (RGB) (does not support CMYK, YMC, YMCK, or KCMY)
- **PNG** (Non-alpha channel only)

**Photo Display**

1. Navigate to the Home | Photos menu, then press **OK**.

2. The screen displays available music files and folders in the media center’s local drive by default. The display will either be in grid view (default) or list view, depending on your Browser Display setting (see “Photo Settings” on page 185 for more information on Browser Display settings).

3. If Media Library is enabled, you can choose to navigate using sorting (Alphabetical, Date, Ratings, Recently Viewed) and filter options (All Pictures,
Date, Folders, Recent). See “Supported Categories for Media Library Compilation” on page 30 for details.

4. Locate the picture file you want to view.
   - To open a single picture file for viewing, select the file, and then press OK.
   - To view the next picture file in the photo folder, press ▶ (next).
   - To view the previous picture file in the photo folder, press ◀ (previous).
   - To find picture files on a network share or media center, follow the instructions in “Accessing Media Content from the Network” on page 74.

You can also view a slideshow using all picture files in a photo folder. See “Photo Slideshow” on page 64 for instructions.

Sort & Filter Photos

You can sort and filter photos based on your preferences using the sort & filter option.

Filter

1. Press ▲ or navigate to the sort and filter content icon ◄, and press OK.
2. Press ▶, then ▲/▼ to select Filter by All, Date, Folders, and Favorites. Press OK to display music by the criteria selected.

Note: If you have your media files organized by folder, it may be easier and quicker to find your files by using the Filter option to only show folders.

3. With the green check mark ✔ selected, press OK again.
**Sorting**

1. Press or navigate to the sort and filter content icon, and press OK.
2. Press , then / to select Sorting by Date, Alphabetically, Ratings, or by Recently Viewed. Press OK to display photos by the criteria selected in either ascending (arrow up) or descending (arrow down) order.

3. Press . With the green check mark selected, press OK again.

**Digital Camera Support**

You can attach your digital camera to the media center via a USB port and view the supported image files stored in the camera’s memory card.

To view images from a digital camera:

1. Attach your digital camera to the media center via the USB port.
2. Press OK to close the message (the media center sees the camera’s memory card as a read-only device).
3. Navigate to the Home | Photos menu.
4. The digital camera is considered a USB device. Use the navigation buttons to select, then press OK.

   The screen displays thumbnails of available picture files and photo folders. Only image files supported by the media center are displayed.
Photos Menu Options

In the main photo screen, press Options. The Photos menu options display. Press Back when complete to return to the main menu.

Add to Queue

The Photos add to queue function is the same as the Videos add to queue function. See “Add to Queue” on page 39.

Favorite

The Photos favorite function is the same as the Videos favorite function. See “Favorite” on page 39.

Rate

The Photos rate function is the same as the Videos rate function. See “Rate” on page 39.

Move & Copy

The Photos move and copy functions are the same as the Videos move and copy functions. See “Move & Copy” on page 40.

Delete

The Photos delete function is the same as the Videos delete function. See “Delete” on page 40.

Upload to Facebook

The Photos upload to Facebook function is the same as the Videos upload to Facebook function. See “Upload to Facebook” on page 40.

Upload to Picasa

You can upload a photo to Picasa by selecting this option.

1. Press ▲/▼ and select Upload to Picasa from the list of options.
2. If prompted to sign in, select Yes, then press OK, and enter your Picasa username and password using the on-screen keyboard.
3. The screen below displays. Press OK.

**Set as Background**

You can set any photo as the system background to replace the default grass field and sunny sky photo or other photo you have previously selected.

1. Find and select the photo you want to use for the background in the Photos menu, then press OK.
2. Press Options.
3. Select Set as Background, then press ►.
4. Select one of the photo scaling options (Keep as Original, Fit to Screen, or Distort to Screen), then press OK.

**Select Multiple**

The Photos edit multiple function is the same as the Videos select multiple function. See “Select Multiple” on page 41.
**Photo Display Options**

- To display the photo options while viewing a photo, press **Options**.
- To return to the photo you were viewing, press **Back** or **Options** again.

**Play Mode**

Use the play mode option to set repeat and shuffle options.

1. During photo playback, press **Options**.
2. Select **Play Mode**, then press **OK** repeatedly until the repeat icon you want is displayed. Options include:
   - **Repeat All** — All the photo files in the current photo folder are played in sequence and repeatedly until you press **STOP** or **Back**.
   - **Shuffle** — All the photo files in the current photo folder are shuffled repeatedly until you press **STOP** or **Back**.
   - **Repeat All and Shuffle** — All the photo files in the current photo folder are played repeatedly in sequence and shuffled until you press **STOP** or **Back**.

**Rotate Left & Right**

1. During photo viewing, press **Options**.
2. Select **Rotate Left** or **Rotate Right**, then press **OK**.
3. Press **Options** and select **Rotate Left** or **Rotate Right** again as needed until the rotation you want is set for the photo.

**Selecting Photo Zoom and Pan Options**

See “Selecting Video Zoom and Pan Options” on page 45.

**Upload to Facebook**

See “Upload to Facebook” on page 40.

**Upload to Picasa**

See “Upload to Picasa” on page 60.

**Set As Background**

See “Set as Background” on page 61.
Rate
See “Rate” on page 39.

Favorite
See “Favorite” on page 39.

Add to Queue
See “Add to Queue” on page 39.

Delete
See “Delete” on page 40.

Displaying Photo Thumbnails
While viewing a photo or slideshow, press ▼ to display thumbnails of all your photos. Use the ◀ ▶ navigation buttons to select another photo to view, then press OK.
Displaying Photo Information

Use this option to display the Picture Information Panel on the bottom of the screen. This panel shows the following information about the current picture:

- Image filename
- Source
- Image file size and resolution
- Image’s sequence number and the total number of image files in the current photo folder

To view the photo information panel:

- During photo viewing, press **OK**. Press **Back** to hide photo information.

Photo Slideshow

The media center allows you to create a slideshow using the contents of a photo folder.

To start a slideshow:

1. Locate the photo folder containing the image files you want in the slideshow. (See “Photo Display” on page 57.)
2. Select the photo folder, then press **PAUSE/PLAY** to start the slideshow.

To listen to background music with a slideshow:

1. Navigate to the music folder containing the audio file/playlist you want to accompany the slideshow. (See “Music Playback” on page 49.)
2. Select the audio file/playlist, and then press **PLAY**.
   - If you selected a single audio file, you may want to enable it to play repeatedly so it doesn’t stop before the slideshow is done.
   - If you selected a music playlist, you can choose to enable the repeat or shuffle mode.
3. Press **HOME**, and then start the slideshow (as described above).
**Slideshow Playback Controls**

Use these buttons on the remote control to control slideshow playback:

<table>
<thead>
<tr>
<th>Button</th>
<th>Function</th>
</tr>
</thead>
<tbody>
<tr>
<td>STOP</td>
<td>Discontinue the slideshow</td>
</tr>
<tr>
<td>PAUSE/PLAY</td>
<td>Pause or resume the slideshow</td>
</tr>
<tr>
<td>NEXT</td>
<td>Display the next picture file in the slideshow</td>
</tr>
<tr>
<td>PREV</td>
<td>Play the previous picture file in the slideshow</td>
</tr>
</tbody>
</table>

**Repeating and/or Shuffling a Slideshow**

Access Setup > Photo settings to repeat and/or shuffle a slideshow. See “Slideshow Sequence” on page 185.
Files

You can view and manage all of your media files in one place using the Files menu.

Files Display

1. Navigate to the Home | Files menu, then press **OK**.

2. The screen displays all available media files and folders in the media center’s local drive by default. The display is in list view.

3. Locate a file you want to play.
   - To play a single file, select the file from the list or by navigating through the folder structure, then press **OK**.
   - Follow the instructions under “Watching Video” on page 36, “Playing Music” on page 49, or “Viewing Photos” on page 57.
   - To find files on a network share or media server, follow the instructions in “Accessing Media Content from the Network” on page 74.

Sorting Files

The Files sorting function is the same as the Videos sorting function. See “Sorting” on page 38.
Files Options
To manage files (move, copy, delete, rename, and select multiple), do the following:
With an individual file or folder selected, press **Options**.

Move & Copy
The Files move and copy functions are the same as the Videos move and copy functions. See “Move & Copy” on page 40.

Delete
The Files delete function is the same as the Videos delete function. See “Delete” on page 40.

Rename
To rename a folder or file, select **Rename** then enter in the new name using the on-screen keyboard.

Select Multiple
The Files edit multiple function is the same as the Videos select multiple function. See “Select Multiple” on page 41.
Network Setup

The media center can be connected to the local area network using a wired or wireless network connection for access to streaming video and online and offline media content.

**Ethernet Network (Wired) Setup**

1. Plug an Ethernet cable into the Ethernet connector on the media center.
2. Plug the opposite end of the Ethernet cable directly into a LAN port on a router or network switch.
4. Press ▲/▼ to select **Network Settings**, then press **OK**.

![Network Settings menu]
5. Press ▲/▼ to select **Network setup**, then press **OK**.

6. Select a setup configuration option, then press **OK**.
   - Select **Automatic** to have the device attempt to detect your network connection automatically, then go to step 11.
   - Select **Manual** to manually set your network connection, then proceed to step 7.

7. Once the network is detected, the following screen appears. Press ▲/▼ to select **IP address**, then press **OK**.
8. Press LEFT or RIGHT to key in your IP address using the on-screen keyboard. Select Submit, then press OK.

9. Repeat the step above to key in values for the subnet mask, gateway, and DNS settings.

10. After entering all the configuration settings, select Finish, then press OK.

11. Once the network is detected, the following screen appears. Press OK to display the Home screen.

After establishing a network connection, you can:

- Use the different Internet services integrated into your media center to access streaming media. Go to the next chapter for more information on these services.

- Transfer files between the media center and your computer (PC or Mac). Procedures for copying and moving files between the media center and your computer are described in “Step 3 - Loading Content On Your Media Center” on page 18.
Wireless Network Setup

**Important:** Streaming over wi-fi may be unstable due to various reasons such as a weak network connection, signal strength, variable speeds, or other environmental factors. You can create instant high-speed, wired network connections and gain fast, reliable access to the Internet without running wires all over your house using WD Livewire Powerline AV Network kit (sold separately). For more information, visit [http://products.wdc.com/WDLivewire](http://products.wdc.com/WDLivewire).

1. Connect a USB wireless adapter (sold separately) to the USB port on your media center.

   **Note:** For a list of tested, compatible wireless USB adapters, see Article #5688 in our knowledge base at [http://support.wdc.com](http://support.wdc.com).

2. Press **OK**.

3. Press **△/▽** to select a wireless network setup option, then press **OK**.

   If you choose **Auto search**, the unit will search for available access points in your area. Proceed to step 4.

   Choose **Manually enter the wireless network name** to input the network name manually, then proceed to step 5.
4. Press ▲/▼ to select the access point you want to connect to, then press OK. Proceed to step 6 to continue Auto search.

5. Use the navigation buttons ▲▼◄► to type in the network name for the access point you want to connect to, select Submit, then press OK.

6. Use the navigation buttons ▲▼◄► to key in the passcode for the access point, select Submit, then press OK.

7. Use the navigation buttons ◄► to select Automatic (obtains IP address automatically from the router) or Manual (input static IP address manually), then press OK. If you selected Manual, follow steps 7-10 under “Ethernet Network (Wired) Setup” on page 68. When finished, proceed to step 12 below.

8. Once the network is successfully set up, press OK to display the Home screen. After establishing a network connection, you can:
   - Use the Internet services integrated into your media center to access streaming media. Go to the next chapter for more information on these services.
   - Transfer files between the media center and your computer (PC or Mac). Procedures for copying and moving files between the media center and your computer is described in “Step 3 - Loading Content On Your Media Center” on page 18.

### Checking the Network Connection

If you experience network problems, check the network connection to determine the cause of the problem.

To check the network connection:

1. Press Setup or navigate to the Home | Setup menu bar.
2. Press ▲/▼ to select Network Settings, then press OK.
3. Press ▲/▼ to select **Check connection**, then press **OK**.

The unit will automatically check the network connection. Once the check is completed, the results display. A green check mark on these items indicate that there is no problem with your network settings. If a problem is indicated, check your router settings and manual for a solution.

A red cross mark indicates a problem with the network settings. It can either be the IP address or the DNS server address. If the problem persists, check with your Internet service provider.
Network Services

Accessing Media Content from the Network

Once the media player has an active network connection, you can access media content from a Network Attached Storage (NAS) device or shared computer located on the same network as your media player. You can also access content from USB storage connected to the media player. The benefits and applications of each content source type are described below.

To access media content from a network share, media server, USB storage, or online account:

1. Navigate to the Home screen, and select the menu for media content you wish to access. It can be Music, Videos, or Photos. Press OK.
2. Press OK to select a new content source or press or ▲/▼ to select Select Content Source, then press OK.
3. Press ▲/▼ to select the network resource where the media content you want to access is located, then press OK.

Note: My Media Library does not appear if the media library is turned off (see “Media Library” on page 190).

<table>
<thead>
<tr>

</thead>
<tbody>
<tr>
<td>My Media Library</td>
<td>Internal storage, all available network shares, and attached USB storage (slow scan—depending on the number of files and connection speed, the scanning time required to compile the media library may be increased).</td>
</tr>
<tr>
<td>Local Storage</td>
<td>Internal storage and storage devices attached to USB ports 1 and/or 2.</td>
</tr>
<tr>
<td>Media Server</td>
<td>Network-attached media server devices for ease of use (optimal for DLNA certified server devices such as WD's My Book® Live™).</td>
</tr>
<tr>
<td>Network Share</td>
<td></td>
</tr>
<tr>
<td>Windows Shares</td>
<td>Windows network shares, most network attached storage drives, legacy Mac OS before Lion, and other devices that uses SMB/CIFS protocol.</td>
</tr>
<tr>
<td>Linux Shares</td>
<td>Linux (NFS) network shares (recommended for advanced power users).</td>
</tr>
<tr>
<td>Online Service</td>
<td>Photos and videos posted in your Facebook and Picasa online accounts.</td>
</tr>
</tbody>
</table>
My Media Library

The benefit of selecting this option is that it shows all the aggregated content on your network attached and USB storage together in one view. However, it does take longer to scan all the storage content compared to selecting a more specific option for content retrieval.

Internal storage is automatically included in the Media Library. To add additional source content to My Media Library, please do one of the following:

- Attach USB storage to one of the USB ports on the media center and it is automatically added to media library.
- Connect to a Windows or Linux Share (see “Network Share” on page 76). While browsing the content inside, press Option to add a share folder to the Media Library.

- Use the Media Library Manager for Network Share (see “Media Library Manager for Network Share” on page 191), and select Add network share to media library to manually add individual share folders to the media library. A maximum of 10 shares can be added.

Local Storage

Select Local Storage, then Internal Storage to access media content on the media center’s internal hard drive.

Select Local Storage, then USB1 or USB2 to access media content on one or more USB storage devices connected to the media center’s USB 1 or USB 2 ports.

After selecting USB 1 or USB 2, the media player scans the drive to build the media library by default (if enabled).
Media Server

This menu displays network attached UPnP media servers connected to your network and usage is optimized with DLNA compliant devices such as WD My Book Live personal cloud storage and other WD TV Live Hub media centers.

The benefit of using a media server is that it aggregates the content together from the device that is hosting it. The media server hosts a list of supported file formats with metadata information that allows a client device like the media player to easily browse and play back the content.

However, using a media server can restrict supported file types and you may not be able to see all the files stored in the media server. When using a Network Share, every file is presented to the media player and it does the content filtering based on what it can support.

Follow the steps below under “Accessing a Shared Folder,” selecting the name of your media server and referencing your media server documentation for password setup and administration if necessary.

Network Share

The media player supports Windows (SMB/CIFS), and Linux (NFS) network shares.

Windows Shares

Windows Shares uses Samba (also known as SMB/CIFS), a more common protocol among devices such as PC, NAS, and Mac (before Lion). If you want to simply discover and/or share a folder on the network to be accessed by the media player, Samba is a common method, especially for Windows.
Windows Shares display shared computers and network attached storage devices (such as WD’s My Book Live personal cloud storage NAS drive) connected to your network via the Samba protocol.

Linux Shares

Linux Shares uses NFS, which is popular with power users and Linux users because of the increased speed and performance it can provide. NFS is better suited to Linux since using NFS with Windows requires installation of third party applications.

Follow the steps below under “Accessing a Shared Folder,” selecting the name of your NAS device or computer and referencing your NAS device or operating system documentation for password setup and administration if necessary.

Accessing a Shared Folder

To create a shared folder, follow the instructions under “Share a Folder on Your Computer” on page 78.

To access a shared folder under Network Share:

1. Select the name of your computer and press **OK** twice.

2. If necessary, enter your user name and password to access your computer, or accept the default login. For further information regarding password setup and administration, refer to your operating system documentation.

3. Press ▶ to select **OK**, then press **OK**. Supported content for the selected media type displays.

4. Select the content you wish to access, then press **OK** to start media playback.
**Accessing Network Attached Storage**
Follow the steps above under “Accessing a Shared Folder,” selecting the name of your NAS device and referencing your NAS device documentation for password setup and administration.

**Online Service**
This menu allows you to connect to media content stored in your Facebook and Picasa online accounts. Select Facebook or Picasa and enter your user name and password to access your media content.

**Logging in to a Network Resource or Online Account**
When accessing a network resource, you need to enter in the user name and password for the device or account using the on-screen keyboard. In some cases, a default anonymous login displays if no password is set for the device. When this happens, accept the default login, select , then press OK.

Select **Remember Me** and press OK to have the media player remember the user name and password for the resource.

**Share a Folder on Your Computer**
You can view and play back digital media content stored on your computer by sharing one or more folders containing the media.
Make sure the media player and your computer are both attached to the network, then follow the instructions below for your operating system (Windows 7/Vista/XP or Mac).

**Important:** Be sure to update your operating system to the latest update or service pack. Depending on your network’s configuration you may need to disable or adjust your Firewall settings to view your shared folder on your network. Contact your Firewall manufacturer for assistance.

When finished following the instructions for your operating system, go to “Accessing a Shared Folder” on page 77.

**Windows 7**

**Change Settings to Allow Folder Sharing**

The first thing you need to do to allow folders to be shared with the WD TV Live is to determine how your network is configured. Follow the instructions below to determine what kind of network you have.

1. From the Control Panel, click **Network and Internet**.
2. Click **Network and Sharing Center**.
3. Look under View your active networks to determine if your network is Home, Work, Public, or Domain.
4. If you have a Work network, proceed to step 6. If you have a Public network, click the **Public network** link.
5. Click **Work network**.

6. Click the **Choose homegroup and sharing options** link.
7. Click the **Change advanced sharing settings...** link.
8. Ensure that the following options are selected: **Turn on network discovery**, **Turn on file and printer sharing**, **Media streaming is off**, and **Allow Windows to manage homegroup connections (recommended)**.

   ![Network Settings](image)

**Note:** WD does not support streaming from a domain server, or a computer attached to a domain, to the WD TV Live. Please contact your domain administrator or Microsoft® Support for assistance.

### Share a Folder

Follow the instructions below to share a folder in Windows 7.

1. Navigate to the folder you want to share. Once found, right-click on the folder and select **Properties**.
2. Click the **Sharing** tab.
3. Click the **Advanced Sharing** button.
4. Click the **Share This Folder** box.
5. Enter the name you would like this folder to appear on the network as in the **Share name** box.

6. Click the **Permissions** box.

7. Select the users you would like to give access to and the permissions you would like to assign to that user, then click **OK**.

8. Click **OK** to close the Advanced Sharing window.

9. Finally, click on **OK** one more time to close the folder properties window and save your changes.
Windows Vista

Change Settings to Allow Folder Sharing

Follow the instructions below to configure your computer for folder sharing in Windows Vista.

1. Open the Network And Sharing Center from the Control Panel.

2. Next to the name of the network look to see if it is a Private or Public network.
3. If your network is Private skip to step 5 below. Otherwise, click the Customize link.
4. Click Private, then click OK.
5. If it is set to Off expand the File Sharing field and change it to On.
6. If you want to share the pre-designated Public folders in Windows, expand the Public folder sharing field under Sharing and Discovery.

7. Select your choice of the two "Turn on sharing..." options.
8. Click Apply.
Share a Folder

Follow the instructions below to share a folder in Windows Vista.

1. Navigate to the folder you want to share. Once found, right-click on the folder and click **Share**.

2. If your system requires a login to access a shared folder, select a User account to assign to the share, then click **Share**. Otherwise, simply click the Share button.

3. Under Sharing and Discovery expand the **Public folder sharing** field.

4. Depending on your system speed you may or may not see a progress bar while the permissions on the folder are updated. Click **Done**.
**Windows XP**

Follow the instructions below to share a folder in Windows XP.

1. Right-click on the folder you want to share and select **Sharing and Security**.
2. Click **Share this folder**.
3. Choose a name you want the folder to appear as on your network and enter it in the **Share Name** field.

![Example Folder Properties](image)

---

**Note:** You can also set a maximum number of users able to access your drive at one time. To do this, click "Allow this number of users: " and set the number in the field to the right.

4. Click **OK**.

**Mac**

Follow the instructions below to share a folder within Mac OS 10.5 or 10.6.

1. Open the Apple menu from the upper left corner of your screen and click **System Preferences**.
2. Click the **Sharing** button under the Internet & Wireless group.
3. Choose a name for your computer on the network and type it in the **Computer Name** field.

4. Click the box next to **File Sharing** to turn on the file sharing service. Then click on the + sign button below the **Shared Folders** box.

5. To share additional folders beyond the default Public folder, select the folder you would like to share and click the **Add** button.

6. Click on the red **x** in the upper left corner to close the window.
Using the Web UI

The media center provides a Web-based user interface (UI) that can be used to control certain functions. You must use a network-connected computer or smart phone to use the Web UI.

Important: Your media center must be set up on the network (see “Network Setup” on page 68 for further information) to use the Web UI.

Launching the Web UI

1. Open a Web browser and type in your media’s center’s IP address in the address field. Press ENTER on your computer keyboard.

Note: To find your media center’s IP address, press Setup on the remote controller and navigate to Network Settings. Select Network Setup to see the media center’s IP address.

2. The Web UI launch page displays. Enter the default password (“admin”) in the Password field.

3. Select your preferred language from the Language list.

4. Click I accept END USER LICENSE AGREEMENT. You can also click Keep me signed in (optional). Click Login.

5. The Web UI menu options display.
**System**

Click **System** in the Web UI home page to manage the system status of your media center and view general network information. You can change the password, set system preferences, and choose date and time settings using these options.

![System](image)

**Remote**

Click **Remote** in the Web UI home page to control the media center using your computer. Click the buttons on the virtual remote controller to control your media center (see “Using the Remote Control” on page 23 for further information).

![Remote](image)

Click the **Open in separate window** link to open the virtual remote controller in a new browser screen. You can copy the URL from this browser screen and enter it in a browser on your smartphone. Then, you can use your smartphone as a virtual remote controller by touching the buttons on the screen.

Enter on-screen keyboard commands in the **Submit** field using your computer or smartphone keyboard, then click or press **Submit** when finished.
Media

Click Media to enable the Twonky service, launch the Twonky media browser, and enable the iTunes server to access media on iTunes.

TwonkyMedia™

Click Enabled, then Launch Twonky to launch the TwonkyMedia server media browser in a separate browser window. The TwonkyMedia home screen displays.

Navigate through the Music, Photos, and Videos subcategories to find a file to play back on your computer. Launching a music or video file plays the file back on your computer’s default media player. Clicking on a photo thumbnail enlarges the photo on your screen.

During navigation, click ( ) to return to the home page shown above, and ( ) to go back to the previous screen.
Click to upload a file from your computer to the media center. Click Browse to locate a file, then send to upload it to the media center.

Click to open the TwonkyMedia server status screen. Here, you can restart the server, view server status, perform basic and advanced setup, and access support resources.

Online
Click Online to access sign-up links and information for the listed Internet services supported by the media center (supported services vary by region and country).
RSS
Click **RSS** to view your RSS subscriptions and category folders. Here, you can add a new subscription or a new folder to categorize your subscriptions.

Support
Click **Support** to access Express Customer Support (includes diagnostic test) and Support Documentation including product documentation, FAQ’s, and a WD TV user forum.

Status Bar
The status bar at the bottom of the Web UI displays media center status, hard drive capacity usage, and a graphical representation of the percentage of music, photos, and video stored on the media center.

Logout
Click the **Logout** button in the main menu to log out of the Web UI.
Important: A broadband Internet connection (e.g., DSL or cable) is required to use Internet services. Availability varies by country. These services may be changed, terminated, or interrupted at any time.

After connecting to a network, you can use the media center to access media content from the following Internet services:

- **AccuWeather.com®** – Get local and international forecasts, climate trends, and the latest news from the world’s weather authority.
- **CinemaNow™** – With over 11,000 titles to choose from, CinemaNow gives you instant access to new release movies the same day they come out on DVD and brings you TV episodes for many popular shows the day after they air.*
  *CinemaNow.com account required. US only.
- **Comedy Time®** – The Comedy Time Network launched as the comedy channel for Sprint TV and MobiTV in July, 2004 and has since expanded on to all major carrier decks as well as cable/satellite/IP television, broadband video and traditional media. It is a market leader in the production and distribution of short-form comedy programming.
- **Dailymotion** – With over 115 million monthly unique visitors, Dailymotion powers video sharing and discovery, presenting the hottest videos in news, music, film, television, sports, gaming and more from across the Web.
- **Deezer™** – A personalized on-demand music service to listen to seven million tracks anytime, anywhere and one of the most popular Internet and mobile music offerings in Europe.
- **Facebook®** – Share your status, photos, videos, and your favorite links on Facebook. Find out the latest news from your social network or the world and so much more. Access it all on your big screen TV.
- **Flickr™** – Connect to Flickr using the on-screen menus. View the photos on your Flickr account and enjoy them on your TV.
- **Flingo®** – Flingo offers consumers free Internet Television from leading studios, TV networks, and video websites.
- **Flixster™** – Watch the latest theatrical movie trailers and get critic reviews from Rotten Tomatoes. Preview movies that are opening this week and see what’s hot at the box office. See what’s new on DVD and Blu-ray and the top rentals.
- **Hulu Plus™** – Hulu Plus offers current hit TV shows and award-winning movies anytime in HD. Watch any current season episode of top shows like Modern Family, Glee, 30 Rock and many others, enjoy classic series, or explore acclaimed movies from The Criterion Collection and Miramax.*
  *Hulu Plus membership required. US only.
- **Live365®** – Listen to thousands of commercial-free Internet radio stations. Easily browse through popular genres or discover treasures in some of the less-traveled styles.
- **Netflix®** – Enjoy popular movies, classics, and TV episodes instantly. Access your Netflix unlimited membership and instantly watch TV episodes and movies on your big screen.*

  *Netflix is available in certain countries. Unlimited membership required. More information at [www.netflix.com](http://www.netflix.com).

- **Pandora®** – Free, personalized Internet radio playing only the music you love. Enter your favorite songs or artists, and enjoy stations created just for you. Rate songs as they play, because Pandora caters to your tastes and adapts stations to your feedback on the spot.*

  *Pandora available in US only.

- **Picasa** – View, share and enjoy your photographs right from your television.

- **SEC Digital Network** – The SEC Digital Network offers college sports fans access to the largest library of multi-sport full games and original programming from the most dominant and exciting collegiate sports conference. Watch FREE daily programming including SEC Today, Countdown to Kickoff, Game Day Central, and weekly coaches teleconferences, and select full games. Additional content can be ordered at [www.SECOnDemand.com](http://www.SECOnDemand.com).

- **SHOUTcast Radio** – The ultimate directory of online radio stations featuring over 45,000 music, talk, sports, and community radio stations from around the world.

- **SnagFilms®** – SnagFilms offers a broad collection of great independent movies you can watch right now, on demand, for free – films that entertain and inform, engage and inspire, and satisfy every taste. These are movies worth watching – documentaries, comedies, dramas and thrillers, award winners and rare finds – all free for you to enjoy.

- **Spotify** – Enjoy on-demand access to over 15 million tracks and albums. Any artist, any album, any genre - available instantly on your media player. Spotify is available in: USA, UK, Sweden, Finland, Norway, France, The Netherlands, Spain, Austria, Belgium, Switzerland and Denmark.*

  *Spotify Premium account required.

- **TuneIn** – The world’s largest Internet radio guide with access to over 30,000 free radio stations searchable by location, genre, or format.

- **Vimeo®** – Take your video experience to the next level with Vimeo. Get a video experience with absolutely no pre-roll ads, unlimited video length, unlimited HD playback and embedding, superior privacy settings and more! Vimeo is the next step in your creative film and video experience.

- **VUDU™** – VUDU delivers a cinema-like experience at home with the hottest new releases and the largest HD library. There are no subscription fees or late fees, simply pay for what you watch. Choose to rent or own from thousands of titles available in vibrant 1080p with rich Dolby Digital 5.1 Surround Sound. Activate your VUDU account on your media center today and receive a free* movie credit.

  *New VUDU account required. Terms and conditions apply. For more information visit [www.vudu.com](http://www.vudu.com).

- **WatchMojo** – WatchMojo produces original video programming on the people, places and things that people are passionate about, covering the Automotive, Business, Education, Fashion, Film, Food, Health, Music, Parenting, Politics &
Economy, Space, Sports, Science, Technology, Travel and Video Game categories.

- **XOS College Sports** – XOS College Sports offers college sports fans multi-sport, multi-conference access to full games and historic documentaries including many of the nation’s top schools and teams. Free access to a large collection of rare content, championship season highlights and select full games past and present. Additional content can be ordered at [www.XOSSports.com](http://www.XOSSports.com).

- **YouTube** – Stream YouTube and watch your favorite videos from the world’s #1 video sharing website on your television.

The above services are fully integrated with their web-based counterparts when accessed via the media center. If you are a registered user of any of these services, everything you create, rate, or bookmark when using the media center shows up on your account the next time you sign in to that service from your computer or mobile computing device.

To access Internet Media:

1. Navigate to the Home | Services menu bar and press **OK**.

2. The list of Internet services display in alphabetical order. Press ◀/▶ and/or **Next Page** to make a selection, then press **OK**.
Adding a Service to Favorites

You can add a Service to your Favorites so that it’s quickly available via the dashboard when you are in the Home screen or other screens (when you press 🎧 or navigate to 🎧 in certain screens then press OK).

1. In the Services screen, press ◀/▶ to select a service you want to favorite, then press Options.
2. Press OK to list the service in the dashboard under Favorites.
AccuWeather.com

The Weather service provided by AccuWeather.com provides local forecasts for everywhere in the United States and over two million locations worldwide. Upon your first use of AccuWeather.com, you are prompted to enter your location (city of residence or nearest city) to set the temperature/weather indicator on your media center.

To set temperature/weather indicator:

1. Navigate to the Home | Services menu bar and press OK.
2. The list of Internet services display in alphabetical order. Press ◀/▶ to select AccuWeather.com.
3. Select OK in the End User License Agreement screen, then press OK to display the AccuWeather.com home screen.
4. Use the navigation buttons ▲▼◄► to type a search using the on-screen keyboard. You can also press ◇ on the remote control to toggle to the results list after entering several characters in the search field. Select Submit, then press OK.

Note: The complete city name needs to be entered for locations outside of the U.S. For example, you must type "Sydney" to find Sydney, Australia; typing "Sydn" results in Sydney, FL as the location.

5. If necessary, Press ▲ / ▼ to scroll through search results to select your city, then press OK.
6. Press OK to complete setting your location.
7. The AccuWeather.com home screen displays current temperature, conditions, and other weather details at your location.
   Options include:
   - Settings
   - Maps (press Options, then OK to zoom & pan the weather map in your area using the navigation buttons)
   - Lifestyle (provides forecasts from Poor to Excellent for various health and sporting conditions)
   - Forecast (select 7-Day Forecast or Weekend Forecast to view upcoming weather)
   - Weather Video (select and watch popular AccuWeather.com videos)
   - Exit

![AccuWeather.com Home Screen](image)

**Settings**

**Change Temperature Display**

To change the temperature display from Celsius to Fahrenheit or vice-versa, do the following:

1. Press ◀/▶ to select Settings in the AccuWeather.com home screen.
2. Select °F/°C. Press OK.
Set/Add Favorite City

To add one or more cities so that you can view weather information for more than one location, do the following:

1. Press ▼/▶ to select Settings in the AccuWeather.com home screen.
2. Select Set Favorite City and press OK.
3. Select Add Favorite City and press OK.
4. Use the navigation buttons ▲▼◀▶ to type a search using the on-screen keyboard. You can also press ◀ on the remote control to toggle to the results list after entering several characters in the search field. Select Submit, then press OK.

Note: The complete city name needs to be entered for locations outside of the U.S. For example, you must type “Sydney” to find Sydney, Australia; typing “Sydn” results in Sydney, FL as the location.

5. Your new favorite city appears in the Set Favorite Cities screen. Press ▼/▶ to set a new favorite city as your default location. To delete a favorite city, select it and press ◀, then OK.

6. You can also press ▼ in the AccuWeather.com home screen to set your favorite city and to see the current temperature, conditions, and other weather details at your location in all your favorite cities.
 BLOCKBUSTER On Demand®

The BLOCKBUSTER On Demand service lets you order and instantly watch movies from BLOCKBUSTER® right on your TV!*

- Rent or buy the newest releases from your couch
- No monthly fees
- New releases available the same day as DVD/Blu-ray
- Choose from thousands of the movies you love

---

Note: *BLOCKBUSTER On Demand free online account required. US only.

To Get Started:

1. Go to http://www.blockbuster.com/wd and select the Activate Now button. Log into your account. If you don’t have an account, you can create one for free by filling in the requested information.
2. Follow the on-screen instructions to activate. At the end, you’ll receive a PIN code.
3. On the media center, navigate to the Home | Services menu bar and press OK.
4. The list of Services display in alphabetical order. Press ←/→ to select BLOCKBUSTER On Demand, then press OK.
5. Select Get Started from the bottom menu within the Blockbuster service and enter the PIN code.

Now you’re ready to watch movies instantly!

How do I download and watch a movie?

Once you rent or purchase a movie, it will appear in My Library. Select Start Download to begin. You’ll be able to track download progress in the Download Manager on the Home screen.

You can begin watching the movie before the download completes by pressing Play Now when it becomes available. After the movie has downloaded, you can watch it from My Library. Watch purchased movies whenever you want, as much as you want. Rentals must be watched within 24 hours once you start playback.

---

Note: To deactivate the media player from your Blockbuster On Demand account, log in to your BLOCKBUSTER account at http://www.blockbuster.com.
CinemaNow

With over 11,000 titles to choose from, CinemaNow gives you instant access to new release movies the same day they come out on DVD and brings you TV episodes for many popular shows the day after they air.* No subscription required and no need to drive to a kiosk or wait for movies in the mail!

- New release movies available the same day as Blu-ray/DVD
- Popular TV shows available the day after they air
- No monthly subscription, pay for only what you watch
- More choice – with more than 10,000 movies and TV shows
- Rent or purchase with Dolby Digital Plus 5.1 surround sound

Note: *CinemaNow account required. US only.

To Get Started:
1. Go to http://www.cinemanow.com/bbactivate. Sign in or create a free CinemaNow account. No subscription required!
2. Follow the on-screen instructions to begin activation and receive your PIN code.
3. On the media player, navigate to the Home | Internet media menu bar and press OK.
4. The list of Services display in alphabetical order. Press ◄/► to select CinemaNow, then press OK.
5. Select Settings from the bottom menu within the CinemaNow service, then press OK. Press OK again to activate the device and enter the CinemaNow PIN code.

You now have instant access to new release movies & next day TV!

How Do I Download and Watch a Movie?

Once you rent or purchase a movie, it will appear in your My Videos tab. With progressive download, you can begin watching within minutes by selecting Play Now as soon as it becomes available.

Your selection will continue to download while you watch. Track your download progress in the Download Manager on the Home screen. Watch purchased movies whenever you want, as much as you want. Rentals must be watched within 24 hours once you start playback.

2. Sign in to your Deezer account if not already logged in.
3. Select **Favorite Radios**, then press **OK**.

- **Note**: If you have not added any stations, the screen displays “no favorite available.”

4. Press the navigation buttons to select a station from the list, then press ⏯️ or **OK** to begin listening to the radio station.

**Add to Playlist**

You can add songs to a playlist using the **Options** button on the remote.

1. With a song selected in a Radio or Top Charts screen, press **Options** to display **Add to Playlist**. Press **OK**.
2. Press ▲ / ▼ to select a playlist you have created in **My Music**, then press **OK** to add the song the selected playlist.

**Delete a Playlist**

You can delete a playlist using the **Options** button on the remote.

1. With a playlist selected in My Music > **Playlists** screen, press **Options**.
2. Press ▲ / ▼ to select **Delete**, then press **OK**.
3. Select **OK**, then press **OK**.

**Delete a Radio Station**

You can delete a radio station using the **Options** button on the remote.

1. With a radio station selected in My Music > **Favorite Radios** screen, press **Options**.
2. Press ↪/▶ to select **Delete from Favorite**, then press OK.
3. Select OK, then press OK.

**Top Charts**
These are songs deemed most popular by Deezer users by country.
1. In the Deezer main screen, press 👈/▶ to select **Top Charts**, then press OK.
2. With the filter button selected 📊, press OK.
3. Press ▲/▼ to filter channel results (choose from **FR**, **BE**, **UK**, **US**), then press OK twice.
4. Press ▲/▼ to select a song from the display then press ⏯️ or OK to start listening to the selected song.

**Search**
1. In the Deezer main screen, press 👈/▶ to select **Search**, then press OK.
2. Press 👈/▶ to filter results (**All**, **Title**, **Artist**, or **Album**), then press OK.
3. Use the navigation buttons ▲▼←→ to type a search using the on-screen keyboard. Select **Submit**, then press OK.

---

**Note:** You can also press 🎁 on the remote control to toggle to the results list after entering several characters in the search field.

4. Press ▲/▼ to select a song from the display, then press ⏯️ or OK to start listening.

**Deleting a Deezer Account**
1. On the Deezer main screen, press ▲/▼ to select **Sign in**, then press OK.
2. Press ▲/▼ to select **Delete Account**, then press OK.
3. Press ▲/▼ to select the account you want to delete, then press OK.
4. Press 👈/▶ to select OK on the confirmation prompt, then press OK.

**Exit Deezer**
To return to the Services home screen, press 👈/▶ to select **Exit** in the Deezer home screen, then press OK.
Facebook

Share your status, photos, videos, and your favorite links on Facebook. Find out the latest news from your social network or the world and so much more. Access it all on your big screen TV.

You must have a valid Facebook account to use this service. You can create a Facebook account at www.facebook.com.

Signing in to Facebook for the First Time

1. Navigate to the Home | Services menu bar and press OK.
2. The list of Internet services display in alphabetical order. Press ⏽/▶ to select Facebook, then press OK.
3. Press OK, then use the navigation buttons ▲▼◄► to type in your Facebook user name using the on-screen keyboard. Select Submit, then press OK.
4. Press OK, then use the navigation buttons ▲▼◄► to type in your Facebook password using the on-screen keyboard. Select Submit, then press OK.
5. Press ▼, then OK to Remember Me if you want your Facebook account stored in the media center for quick access.
6. Press ►▼, then OK with the green check mark □ selected.

7. Press OK to complete the sign-in process. The Facebook home screen displays.

Notifications

Notifications let you know when people take actions on Facebook related to you, so you can quickly check out a photo you've been tagged in or read a new posting on your Wall.

In the Facebook main menu, press ▼ to select Notifications. Press ▲▼ to select a notification then press OK.
Photos

You can view the photos or photo albums you and others users have posted to Facebook either individually or as a slideshow.

1. In the Facebook main menu, select Photos then press OK.
2. Navigate to a photo album, then press OK.
3. Navigate to a photo then press OK, or press  (PAUSE/PLAY) to start a photo slideshow (see “Slideshow Playback Controls” on page 65).

Photos Options

With an individual photo selected or a slideshow running, press Options.

- **Rotate Left & Right** - See “Rotate Left & Right” on page 62.
- **Zoom** - To change the display’s viewing scale, press OK repeatedly until the preferred viewing scale is achieved. Press Options or Back to revert to the default viewing scale.
- **Pan** - To pan the display, press the navigation buttons ▲▼◄► repeatedly until the preferred panned view displays. Press Options or Back to revert to the default viewing scale.
- **Set as Background** - see “Set as Background” on page 61.
- **Download Photo** - Select this option then press OK to download the photo to one of your local drives. Select the location you want to download your photo to (network share or attached storage) then press OK.
Newsfeed

The Facebook news feed displays all of your friends’ comments and allows you to “Like” or comment. The number of people who like or have commented on each entry displays inside the corresponding icons to the right of the news feed entry.

1. In the Facebook main menu, press ◄/► to select Newsfeed, then press OK.
2. Press ▲/▼ to view your friends’ comments and posts.
3. With an entry selected, press ► once to select “Like,” if you like the entry ◄, then press OK. Press ► twice to comment on a news feed entry ◄, press OK, then enter your comment using the on-screen keyboard.

Note: Navigating to What’s on your mind? and pressing OK allows you to add a comment to your wall in the newsfeed screen.

Friends

You can access your friends’ pages to view their photos, videos, and Wall posts.

1. In the Facebook main menu, press ◄/► to select Friends, then press OK.
2. The page of the friend you have selected displays. The photos section of the page displays by default. You can view photos or navigate to Videos or Wall, then press OK to view your friend’s videos and wall comments.

Wall

The Facebook Wall displays all of your entries and your friends comments and allows you to “Like” or comment. The number of people who like or have commented on each entry displays inside the corresponding icons to the right of the Wall entry.

1. In the Facebook main menu, press ◄/► to select Wall, then press OK.
2. Press ▲/▼ to view your friends’ comments and posts.
3. With an entry selected, press ► once to select “Like,” if you like the entry ◄, then press OK. Press ► twice to comment on a news feed entry ◄, press OK, then enter your comment using the on-screen keyboard.

Note: Navigating to What’s on your mind? and pressing OK allows you to add a comment to your wall.

Videos

You can view the videos you and others users have posted to Facebook.

1. In the Facebook main menu, select Videos then press OK.
2. Navigate to a video, then press OK.
Videos Player

With a video playing, press OK to bring up the videos player info panel. You can choose to Like or Comment on a video in the info panel, then press OK.

Videos Options

With a video playing, press Options.

- **Zoom** - To change the display’s viewing scale, press OK repeatedly until the preferred viewing scale is achieved. Press Options or Back to revert to the default viewing scale.
- **Pan** - To pan the display, press the navigation buttons ▲▼◄► repeatedly until the preferred panned view displays. Press Options or Back to revert to the default viewing scale.
- **Browse description** - Select this option then press OK to view the description of the video.
- **Download video** - Select this option then press OK to download the video to one of your local drives. Select the location you want to download your video to (network share or attached storage) then press OK.

Event

Event displays all events you’ve been invited to, and allows you to view more information about or comment on events, and view your friends’ comments and “Like” or comment on them. The number of people who like or have commented on each entry displays inside the corresponding icons to the right of the Event entry.

1. In the Facebook main menu, press ◀/▶ to select Events, then press OK.
2. Select an event you’ve been invited to, then press OK.
3. Select **Write a Comment...** or **View More Info** to write a comment about or view more info for the event.
4. Press ▲/▼ to view your friends’ comments and posts.
5. With an entry selected, press ► once to select “Like,” if you like the entry , then press OK. Press ► twice to comment on an event entry , press OK, then enter your comment using the on-screen keyboard.

**Sign Out**

In the Facebook main menu, select **Sign Out** then press OK to log out of Facebook and return to the Services home screen. All previously saved login data for the Facebook account is erased.
**Flickr**

Flickr is an online image and video management and sharing website. Flickr content is organized based on tags—a keyword or category label that describes content. Tags help users to search for contents that have something in common. Each content file can have as many as 75 tags associated with it.

To learn more about Flickr services, and the options and limitations related to them, go to [http://www.flickr.com/tour/](http://www.flickr.com/tour/).

To access Flickr:

1. Navigate to the Home | Search menu bar and and press **OK**.
2. The list of Internet services display in alphabetical order. Press ◀/▶ to select **Flickr**, then press **OK**. The Flickr home screen displays.

Options include:

- Interesting (last seven days)
- Recent Upload
- Search
- My Contacts
- Hot Tags
- My Tags
- Exit

**Exploring Contents**

You can explore photostreams (Flickr’s term for content selection) available in Flickr’s public domain.

To explore for random “interesting” media content from the past seven days:

Press ◀/▶ to select **Interesting** in the Flickr home screen, then press **OK**.

![Flickr Home Screen](image)

A photostream showing random contents rated as interesting in the past seven days by Flickr users displays. Go to page 116 for instructions on how to navigate a photostream.
To explore based on the upload date:
Press ◀/▶ to select **Recent Upload** in the Flickr home screen, then press **OK**.

A photostream showing the most recently uploaded content displays. Go to “Flickr Photostream” on page 116 for instructions on how to navigate a photostream.

To explore based on popular tags:
1. Press ◀/▶ to select **Hot tags** in the Flickr home screen, then press **OK**.

2. Press the navigation buttons to select a tag from the list, then press **OK**.
   A photostream showing contents associated with the selected tag is displayed. Go to “Flickr Photostream” on page 116 for instructions on how to navigate a photostream.

**Searching for Contents**

To search for content based on a specific keyword:

Keywords are words or phrases associated with the type of content you’re looking for. Keyword searches are based on information indicated on a member’s profile page.
1. Press ◀/▶ to select **Search** in the Flickr home screen, then press **OK**.

2. Press ▲/▼ to select **Keywords**, then press **OK**.

3. Use the navigation buttons ▲▼◄► to type a search word using the on-screen keyboard. Select **Submit**, then press **OK**.

   A photostream showing contents associated with the specified keyword displays. Go to page 116 for instructions on how to navigate a photostream.

   To search for content based on tags:

   Perform this type of search to find content based on information indicated in a member’s tags list.

   1. Press ◀/▶ to select **Search** in the Flickr dashboard, then press **OK**.
   2. Press ▲/▼ to select **Tags**, then press **OK**.
   3. Use the navigation buttons ▲▼◄► to type a search word using the on-screen keyboard. Select **Submit**, then press **OK**.

   A photostream showing contents associated with the specified word is displayed. Go to “Flickr Photostream” on page 116 for instructions on how to navigate a photostream.
Searching for a Flickr Member

To search for a Flickr member:

1. Press ▲/▼ to select **Search** in the **Explore** screen, then press **OK**.
2. Press ▲/▼ to select **Flickr member**, then press **OK**.

3. Use the navigation buttons ▲▼◄► to type a member’s user name, email address, or interest using the on-screen keyboard. Select **Submit**, then press **OK**.

   A browser screen listing Flickr member links matching your search criteria displays.

4. Press ▲/▼ to select a link, then press **OK** to view that member’s profile page.

   If the selected member has public photostreams, you can explore them. Use the navigation buttons ▲▼◄► to select a content selection, then press **OK** to explore it. Go to the next section for instructions on how to navigate a photostream.

My Contacts

My Contacts shows a list of Flickr members you have searched for.

To view My Contents:

1. Press ◀/▶ to select **My Contents** in the Flickr home screen, then press **OK**.

2. Press ▲/▼ to select a Flickr member you’ve searched for previously, then press **OK** to view their photos.
3. To remove a contact from the list, select the contact name and press Options. Select Delete or Delete All Items, then press OK.

My Tags
My Tags shows a list of Flickr tags you have searched for.
To view My Tags:
1. Press ▼/▲ to select My Tags in the Flickr home screen, then press OK.

2. Press ▲/▼ to select a tag you’ve searched for previously, then press OK to view the photos associated with the tag.
3. To remove a tag from the list, select the tag and press Options. Select Delete or Delete All Items, then press OK.
Flickr Photostream

The Flickr photostream layout is the same as that of a Photos directory in thumbnail mode.

- You can use the navigation buttons ▲▼◄► to select content.
- To view content in fullscreen mode, select the file and press OK.
- To view a slideshow using all the current photostream’s content, press ▶ or OK. Contents display in the Flickr Player screen. Go to next section for information.
- To return to the photostream from fullscreen mode, press Back.
- To return to the photostream from Player mode, press ■.
- To view all photos in full screen, go to Photo Settings and select Fit to screen (see “Photo Scaling” on page 186).
- While in the photostream layout, press Options to jump back to the Flickr home page or choose any of the Flickr home page menu options.

Flickr Player

The Flickr Player layout is the same as that of a photo slideshow.

- Press ▶ to view the next image in the photostream.
- Press ◄ to view the previous image in the photostream.
- To return to the photostream, press ■.
Player Options
As with a regular photo slideshow, you can customize the way content is displayed in the Flickr Player. To do this, press Options.

![Flickr Player Options](image)

**Note:** To view photos enlarged in fit to screen or full screen mode, access the Setup menu and follow the instructions under “Photo Scaling” on page 186.

- To rotate the image display, press ▲/▼ and select **Rotate left** or **Rotate right**, then press OK repeatedly until the preferred display angle is achieved. The display is rotated clockwise or counter-clockwise in 90° increments. Press Options or Back to revert to the default display angle.

- To change the display’s viewing scale, press ▲/▼ and select **Zoom & Pan**, then press OK. Press OK repeatedly until the preferred viewing scale is achieved. Press Options or Back to revert to the default viewing scale.

- To pan the display, press ▲/▼ and select **Zoom & Pan**, then press OK. Press the navigation buttons ▲▼◄► repeatedly until the preferred panned view displays. Press Options or Back to revert to the default viewing scale.

Exit Flickr
To return to the Services home screen, press ◀► to select Exit in the Flickr dashboard, then press OK.
Flingo

Flingo offers free Internet Television from leading studios, TV networks, and video websites. It also allows you to turn the Web into your remote control. You can simply "fling" your favorite videos to the Queue in the Flingo application on your media player. For more information go to www.flingo.tv.

To access Flingo:

1. Navigate to the Home | Services menu bar and press OK.
2. The list of Internet services display in alphabetical order. Press ◀/▶ to select Flingo, then press OK.
3. Press ▲, then press ◀/▶ to choose a category (Channels, Popular, Favorites, Queue, and Search) from the Flingo interface. Press OK.
4. Use the navigation buttons ▲▼◄► to select a channel, then a video within the channel. Press ‹► or OK to begin playing the video.

5. Press the Home button ‹ to exit Flingo.
Flixster

Watch the latest theatrical movie trailers and get critic reviews from Rotten Tomatoes. Preview movies that are opening this week and see what’s hot at the box office. See what’s new on DVD and Blu-ray and the top rentals. Search a catalog of over 40,000 films. Watch high quality trailers for over 10,000 blockbusters and indie flicks.

To access Flixster:

1. Navigate to the Home | Services menu bar and press OK.
2. The list of Internet services display in alphabetical order. Press ◄/► to select Flixster, then press OK. The Flixster main screen displays.

3. Press ◄/► to choose an option, then press OK.
   Options include:
   - Box Office (stay up to date with trailers and reviews for movies this week and last week’s top box office)
   - DVD (browse trailers and reviews for recently released DVDs)
   - Upcoming (view trailers and reviews for upcoming movies)
   - Search (search for trailers and reviews using the on-screen keyboard)
   - Exit
4. Use the navigation buttons ▲▼◄► to select a movie or DVD, then press OK.
5. Press ◄/► to select Watch Trailer, Cast, Critic Reviews, Share to Facebook, or Details, then press OK.

6. While watching trailers, press OK to see the video progress/playback bar. Press Option to select Zoom & Pan (see “Selecting Video Zoom and Pan Options” on page 45).
Hulu Plus (US only)

Hulu Plus offers current hit TV shows and award-winning movies anytime in HD. Watch any current season episode of top shows like *Modern Family*, *Glee*, *30 Rock* and many others, enjoy classic series, or explore acclaimed movies from The Criterion Collection and Miramax. Visit [www.hulu.com/plus](http://www.hulu.com/plus) for details.*

---

* Hulu Plus membership required. US only.

The following conditions must be satisfied before you can use the Hulu Plus service.

- You must have a Hulu Plus subscription. Go to [www.hulu.com/plus](http://www.hulu.com/plus) to create your account.
- At present, Hulu Plus is only available for users located in the United States. You must have a US-based network connection.

To access Hulu Plus:

1. Navigate to the Home | Services menu bar and press OK.
2. The list of Internet services display in alphabetical order. Press ◀/▶ to select Hulu Plus, then press OK.
3. If you are a Hulu Plus subscriber, choose Yes, then press OK. Proceed to step 4. If you are not a Hulu Plus subscriber, choose No, then press OK. Write down the referral code, which you will enter when you go to [www.hulu.com/plus](http://www.hulu.com/plus) to create your account.

---

*Note: If you select No, you can still choose View sample videos and Learn more about Hulu Plus.*

4. Write down the activation code and follow the onscreen instructions (go to [www.hulu.com/activate](http://www.hulu.com/activate) and enter your user name, password, and activation code). Or, select Log in to Hulu Plus to log in to your Hulu Plus account using the onscreen keyboard (you will need to do this each time you log out and log back in to your Hulu Plus account).

5. The Hulu Plus Home screen displays. Press ▼, then press ◀/▶ to choose another category (Search, Browse Movies, Browse TV, Recently Added, Most Popular, Queue/Profile, Recommended, and Help) from the Hulu Plus interface. Press OK.

6. Press the Home button ‼ to exit Hulu Plus.
Live365

Use Live365 to create your own online radio station or listen to other Live365 broadcasters’ online stations. Music selections are compiled based on user ratings. Some small AM and FM stations also utilize Live365 to stream audio over the Internet.

To access Live365:

1. Navigate to the Home | Services menu bar and press OK.
2. The list of Internet services display in alphabetical order. Press ◀/▶ to select Live365, then press OK.

Options include:

- Stations
- Last Played
- My Presets
- About
- Exit

Signing in to Live365 (Optional)

You can start listening to free Live365 stations as an unregistered user, but to enjoy more features like access to recommended stations, saving stations to favorites, securing track information, setting station preferences, and many others, you need to sign up for a Live365 account.

To sign in to Live365:

1. Navigate to the Home | Services menu bar and press OK.
2. The list of Internet services display in alphabetical order. Press ◀/▶ to select Live365, then press OK.
3. On the Live365 main screen, press ◀/▶ to select My Presets, then press OK.
2. Press ▲/▼ to select **Sign in** or **Don't have an account?**, then press **OK**. If you don’t have an account, follow the on-screen instructions to create your Live365 account online.

3. Use the navigation buttons ▲▼◄► to key in your Live365 user name on the on-screen keyboard. Select **Submit**, then press **OK**.

4. Use the navigation buttons ▲▼◄► to key in your Live365 account password on the on-screen keyboard. Select **Submit**, then press **OK**.

5. Press ▲/▼ to select a save option.

Options include:

- **No** – Your account details are not saved. You need to repeat the initial sign-in process every time you use the media player to access the Live365 service.
- **Save username only** – Your user name is saved, but you will be prompted to type in your password every time you use the media player to access the Live365 service.
- **Yes** – Both your user name and password are saved. You are automatically logged in to your account every time you select Live365 from the Services menu bar.

6. Press **OK** to complete the sign-in process. Once you have successfully signed in, the Live365 Home screen appears.

   From this screen you can browse for new stations, access previous stations you’ve listened to, and define profile preferences for your Live365 account.

Listening to a Live365 Station
- New Live365 users can browse for a radio station.
- You can access the last station you’ve listened to if you’ve already accessed Live365 from the media player.
- Registered Live365 users can access My Preset List and listen to favorite stations.
- Live365 VIP members can listen to premium radio stations.

To browse for a radio station:
1. On the Live365 main screen, press ◀/▶ to select Stations, then press OK.

2. Press ▲/▼ to select a station category, then press OK.

Selections include:
- **Free Stations** – Free Internet radio.
- **VIP Stations** – Premium, uninterrupted Internet radio for registered and paying Live365 users. You must sign in to your Live365 account and be a valid VIP member before you can access this category. Go to page 125 for more information.
- **Recommendations** - Free Internet radio recommended by your other Live365 users. You must be signed in to access these stations.
- **Search** – Search for a Live365 station. Go to page 125 for more information.

3. Press the navigation buttons to select the station you want to listen to. Press OK.
4. Press ▲ if you want to add the station to My Presets if you have a Live365 account. Press OK.
5. Press □ ◀ or OK to start listening to the selected radio station.
The Live365 Station screen:
The Live365 station screen provides view and sorting and audio quality filtering options.

1. Press ▲, select the view icon ▼, and press OK to switch between Grid and List views.
2. Press ▲/▶ to select the sorting and filter icon ▼, and press OK.
3. Press ▶, then ▲/▼ to select Filter by audio quality. Options include All Stations, Only high (audio quality), Medium to high (audio quality), Low to medium (audio quality), and Only low (audio quality). Press OK.
4. Press ▶, then OK to select the green check mark ▼, then press OK again.
5. Select Sorting and repeat the steps above to sort stations either Alphabetically or By Popularity.

To access the last station listened to:

1. On the Live365 main screen, press ◄/► to select Last played.
2. Press ▼► or OK to start listening to the selected radio station.
To listen to a favorite station:
1. On the Live365 main screen, press ◄/► to select My Presets, then press OK.
   Press ◄/► to select a station from your preset list.
2. Press ||► or OK to start listening to the selected radio station.

To listen to a VIP station:
1. On the Live365 main screen, press ◄/► to select Stations, then press OK.
2. Press ◄/► to select VIP Stations, then press OK.
3. Press ◄/► to select a music genre, then press OK.
4. Press ◄/► to select a music sub-genre, then press OK.
5. Press ◄/► to select the station you want to listen to.
6. Press ||► or OK to start listening to the selected radio station.

Searching for a Live365 station

Perform a station search based on the following criteria:

- Artist name
- Track or CD title
- Station information
- Music genre
- Station location
- Audio quality.

You can limit your search based on whether a station has been rated by Live365 editors or if it is a professional, independent, or official station.

To search for a Live 365 station:
1. On the Live365 home screen, select My Presets, Stations, or Last Played, then press Options.
2. Press ▲/▼ to select Search, then press OK.

3. On the on-screen keyboard, use the navigation buttons ▲▼◄► to key in a search keyword, then press OK.

4. Press ◀▶ to select a station from the search result.

5. Press ▶ or OK to start listening to the selected radio station.

Displaying the Currently Playing Station

1. On the Live365 home screen, select My Presets, Stations, or Last Played, then press Options.

2. Press ▲/▼ to select Now Playing, then press OK. The station currently playing displays.

Adding a Station to Your Preset List

If you like a particular station, you can add it to your preset list for easier access in the future.

To add a station to your preset list from the Now Playing screen list:

1. Go to the station list showing the station you want to add.
2. Press ▲/▼ to select the station you want to add.
3. Press ► several times to enable the Add to My Preset function, then press OK.
4. A confirmation screen appears. Press OK to confirm the new preset station and return to the Now Playing screen.

Removing a Station from Your Preset List

You can remove stations you no longer want from your preset list.

To remove a station from your preset list:

1. Sign in to your Live365 account. Go to “To sign in to Live365:” on page 121 for instructions.
2. From the Live365 home screen, press ◀▶ to select My Presets, then press OK.
3. Press ◀▶ to select the station you want to remove.
4. Press ▲ to enable the Remove Station function, then press OK.
5. A confirmation prompt appears. Press OK to go back the Now Playing screen.
Providing Song Feedback
Music selections in Live365 are compiled based on their user ratings. You can participate in the selection process by giving a song the “thumbs up” 🌟 or “thumbs down” 👎 vote.

To provide song feedback:
1. While the song is playing, press ◄/► to select a feedback icon: 🌟 for positive feedback, 👎 for negative feedback. Press OK.
2. A feedback confirmation screen appears. Press OK to go back the the Now Playing screen.

Getting Track Information
You can send the track information of the currently playing song to your email account for later reference.

To secure track information:
1. While the song is playing, press ◄/► to select 📚, then press OK.
2. A confirmation screen appears. Press OK to return to the Now Playing screen.
   The track information will be sent to the email address you used to sign up for your Live365 account.

Signing out from Live365
Sign out of Live365 after a listening session to ensure that nobody can make changes to your Live365 settings and stations without your permission.

To sign out from Live365:
1. In a Stations or the Now Playing screen, press Options, then ▲/▼ to select Sign In/Sign Out, then press OK.
2. Press ◄/► to select OK on the confirmation prompt, then press OK.

Exit Live365
To return to the Services home screen, press ◄/► to select Exit in the Live365 home screen, then press OK.
Netflix

Enjoy new releases, classics, and TV episodes instantly on your WD TV Live Hub Media Center. Don’t wait for the mailman to deliver your movies and don’t settle for streaming to your small computer screen. Access your Netflix unlimited membership and instantly watch TV episodes and movies on your big screen.*

---

To access Netflix:

- **Important:** Be sure to update your firmware to the latest version before following the instructions below. See “System Firmware Upgrade” on page 203 for further details.

1. Navigate to the Home | Services menu bar and press OK.
2. The list of Internet services display in alphabetical order. Press ▼/▲ to select Netflix, then press OK.

**Existing Netflix Members**

Follow the on-screen instructions to enter your user name (in most cases, your registered email address) and password to log in to your account using the remote control. Go to www.netflix.com/signinhelp if you encounter any problems.

**New to Netflix**

Go to www.netflix.com/wdtv to sign up and start a one month free trial.

**Netflix Navigation**

Once you have accessed your Netflix account, navigate using the remote control to choose from a variety of categories of movies and TV shows.

---

**Note:** To deactivate Netflix on the media player, reset the device to factory defaults. See “Device Reset” on page 195. To deactivate the media player from your Netflix account, log in to your Netflix account. Navigate to “Your Account & Help.” Under “Manage Netflix ready devices and computers” locate the WD TV device and select “Deactivate.”
**Pandora (US only)**

Pandora is an automated music recommendation and Internet radio service. With Pandora, you can input a song title or artist name and the service responds by playing selections that are musically similar. You can provide feedback (approved/not approved) on individual songs, which Pandora takes into account for future selections.

**Conditions for Using Pandora**

The following conditions must be satisfied before you can use the Pandora service.

- You must have a Pandora account. Go to [www.pandora.com/wd](http://www.pandora.com/wd) to create your account. Once you have registered, note your activation code. You will need this code to sign in to Pandora from your media player.
- At present, Pandora is only available for users located in the United States. You must have a US-based network connection.

To set the system language to English:

1. Navigate to Home | Setup menu bar.
2. Press 🔽/▶ to select **Appearance**, then press **OK**.
3. Press ▲/▼ to select **Language**, then press **OK**.
4. Press ▲/▼ to select **English**, then press **OK**.

![Language Setup](image)
Signing in to Pandora for the First Time

1. Navigate to the Home | Services menu bar and press OK.
2. The list of Internet services display in alphabetical order. Press ◄/► to select Pandora, then press OK.
3. Press OK to bring up the Add Account screen.
4. If you already have a Pandora account, choose I have a Pandora account, then press OK to create your new Pandora account. Proceed to step 6.

5. If you do not have a Pandora account, select I am new to Pandora, then press OK.
6. Write down the activation code and follow the onscreen instructions (go to www.pandora.com/wd to create your new account). When finished, choose Continue, then press OK.
7. Use the navigation buttons ▲▼◄► to type in your Pandora user name using the on-screen keyboard, then press OK.
8. Use the navigation buttons ▲▼◄► to type in your Pandora account password using the on-screen keyboard, then press OK.
9. Press ◄/► to select a save option.
   Options include:
   - **No** – Your account details will not be saved. You need to repeat the initial sign-in process every time you access the Pandora service using the media player.
   - **Save username only** – Your user name is saved, but you will be prompted to type in your password every time you access the Pandora service using the media player.
   - **Yes** – Both your user name and password are saved. You are automatically logged in to your account every time you access the Pandora service using the media player.
10. Press OK to complete the sign-in process.
Once you have successfully signed in to Pandora, the Stations screen appears.

From this screen you can create new stations, start listening to previously created stations and Quickmix playlist, and define profile preferences for your account.

For more information on the features, options, and limitations of using Pandora, go to http://www.pandora.com.

**Pandora Stations**

A Pandora station is a personalized stream of music, based on one or more artist names or song titles of your choice. Once you’ve signed in to Pandora from your media player, you can easily access your stations from the Music menu bar.

**Pandora stations reminders**

- You can have up to 100 stations at any one time, plus one QuickMix. Once you reach this maximum number of stations you have to delete a station before you can add another one.
- Pandora does not allow immediate or "on demand" playback of a specific song.
- A Pandora station cannot play more than four songs by an artist in a three-hour period.
- After eight hours of play, Pandora prompts you to see if you’re still listening. Streaming stops until you respond.
- The music selection streamed into your Pandora station contains a mix of songs or artists that were compiled based on:
  - the initial station “seed” used in creating that station. Go to the next section for instructions on how to create a new Pandora station.
  - the track feedback (thumbs up / thumbs down) you provide. Go to page 133 for more information.
  - the number of skips assigned to a track. Go to page 133 for more information.
- You cannot reverse or immediately replay the songs played on your Pandora station.
To create a Pandora station:

1. Navigate to **Create Station** or press **Options** to select **Create station**. Press **OK**.
2. Use the navigation buttons ▲▼◄► to type the name of an artist or song title using the on-screen keyboard. Select **Submit**, then press **OK**.
3. Press ▲▼ to select a listing from the search results, then press **OK**.
   The listing you selected will serve as the station ‘seed’ for Pandora to compile and stream music similar to your station.

To listen to a Pandora station:

1. On the **Stations** screen, use the navigation buttons to select the name of the station you want to listen to.
2. Press ▶ or **OK** to start listening to the selected Pandora station. Press **NEXT** ▶ to go to the next song.

To tune in to another station:

1. While listening to a station, press **STOP** ■. You are returned to the Stations screen.
2. Use the navigation buttons to select the name of the station you want to switch to.
3. Press ▶ or **OK** to start listening to the selected station.

To rename a Pandora station:

1. Tune in to the station you want to rename.
2. Navigate to **Rename Station** or press **Options** then ▲▼ to select **Rename this station**. Press **OK**.
3. Use the navigation buttons ▲▼◄► to key in a new station name using the on-screen keyboard. Select **Submit**, then press **OK**.

To delete a Pandora station:

1. Tune in to the station you want to delete.
2. Navigate to **Delete Station** or press **Options** then ▲▼ to select **Remove this station**. Press **OK**.
3. Press ◄► to select **OK** on the confirmation prompt, then press **OK**.
QuickMix

QuickMix is a feature that allows you to listen to more than one of your stations at once. QuickMix will play only one song based on particular musical characteristics at a time (unlike regular Pandora stations, which play four related songs in a row), so the mood changes more often.

Providing Song Feedback

You can influence the music selection that is streamed into your Pandora station by providing track feedback for the song currently playing. You can give a song a “thumbs up” or a “thumbs down” vote.

Thumbs up

If you like the currently playing song, give it a thumbs up vote. This positive feedback means:

- The very next set of songs for this station will be generated using the song you’ve given a “thumbs up” vote to as a musical starting point.
- Future sets of songs are likely to have similar musical traits. Multiple “thumbs up” votes on this station for other similar songs will have a cumulative effect.
- This song will play somewhat more often than other songs on this station’s potential playlist, and will play about as often as other songs that have received a “thumbs up” on this station.

Thumbs down

If you don’t want to hear a song on a particular station, give it a thumbs down vote. This negative feedback means:

- The song will stop playing, if there are any of the remaining "six skips per hour" available on that particular station (this limit is per station, on a rolling per-hour basis).
- The song will be permanently removed from that particular station’s playlist.
- A new set of songs with a different musical emphasis will begin to play.
- If you’ve given at least two “thumbs down” vote to a specific artist on that particular station, songs from that artist will no longer be included in that station’s playlist.

To provide song feedback:

- While a song is playing, press ‹/› to select ‼️ or ‼️, then press OK. A prompt to confirm your vote appears.

Putting a Song to Sleep

When you want to stop listening to song, but not permanently remove it from a station's playlist, you put it to “sleep.” This prevents the song from playing on any of your stations for 30 days.

To put a song to sleep:

- While a song is playing, press ‹/› to select ⋯, then press OK. A prompt to confirm the “sleep” action appears.
**Bookmarking a Song or Artist**

You have the option to bookmark a song or an artist for later reference. You can later refer to this bookmark if you want buy the track when you’ve sign in to Pandora from your computer or mobile computing device, or if you want to share your musical preferences with other Pandora users.

To bookmark a song or artist:

1. While a song is playing, press ⏪/▶ to select ▲, then press OK.
2. Press ▲/▼ to select whether to bookmark the song title or the song artist, then press OK.

The new bookmark is added to your listener profile page. Sign in to Pandora from your computer or mobile computing device to view this profile page.

**Why a Song is in my Station’s Playlist**

You can see why Pandora included a particular song in your station’s playlist. While a song is playing, select Why this song?, then press OK. The song analysis displays.

**Deleting a Pandora Account**

1. Select Pandora from the Services menu then press OK.
2. Press ▲/▼ to select the Pandora account you want to delete, then press ▶ to select the ▼ and press OK.
Picasa

View, share and enjoy your photographs right from your television.

To learn more about Picasa services, and the options and limitations related to them, go to http://www.picasa.google.com.

To access Picasa:

1. Navigate to the Home | Services menu bar and press OK.
2. The list of Internet services display in alphabetical order. Press ◄/► to select , then press OK to display the Picasa home screen.

   Options include:
   - Account
   - Search
   - My Photos
   - People I’m Following
   - Featured
   - Recent

Signing In To Your Picasa Account

Note: If you do not have a Picasa account and want to create one, go to http://www.picasa.google.com.

1. Press ◄/► to select Account in the Picasa home screen, then press OK.
2. Select **Add Account**, then press **OK**.

3. Use the navigation buttons ▲▼◄► to type your Picasa user name in the on-screen keyboard. Select **Submit**, then press **OK**.

4. Use the navigation buttons ▲▼◄► to type your Picasa account password in the on-screen keyboard. Select **Submit**, then press **OK**.

5. Press ▲▼ to select a save option. Press **OK** when finished.
   Options include:
   - **No** – Your account details are not saved. You need to repeat the initial sign-in process every time you access Picasa using the media player.
   - **Save username only** – Your username is saved, but you will be prompted to input your password every time you access Picasa using the media player.
   - **Yes** – Both your user name and password are saved. You can later sign in to your account from the Picasa Account screen.

6. The **My Photos** page appears. Go to the next section for more information on this page.

**Account**

By default, the **My Photos** page displays first when you sign in to your account. This page contains the photos and videos you have uploaded to Picasa.

---

*Note:* If you have not uploaded any photos or videos, the screen displays "there is no media in the current folder."
You can sort and filter content on this page by showing all content (All) or your Unlisted Gallery or Public Gallery. Press A or navigate to ⬇️, and press OK, then press ▲/▼ and OK twice to switch that selection.

**Searching for Content**

You can search Picasa for photos and videos of particular interest to you. The search results are based on the following:

- Filenames
- Captions
- Tags
- Folder or album names
- Camera maker
- Date (i.e., 'November' or '2011')

The media player saves your searches so you can quickly recall them.

---

*Note: Content with visibility set to “private” by users do not appear in search results.*

To search for content:

1. Press ◀/▶ to select **Search** in the Picasa home screen, then press OK.

2. Use the navigation buttons ▲▼←→ to type a keyword related to the subject matter of the content you’re looking for using the on-screen keyboard. Select **Submit**, then press OK.
The content search begins (this may take a few seconds). Content matching your search word appears in a Search result screen.

3. Use the navigation buttons to select a photo or video from the display.
4. Press || or OK to view the selected photo or start watching the selected video.

Go to page 166 for more information on using the YouTube Player.

To use search history:
1. Press the SEARCH button on the remote control. This toggles you to the Search History list.

2. Press ▲/▼ to select a search from the display.
3. Press OK to perform the saved search.

**My Photos**

My Photos contains all images and videos in your Picasa Web Albums. To view images or videos, use the navigation buttons to select a web album, then press OK. Select an individual file and press OK to view, or press || to view a slideshow of all the photos in an album.
Photo Menu Options

With a photo thumbnail in a web album selected, press **Options**. The My Photos menu options display. Press **Back** when complete to return to the web album menu.

Information

Use this option to display the following information about the current picture:

- Date
- Camera make and model
- ISO, exposure, and aperture settings
- Focal length
- Flash info

Upload to Facebook

The Picasa upload to Facebook function is the same as the Videos upload to Facebook function. See “Upload to Facebook” on page 40.

Comments

Use this option to make or view comments on the selected photo. Use the navigation buttons to select **Hide Comments** or **Write a Comment...** using the onscreen keyboard, then press **OK**.
Photo Display Options

- To display the photo options while viewing a photo, press Options.
- To return to the photo you were viewing, press Back or Options again.

Information
See “Information” on page 139.

Play Mode
See “Play Mode” on page 62.

Rotate Left & Right
See “Rotate Left & Right” on page 62.

Selecting Photo Zoom and Pan Options
See “Selecting Video Zoom and Pan Options” on page 45.

Upload to Facebook
See “Upload to Facebook” on page 40.

Set As Background
See “Set as Background” on page 61.

Comments
See “Comments” on page 139.

Download Photo
Use this menu to download a photo to the media center’s internal drive or to another network attached device.

Displaying Photo Thumbnails
See “Displaying Photo Thumbnails” on page 63.

Photo Slideshow
See “Photo Slideshow” on page 64.
**Video Player**

The Picasa video layer layout is similar to the regular video playback screen. It displays the playback status bar and the elapsed and total playback times. Press \(\text{\textcolor{red}{II} \text{\textcolor{black}{\rightarrow}}\)} to pause and resume playback.

**People I’m Following**

People I’m Following contains thumbnails showing icons for the people you are following on Picasa. Select an icon to view each person’s Public Gallery Albums. Use the navigation buttons to select individual photos or press \(\text{\textcolor{red}{II} \text{\textcolor{black}{\rightarrow}}\)} inside an album to begin a photo slideshow.

**Featured**

This screen contains select Picasa user photos. Use the navigation buttons to select individual photos or press \(\text{\textcolor{red}{II} \text{\textcolor{black}{\rightarrow}}\)} to begin a photo slideshow. When viewing a photo, press **Options** then select **More Photos From This Owner** to view all of the owner's Public Gallery Albums.

**Recent**

This screen contains recent Picasa user photos, and works the same as way as Featured above.

**Deleting a Picasa Account**

1. On the Picasa main screen, press \(\langle / \rangle\) to select **Account**, then press **OK**.
2. Press \(\langle / \rangle\) to select **Delete Account**, then press **OK**.
3. Press \(\langle / \rangle\) to select the account you want to delete, then press **OK**.
4. Press \(\langle / \rangle\) to select **OK** on the confirmation prompt, then press **OK**.

**SEC Digital Network**

The SEC Digital Network offers college sports fans access to the largest library of multi-sport full games and original programming from the most dominant and exciting collegiate sports conference. Watch FREE daily programming including SEC Today, Countdown to Kickoff, Game Day Central, and weekly coaches teleconferences, and select full games. Additional content can be ordered at [www.SECOnDemand.com](http://www.SECOnDemand.com).

To access SEC Digital Network:

1. Navigate to the Home | Services menu bar and and press **OK**.
2. The list of Internet services display in alphabetical order. Press \(\langle / \rangle\) to select **SEC Digital Network**, then press **OK** to display the SEC Digital Network home screen.
3. Use the navigation buttons \(\langle / \rangle\) to browse, select, and search for videos and the playback buttons to stop and start videos.
SHOUTcast Radio

SHOUTcast Radio is the ultimate directory of online radio stations featuring over 45,000 music, talk, sports, and community radio stations from around the world.

To access SHOUTcast:
1. Navigate to the Home | Services menu and press OK.
2. The list of Internet services display in alphabetical order. Press ▼/▲ to select SHOUTcast Radio, then press OK.
   Options include:
   - Search
   - Radio Genres
   - Favorites
   - Top Radios
   - About
   - Exit

Listening to a SHOUTcast Radio Station

To browse for a radio station:
1. On the SHOUTcast Radio main screen, press ▼/▲ to select Radio Genres, then press OK.
2. Press ▼/▲ to select from a variety of genres, then press OK.
3. Press ▼/▲ to select from a variety of subgenres (if necessary), then press OK.
4. Press ▲/▼ to select a radio station.

5. Press Options, then press ▲/▼ to select Add to Favorite if you want to add the station to Favorites. Press OK.

6. Press □► or OK to start listening to the selected radio station. You can view information about the currently playing station and song such as title, artist, genre, number of listeners, etc. at the top of the screen.

**Searching for a SHOUTcast Radio Station**

To search for a SHOUTcast Radio station:

1. On the SHOUTcast Radio main screen, press ▲/► to select Search, then press OK.

2. Filter your results by selecting All, Artist, or Genre, then press OK.

3. On the on-screen keyboard, use the navigation buttons ▲▼◄► to key in a search keyword, then press OK.

---

**Note:** You can also press ▼ on the remote control to toggle to the results list after entering several characters in the search field.

4. Press ▲/▼ to select a station from the search result.

5. Press □► or OK to start listening to the selected radio station.

**Adding a Station to Your Favorites List**

If you like a particular station, you can add it to Favorites for easier access in the future.
To add to a station, program, or podcast to your favorites:
1. Go to the station list showing the station you want to add.
2. Press ▲/▼ to select the station you want to add or begin playing a station.
3. Press Options, then press ▲/▼ to select Add to Favorites if you want to add the station to Favorites, then press OK.

![Image](wdtvlivehub.png)

4. Press OK again to confirm.

**Listening to a Station in Your Favorites List**

To listen to a favorite station:
1. On the SHOUTcast Radio main screen, press ◄► to select Favorites, then press OK.
2. Press ▲/▼ to select a station from the list.
3. Press ► or OK to start listening to the selected radio station.

**Assigning a Preset Button to a Station**

You can assign a numbered button on the remote control to a SHOUTcast Radio station for quick access.

To assign a preset button to a station:
1. Go to the station list showing the station you want to add.

   - Search
   - Account
Searching for a Spotify Artist, Album, or Track

To search for a Spotify artist, album, or track:

1. On the Spotify main screen, press ◀/▶ to select Search, then press OK.
2. On the on-screen keyboard, use the navigation buttons ▲▼◄► to key in a search keyword, then press OK.
3. Press ▲/▼ to select a track from the search result.
4. Press ▶ or OK to start listening to the selected track.

Filtering Search Results

1. Press ▶ or navigate to the sort and filter content icon ▣, and press OK.
2. Press ◀, then ▲/▼ to select Filter by All, Tracks, Albums, and Artists. Press OK to display results by the criteria selected.

3. With the green check mark ✔ selected, press OK again.

Browse Album Artist

You can view available albums from an artist whose track you’ve selected.

To browse an artist’s albums:

1. With an artist’s track selected, press Options.
2. Press ▲/▼ to select Browse Artist Album, then press OK.

3. A list of the artist’s albums available on Spotify display.

Adding a Track to a Playlist

If you like a particular track, you can add it to a playlist for easier access in the future.
To add a track to a playlist:
1. Go to the track list showing the track you want to add.
2. Press ▲/▼ to select the track you want to add or begin playing a track.
3. Press Options, then press ▲/▼ to select Add to Track to Playlist, then press OK.
4. If you want to create a new playlist for the track, select Create New Playlist, then press OK.
5. On the on-screen keyboard, use the navigation buttons ▲▼◄► to key in a new playlist name, then press OK.
6. Press ▲/▼ to select a playlist name.
7. Press OK. You can delete the playlist by pressing Options with the playlist selected, then select Delete.

**Collaborate on a Playlist**

You can set a playlist you’ve created to Collaborate so that your friends can add tracks to it.

To set a playlist to Collaborate:
1. In the Spotify main screen, press ◀► to select Playlists, then press OK.
2. With a playlist selected, press Options.
3. Select **Collaborate**, then press **OK**.

4. The playlist is now set to Collaborate, and the playlist appears with a dot next to it. You can reverse this setting by pressing **Options** with the playlist selected, then select **Uncollaborate**.

**Adding a Track to the Play Queue**

If you like a particular track, you can add it to the Play Queue and listen to it in sequence with other tracks you have added.

To add to a track to the Play Queue:

1. Go to the track list showing the track you want to add.
2. Press ▲/▼ to select the track you want to add or begin playing a track.
3. Press **Options**, then press ▲/▼ to select **Add to Track to Queue**, then press **OK**.
4. To listen to your Play Queue, press ◀/▶ in the Spotify main screen to select **Play Queue**, then press **OK**.
5. Press ◀▶ or **OK** to start listening to the Play Queue.

**Share**

You can share a track or playlist with the friends you have added to your Spotify account, or to Facebook.

1. With the track or playlist you want to share selected, press **Options**, then press ▲/▼ to select **Share**, then press **OK**.
2. Press ▲/▼ to select **Share to Friend** or **Share to Facebook**, then press **OK**.

3. Select a friend from your list then press **OK**, or log in to Facebook (if necessary).
Star

You can “star” a track for quick access in the future via the Starred menu on the Spotify home screen.

1. With the track you want to star selected, press Options, then press ▲/▼ to select Star, then press OK.
2. In the Spotify home screen, press ◄/► to select Starred, then press OK. Your starred tracks display.

People

On the Spotify main screen, press ◄/► to select People, then press OK to see a list of the friends you’ve added to your Spotify account. Select a friend then press OK to view and play their published playlists.

Inbox

On the Spotify main screen, press ◄/► to select Inbox, then press OK to see a list of songs your friends have sent to your Spotify account. Each friend’s name appears next to the song. If a message icon appears next to a friend’s name, select the song and press Options. Press ▲/▼ to select View Message From Your Friend, then press OK.

What’s New, Top Lists, and Radios

To listen to artist albums and radio stations:

1. On the Spotify main screen, press ◄/► to select What’s New, Top Lists, or Radios, then press OK.
2. Press ▲/▼ to select a new or most listened to artist album, or artist radio station.
3. Press ▼► or OK to start listening to the selected album or radio station. In the Radios screen, you can select **Create New Station** to add an artist radio station using the on-screen keyboard.

**Delete Spotify Account**

To delete a Spotify account:

1. On the Spotify main screen, press ◀/▶ to select **Account**, and press OK.
2. Select the Spotify account you wish to delete, then press ▶ to select the x and press OK.
TuneIn

The world's largest Internet radio guide with access to over 30,000 free radio stations searchable by location, genre, or format.

To access TuneIn:
1. Navigate to the Home | Services menu and press OK.
2. The list of Internet services display in alphabetical order. Press ◀/▶ to select TuneIn 📻, then press OK.

Options include:
- Station
- Search
- Preset
- Sign in
- Exit

Signing in to TuneIn (Optional)

You can start listening to TuneIn stations as an unregistered user, but you need to sign up for a TuneIn account at http://radiotime.com to customize your radio experience by adding stations to your presets for faster access.

To sign in to TuneIn:
1. Press ◀/▶ to select Sign in, then press OK.
2. Select Activate Device, then press OK.
3. Write down the activation code and follow the onscreen instructions (go to http://radiotime.com/mydevice to associate the media player with your account). When finished, choose Continue, then press OK.

4. Select Enter RadioTime.com account, then press OK.

5. Use the navigation buttons ▲▼◄► to type in your TuneIn user name using the on-screen keyboard, then press OK.

6. Use the navigation buttons ▲▼◄► to type in your TuneIn account password using the on-screen keyboard, then press OK.

7. Press OK to complete the sign-in process.

**Listening to a TuneIn Station, Program, or Podcast**

- New TuneIn users can browse for a radio station, program, or podcast.
- Registered TuneIn users can access presets and listen to favorite stations.

To browse for a radio station, program, or podcast:

1. On the TuneIn main screen, press ▼► to select Station, then press OK.

Options include:

- **Local Radio** – Listen to your local stations which display in numerical order.
- **Music** – Categorizes your local music radio stations by genre.
- **Talk** – Categorizes your local talk radio stations by type.
- **Sports** – Categorizes local and national sports broadcasts and programs by type.
- **By Location** – Find radio stations throughout the world from the lists of regions and countries.
- **By Language** – Find radio stations throughout the world from the list of languages.
- **Podcasts** – Find radio program podcasts categorized by music genre and type.

2. Press ▲▼ to select the station, program, or podcast you want to listen to.

3. Press Options, then press ▲▼ to select Add to Preset if you want to add the station to Presets (TuneIn account required). Press OK.

4. Press ▼► or OK to start listening to the selected radio station.

**Searching for a TuneIn Station**

To search for a TuneIn station, program, or podcast:

1. On the TuneIn main screen, press ◀► to select Search, then press OK.
2. On the on-screen keyboard, use the navigation buttons ▲▼◄► to key in a search keyword, then press OK.

Note: You can also press ▼ on the remote control to toggle to the results list after entering several characters in the search field.

3. Press ▲▼ to select a station from the search result.
4. Press ■► or OK to start listening to the selected radio station.

**Adding a Station to Your Preset List**

If you like a particular station, you can add it to your preset list for easier access in the future.

To add to a station, program, or podcast to your presets:

1. Go to the station list showing the station you want to add.
2. Press ▲▼ to select the station you want to add or begin playing a station.
3. Press Options, then press ▲▼ to select Add to Preset if you want to add the station to Preset (TuneIn account required), then press OK.

4. Press OK again to confirm.

**Listening to a Station in Your Preset List**

To listen to a preset station, program, or podcast:

1. On the TuneIn main screen, press ◀► to select Preset, then press OK.
2. Press ▲▼ to select a station from your preset list.
3. Press ■► or OK to start listening to the selected radio station.

**Removing a Station from Your Preset List**

You can remove stations you no longer want from your preset list.

To remove a station from your preset list:

1. On the TuneIn main screen, press ◀► to select Preset, then press OK.
2. Press ▲▼ to select the station you want to remove.
3. Press **Options**, then press ▲/▼ to select **Remove Preset**, then press **OK**.

4. A confirmation prompt appears. Select **OK**, then press **OK**.

**Getting Station Information**

You can view information about the currently playing station and song.

1. While the station is playing or selected, press **Options**, then ▲/▼ to select **View info**. Press **OK**.
2. The information screen appears, displaying info such as genre, language, currently playing song, next song, and time. Press **OK** to return to the previous screen.

**Reporting Problems**

You can report a problem with the currently playing station or audio or contact the station/show using the reporting problems option.

1. While the station is playing or selected, press **Options**, then ▲/▼ to select **Report problem**. Press **OK**.
2. The reporting problems screen appears, displaying options for reporting problems such as audio, wrong information, errors, etc. After making your selection press **OK** to return to the previous screen.
Signing Out from TuneIn

Sign out of TuneIn after a listening session to ensure that nobody can make changes to your TuneIn settings and stations without your permission.

To sign out from TuneIn:

1. On the TuneIn main screen, press Options to show the toolbar, press ▲/▼ to select Sign out, then press OK.
2. Select OK on the confirmation prompt, then press OK.

Exit

To simply exit out of TuneIn and stay signed in, press ◀/▶ to select Exit in the TuneIn main screen, then press OK.

Vimeo®

Take your video experience to the next level with Vimeo. Get a video experience with absolutely no pre-roll ads, unlimited video length, unlimited HD playback and embedding, superior privacy settings and more! Vimeo is the next step in your creative film and video experience.

To access Vimeo:

1. Navigate to the Home | Services menu bar and press OK.
2. The list of Internet services display in alphabetical order. Press ◀/▶ to select Vimeo, then press OK.
3. The Vimeo Home screen displays the Vimeo menu options. Press ◀/▶ and press OK, or press shortcut keys on the remote control (shortcut functions are shown on the bottom of the screen) to choose a menu option.
4. Use the navigation buttons ▲▼ ◀▶ to select a video within a menu screen. Press ▼ or OK to begin playing a video.
5. Press the Back button to return to the previous screen or to exit Vimeo from the home screen.

Existing Vimeo Users

Follow the on-screen instructions to enter your user name and password using the remote control to log in to your Vimeo account when prompted.

New to Vimeo

Vimeo Plus allows users additional features such additional weekly uploading (up to 5 GB per file), unlimited HD videos, unlimited creation of channels, groups and albums, HD embedding, 2-pass video re-encoding that results in higher quality, priority encoding, no ads, and much more.

Go to http://vimeo.com/api/connect/wd to sign up for Vimeo Plus.
**Vudu™**

VUDU delivers a cinema-like experience at home with the hottest new releases and the largest HD library. There are no subscription fees or late fees, simply pay for what you watch. Choose to rent or own from thousands of titles available in vibrant 1080p with rich Dolby Digital 5.1 Surround Sound. Activate your VUDU account on your media center/player today and receive a free* movie credit.

---

*Note: *New VUDU account required. Terms and conditions apply. For more information visit www.vudu.com. US only.

**To Get Started:**

1. Go to [https://my.vudu.com](https://my.vudu.com). Sign in or create a free Vudu account. No subscription required!
2. Follow the on-screen instructions to begin activation and receive your PIN code.
3. On the media player, navigate to the Home | Internet media menu bar and press OK.
4. The list of Services display in alphabetical order. Press ◀/▶ to select Vudu, then press OK.
5. Select **Settings** from the bottom menu within the Vudu service, then press OK. Press OK again to activate the device and enter the Vudu PIN code.

You now have instant access to new release movies & next day TV!

**How Do I Download and Watch a Movie?**

Once you rent or purchase a movie, it will appear in your My Videos tab. With progressive download, you can begin watching within minutes by selecting **Play Now** as soon as it becomes available.

Your selection will continue to download while you watch. Track your download progress in the Download Manager on the Home screen. **Watch purchased movies whenever you want, as much as you want. Rentals must be watched within 24 hours once you start playback.**

**To learn more:**

To learn more about Vudu, go to [http://www.vudu.com](http://www.vudu.com).

---

*Note: To deactivate the media player from your Vudu account, log in to your account at [http://www.vudu.com](http://www.vudu.com).
**WatchMojo**

WatchMojo produces original video programming on the people, places and things that people are passionate about, covering the Automotive, Business, Education, Fashion, Film, Food, Health, Music, Parenting, Politics & Economy, Space, Sports, Science, Technology, Travel and Video Game categories.

To access WatchMojo:

1. Navigate to the Home | Services menu bar and and press OK.
2. The list of Internet services display in alphabetical order. Press ↓/↑ to select WatchMojo, then press OK to display the WatchMojo home screen.
3. Use the navigation buttons ▲▼◄► to browse, select, and search for videos and the playback buttons to stop and start videos.

**XOS College Sports**

XOS College Sports offers college sports fans multi-sport, multi-conference access to full games and historic documentaries including many of the nation’s top schools and teams. Free access to a large collection of rare content, championship season highlights and select full games past and present. Additional content can be ordered at [www.XOSSports.com](http://www.XOSSports.com).

To access XOS College Sports:

1. Navigate to the Home | Services menu bar and and press OK.
2. The list of Internet services display in alphabetical order. Press ↓/↑ to select XOS College Sports, then press OK to display the XOS College Sports home screen.
3. Use the navigation buttons ▲▼◄► to browse, select, and search for videos and the playback buttons to stop and start videos.

**Yota Music**

Yota Music provides access to more than 800,000 licensed music tracks in its online catalog. With Yota Music, you can listen to and customize personalized channels, save tracks to Favorites, and listen to theme-based collections put together by Yota Music editors. The charts show 100 songs most popular with the Yota Music audience.

---

*Note: The Yota Music service user interface is primarily in the Russian language.*

To access Yota Music:

1. Navigate to the Home | Services menu bar and and press OK.
2. The list of Internet services display in alphabetical order. Press ↓/↑ to select Yota Music, then press OK to display the Yota Music home screen.
3. Use the navigation buttons ▲▼◄► to browse, select, and search for songs and the playback buttons to stop and start songs.
YouTube

YouTube is a video hosting website where you can upload and share videos.

To access YouTube:

1. Navigate to the Home | Services menu bar and and press OK.
2. The list of Internet services display in alphabetical order. Press ◄/ ► to select YouTube then press OK to display the YouTube home screen.
   Options include:
   - User
   - Search
   - Top Favorites
   - Featured
   - Most Popular
   - Most Viewed
   - Top Rated
   - Preferences

Signing In To Your YouTube Account

Note: If you do not have a YouTube account and want to create one, go to www.youtube.com.

1. Press ◄/ ► to select User in the YouTube home screen, then press OK.
2. Select **Sign in**, then press **OK**.

![Sign in screen](image)

3. Use the navigation buttons ▼► to type your YouTube user name in the on-screen keyboard. Select **Submit**, then press **OK**.

4. Use the navigation buttons ▼► to type your YouTube account password in the on-screen keyboard. Select **Submit**, then press **OK**.

5. Press ▲▼ to select a save option. Press **OK** when finished.

Options include:

- **No** – Your account details are not saved. You need to repeat the initial sign-in process every time you access YouTube using the media player.
- **Save username only** – Your username is saved, but you will be prompted to input your password every time you access YouTube using the media player.
- **Yes** – Both your user name and password are saved. You can later sign in to your account from the YouTube Login screen.

6. The **My favorites** page appears. Go to the next section for more information on this page.

**Account**

By default, the **My favorites** page displays first when you sign in to your account. These are the videos you have saved as favorites in YouTube.

![Favorites page](image)

**Note:** If you have not favorited any videos, the screen displays "no content found."
This page also contains links to your uploaded videos (Videos) and video playlists (Playlists). Press ▲ or navigate to ▶, and press OK, then press ▲/▼ and OK twice to switch that selection.

Searching for Videos

You can search YouTube for videos of particular interest to you. The search results are based on the tags associated with uploaded videos. The media player saves your searches so you can quickly recall them.

Note: Videos that are tagged “private” by users do not appear in search results.

To search for videos:

1. Press ◀/▶ to select Search in the YouTube home screen, then press OK.

2. Use the navigation buttons ▲▼ ◀▶ to type a keyword related to the subject matter of the video you’re looking for using the on-screen keyboard. Select Submit, then press OK.
The video search begins (this may take a few seconds). Videos matching your search word appear in a Search result screen.

3. Use the navigation buttons to select a video from the display.
4. Press | or OK to start watching the selected video.
   Go to page 166 for more information on using the YouTube Player.

To use search history:

1. Press the SEARCH button on the remote control. This toggles you to the Search History list.
2. Press ▲/▼ to select a search from the display.
3. Press OK to perform the saved search.

**Top Favorites**

These are videos tagged as favorites by the majority of YouTube users.

To access Top Favorites:

1. Press ◄/► to select Top Favorites in the YouTube home screen, then press OK.
2. The list of top favorite videos display. To refine this list, press ▲/▼ to select [ ], and press OK.
3. Press ▲/▼ to choose from Today, This week, or This month, then press OK.
4. Press the navigation buttons to select a video from the display, then press | ▶ or OK to start watching the selected video.
Go to page 166 for more information on using the YouTube Player.

**Featured Videos**

This video category is primarily populated with videos from YouTube’s commercial partners, but might also include select user videos that are currently popular or have been previously showcased in YouTube’s Spotlight Videos section.

To access Featured Videos:

1. Press ◄/► to select **Featured** in the YouTube home screen, then press **OK**.
2. Press the navigation buttons to select a video from the displayed selection.
3. Press ▶ or **OK** to start watching the selected video.

Go to page 166 for more information on using the YouTube Player.
Most Popular
These are videos deemed most popular by YouTube users.
To access Most Popular:
1. Press ◀/▶ to select Most Popular in the YouTube home screen, then press OK.
2. The list of most popular videos display. To refine this list, press ▲/▼ to select □, and press OK.
3. Press ▲/▼ to choose from Today, This week, or This month, then press OK.
4. Press the navigation buttons to select a video from the display, then press ▼ or OK to start watching the selected video.
   Go to page 166 for more information on using the YouTube Player.

Most Viewed
These are videos most viewed by YouTube users.
To access Most Viewed:
1. Press ◀/▶ to select Most Viewed in the YouTube home screen, then press OK.
2. The list of most viewed videos display. To refine this list, press ▲/▼ to select □, and press OK.
3. Press ▲/▼ to choose from Today, This week, or This month, then press OK.
4. Press the navigation buttons to select a video from the display, then press ▼ or OK to start watching the selected video.
   Go to page 166 for more information on using the YouTube Player.

Top Rated
These are videos with the highest ratings from YouTube users.
To access Top Rated:
1. Press ◀/▶ to select Top Rated in the YouTube home screen, then press OK.
2. The list of most viewed videos display. To refine this list, press ▲/▼ to select □, and press OK.
3. Press ▲/▼ to choose from Today, This week, or This month, then press OK.
4. Press the navigation buttons to select a video from the display, then press ▼ or OK to start watching the selected video.
   Go to page 166 for more information on using the YouTube Player.
YouTube Options

When you select a video in any of the YouTube submenu screens described above (i.e., User > My Favorites, Search, Top Favorites, Featured Videos, Most Popular, Most Viewed, and Top Rated), pressing **Options** brings up the following screen:

- **Like or Dislike this Video** - see “Like or Dislike Videos” on page 168.
- **Add to favorites** - see “Adding Videos to Favorites” on page 168.
- **Add to playlist** - see “Adding Videos to a Playlist” on page 169.
- **Flagging** - use this option to flag a video for inappropriate content.

Preferences

Preferences allows you to choose which country’s content (videos and channels) you would like to view without changing the language of the site.

To access Preferences:
1. Press ▼/▶ to select **Preferences** in the YouTube home screen, then press **OK**.
2. **Current location** is highlighted. Press **OK**.
3. Press ▲/▼ to select a country from the list, then press **OK**.

YouTube Player

The YouTube Player layout is similar to the regular video playback screen. It displays the playback status bar and the elapsed and total playback times. Press ■▶ to pause and resume playback. Press ▶ or ◀ to fast forward or reverse in 10 second increments.
YouTube Player Options

As with a regular video playback screen, you can customize the way content displays in the YouTube Player. To do this, press Options.

- **Like or Dislike this Video** - see “Like or Dislike Videos” on page 168.
- **Add to favorites** - see “Adding Videos to Favorites” on page 168.
- **Add to playlist** - see “Adding Videos to a Playlist” on page 169.
- **Flagging** - use this option to flag a video for inappropriate content.
- **Zoom** - To change the display’s viewing scale, press ▲/▼ and select **Zoom & Pan**, then press OK. Press OK repeatedly until the preferred viewing scale is achieved. Press Options or Back to revert to the default viewing scale.
- **Pan** - To pan the display, press ▲/▼ and select **Zoom & Pan**, then press OK. Press the navigation buttons ▲▼◄► repeatedly until the preferred panned view displays. Press Options or Back to revert to the default viewing scale.
- **Show info** - use this option to view detailed information about the video if present.

Related Videos

After video playback, the Related Videos screen appears. At the top of the screen, the video rating (number of highlighted “stars”), upload date, and the number of times it has been viewed display.

This screen lists videos which might be related to recently played video by subject matter, making it easier to search for videos based on the same or similar subject.
Press the navigation buttons to select a video from the list, then press ▶ or OK to start watching the selected video.

The other options on this screen allow you to:

- Replay the recently playbacked video – Play Again
- Add the video to your My Favorites list – Add to Favorites
- Flag the video as having inappropriate content - Flagging
- Provide video feedback – Like or Dislike this Video
- Add the video to your My Playlists list – Add to Playlist
- Return to the last video selection page – Back to Videos

Press the navigation buttons to select an option, then press OK.

**Like or Dislike Videos**

You can rate videos on a basis of “Like” or “Dislike” during or after video playback.

1. During playback, press Options, select Like or Dislike this Video, then press OK, or select Like or Dislike this Video in the Related Videos screen.
2. Press ▶/◀ to select Like or Dislike, then press OK.
3. Your video rating is confirmed. Press OK to go back to the Player screen.

**Adding Videos to Favorites**

If you enjoyed a particular video or simply want to refer to it later, you can tag it as a “favorite” to add it to your My Favorites list. Once added, you can keep track of this video.

To add a video to My Favorites from the Related Videos screen:

1. On the Related Videos screen of the video you want to add as a favorite, press ▲/▼ to select Add to Playlist, then press OK.
2. Press OK at the confirmation prompt.

Note: You can also press Options when playing a video and select Add to favorites.
Adding Videos to a Playlist

Use this option if you enjoyed a particular video and want to add it to one of your playlists.

To add a video to My Favorites from the Related Videos screen:

1. On the Related Videos screen of the video you want to add as a favorite, press ▲/▼ to select Add to Favorites, then press OK.
2. Press ▲/▼ to select Create your playlist (to create a new playlist) or Choose your current playlist.
3. If you choose Create your playlist, enter the name of your new playlist using the on-screen keyboard. Select Submit, then press OK. If you choose Choose your current playlist, press OK.

Note: You can also press Options when playing a video and select Add video to favorites.

Deleting a YouTube Account

To delete a YouTube account from the media center:

1. Press ▲/▼ to select Users in the YouTube home screen, then press OK.
2. Press ▲/▼ to select Delete account, then press OK.
3. Press ▲/▼ to select the account you want to delete, then press OK.
4. Press ▲/▼ to select OK on the confirmation prompt, then press OK.

Restricted Video Content

Some videos on YouTube are restricted by the content owner from playback via TV-connected devices. If you attempt to play one of these videos, press OK to return to the previous screen.

Encoding Support for YouTube Worldwide

Many YouTube videos are encoded in a language other than the one you set as your media player’s system language. In some cases, this results in garbled characters in the video ID or even playback failure. If this is the case, you need to enable the encoding support for the language that is causing the error.
To set the media player’s additional encoding setting:

1. Navigate to Home | Setup menu bar.
2. Press ▲/▼ to select System, then press OK.
3. Press ▲/▼ to select Additional Encoding Support, then press OK.
4. Press ▲/▼ to select the encoding support you require, then press OK.

YouTube Leanback

YouTube is a video hosting website where you can upload and share videos. Access YouTube Leanback online at [www.youtube.com/leanback](http://www.youtube.com/leanback).

To access YouTube:

1. Navigate to the Home | Services menu bar and press OK.
2. The list of Internet services display in alphabetical order. Press ◀/▶ to select YouTube, then press OK to display the YouTube home screen.
3. A default video plays. Use the navigation buttons to search (using an on-screen keyboard) or browse for videos. Use the PAUSE/PLAY, REW, FF, NEXT, and PREV buttons for video playback.
Games

You can access games and use the remote control to play them using the Games menu.

**Games Display**

1. Navigate to the Home | Games menu, then press OK.

2. The screen displays all available game services. The display is in grid view.

   - **Funspot**—Swap gems with Rockswap, try your luck with Texas Hold’Em, or test your math skills with Sudoku – Check out Funspot on for your favorite games.

   - **PlayJam**—PlayJam is your first choice for the best games on TV. From action and adventure to puzzle and word games, PlayJam has something for everyone. Play to win prizes, play against a friend or just play to climb the leaderboard - PlayJam has a global community of players already...join them!

3. Use the navigation buttons to select a game service, then press OK. Select **Rules** or **Help**, then press OK for further information, or select **New Game** or **Start** to begin.

4. Use the navigation buttons on the remote the play the game. Select **Exit** when finished.
RSS

RSS (Really Simple Syndication) provides you with a list of current news items in a brief format so you can scan headlines and choose the items that interest you most without visiting websites.

Reading RSS Feeds

1. Navigate to the Home | RSS menu, then press OK.

2. The screen displays all available RSS feeds. The display is in grid view. Use the navigation buttons to select a headline of a RSS feed that you want to read, then press OK.

Note: You can display your RSS feeds in a streaming ticker display on the home page. See “RSS Ticker” on page 182.

Adding RSS Feeds

To add an RSS feed to the media player:

1. In the RSS main screen, navigate to the + button then press OK.
2. Enter the URL of the RSS feed using the on-screen keyboard (see the website of the RSS feed provider for details), select Submit, then press OK.
3. Press OK again to add the RSS feed.

Note: You can also add RSS feeds using the Web UI. See “RSS” on page 90.
Setup and Advanced Features

The Setup menu lets you customize the way you use the media center and set preferences for media playback.

To select a Setup category:

1. Press **Setup**, or navigate to the Home | Setup menu and press **OK**.

2. Use the ▲▼ Up/Down arrows to select a Setup category, then press **OK**.

There are 10 Setup categories, including:

- Audio/Video Output
- Appearance
- Video settings
- Music Settings
- Photo settings
- Network settings
- Operation
- System
- Mobile Access
- About
Setup Navigation Buttons

Use these buttons on the remote control to navigate within and between the Settings screens.

Audio/Video Output

Use the menus in this category to configure playback for audio and video files.

Video Output

Use this menu to select a video signal. After you finish making your selections, select OK at the “Are you sure you want to change the video resolution?” prompt, then press OK.

Composite

When using the standard RCA A/V cable (yellow, red, and white connectors) to connect the media center, select **Composite** in the Video output screen.
You will be prompted to select the TV standard applicable to your device. This setting depends on your regional location.

Options include:

- **NTSC** – United States, Canada, Japan, Mexico, the Philippines, South Korea, and Taiwan.
- **PAL** – Europe, Greenland, parts of Africa and South America, the Mideast, China, India, Australia, and Indonesia

Select a regional TV standard then press **OK**.

**Component**

When using the YPbPr cable (green, blue, and yellow connectors) to connect the media center, select **Component** in the Video output screen.

You will be prompted to select the video display resolution (from 480p to 1080i). Select display resolution then press **OK**.

*Note:* The further down the list the setting, the higher the resolution and clearer the picture.

**HDMI**

When using an HDMI cable (if your TV supports HDMI resolution), select **HDMI** in the Video output screen.

You will be prompted to select the applicable HDMI video resolution (set to Auto, or from 480p to 1080p). Select display resolution then press **OK**.

*Note:* The further down the list the setting, the higher the resolution and clearer the picture.

After setting resolution, you are prompted to select color space (set to Auto, or RGB High, RGB Low, or YCbCr). Select color space then press **OK**.

**Aspect Ratio**

Use this menu to select the way videos are displayed. Options include:

- **Normal** (4:3)
- **Widescreen** (16:9)

The media center’s default setting is **Widescreen**. Make sure your TV can support widescreen resolution, or this default setting can result in a distorted video display.

**Audio Output**
Use this menu to select the audio output mode.

Options include:

**Stereo (Analog, S/PDIF, HDMI)**
This is the default setting that decodes all audio streams into 2-channel output via analog (RCA connectors), S/PDIF (optical connector), or HDMI. Recommended if you are using a 2- or 4-speaker entertainment unit.

**Digital Pass Through via Optical Only (S/PDIF)**
Select this option if you are using HDMI for video and a S/PDIF (optical) connection to output multichannel surround sound to a receiver and do not want audio output from HDMI. After selecting **Digital Pass Through via Optical Only**, select one or more of the following options that describe your receiver, then press **OK** after each selection. Press ➤ then, with the selected, press **OK** again.

- AAC capable receiver
- Dolby Digital capable receiver
- DTS capable receiver
- WMA Pro capable receiver

**Digital Pass Through via HDMI Only (HDMI)**
Select this option if you are only using an HDMI connection to output multichannel surround sound to a receiver. After selecting **Digital Pass Through via HDMI Only**,
select **Auto Detect** to have the media player detect receiver settings automatically. Or, select **Manual Setup**.

**Auto Detect**

If you select Auto Detect a summary of your auto detect settings display.

Press ► then, with the ☑️ selected, press **OK** again.

**Manual Setup**

If you select **Manual Setup**, select one or more of the following options that describe your receiver, then press **OK** after each selection. Press ► then, with the ☑️ selected, press **OK** again.

- AAC capable receiver
- Dolby Digital capable receiver
- Dolby Digital Plus capable receiver
- DTS capable receiver
- Dolby TrueHD capable receiver
WMA Pro capable receiver

Note: Changed settings are not applicable during DVD video playback.

**Dolby Dynamic Range Control (DRC) Setting**

Use this menu to set the dynamic range control, which reduces or increases sound levels. This setting can be useful when, for example, you want to watch a movie without hearing wide volume swings between loud and quiet sounds. DRC thus enables reduced peak volume levels without loss of overall sound quality. Default setting is **On**. Options are **Off**, **Auto**, and **Max**.
**Appearance**

Use the menus in the Appearance screen to set user interface display options for the media center.

![Appearance Menu](image)

**Language**

Press ▲/▼ to select the display language, then press OK.

**Video Calibration**

Use this menu to correct any issues with overscan (the display is cropped in the TV screen). To correct any overscan problems, calibrate the display by reducing the display size by up to 30%. The calibration settings are in 5% increments.

**User Interface Themes**

The media center supports interchangeable user interfaces called themes. Themes alter the player’s visual appearance, but not its functionality. There are several themes available in the User Interface Themes page and available for download at [http://www.wdtvlive.com/theme](http://www.wdtvlive.com/theme).
User Interface Backgrounds

You can use this menu to set a different photo as the system background to replace the default grass field and sunny sky photo. You can choose from the WD Creative Masters backgrounds or your own backgrounds.

WD Creative Masters

WD Creative Masters includes themed albums of photos from leading photographers that you can use for your media center user interface background.

Select a WD Creative Masters album, then navigate to a photo and press OK. Press OK again to preview the background. You can choose to Set as Background or View Bio of the photographer, then press OK.
Your Backgrounds
Your Backgrounds shows the default background as well as other photos you have set as the background (see “Set as Background” on page 61). Navigate to a background photo and press OK, then press OK again to Set as Background.

Screensaver Delay
Use this menu to set the time of system inactivity before the screensaver display is enabled. The default setting is 5 minutes.

Screensaver Style
Use this menu to choose your screensaver display style. The WD Logo screensaver is the default style, but you can also choose a Random Photo Slideshow of photos stored in the media center’s internal drive or a Folder Photo Slideshow of photos from a single folder as your screensaver.

Show New Items
Use this menu to select a date range for the media files added to your content source(s) to be marked as “new.” The number of new items displays when you select Video, Music, Photo, or Files on the home screen, or New Items in the dashboard.
**RSS Ticker**

Set RSS Ticker to *Show* to stream your RSS feeds on the home page. Default setting is *Hide*.

**Video Settings**

Use the menus in the Video Settings screen to configure the display and sequence option for video files.
**Video Playback Sequence**

Use this menu to select the video playback mode. The default setting is **Normal**. Go to “Play Mode” on page 44 for a description of these video playback modes.

**Subtitle Font Size**

Use this menu to set the default font size (24 to 68 points, 40 points is default) for displaying video subtitles. Use the ▲▼ buttons to select a font size. “Subtitle font size” at the bottom of the screen reflects the font size option currently selected. Press **OK** to select a subtitle font size.

**Subtitle Border**

Use this menu to set the default appearance of the subtitle frame (**Thin** or **Thick**).

**Subtitle Default**

Use this menu to set the default appearance of the subtitles (**On** or **Off**).

**Browser Display**

Use this menu to select the default display mode for the video browser screen. The default setting is **Preview View**. Examples of grid, list, and preview views are shown below.

![List View](image1)

![Preview View](image2)

![Large Grid View](image3)

![Small Grid View](image4)

![Gallery View](image5)
Music Settings

Use the menus in the Music settings screen to configure the display and sequence option for audio files.

**Music Playback Sequence**

Use this menu to select the audio playback mode. The default setting is **Normal**. Go to “To set the music repeat mode:” on page 55 for a description of the audio playback modes.

**Audio Track Display**

Use this menu to select which file information to display in the audio browser screen. The default setting is **File name**.

**Background Music Info Panel**

When turned **On**, a music info menu bar appears at the top of the screen when music is playing in the background.

**Resume Music Longer Than 15 Min**

When turned **On**, will prompt you to resume or restart a music file that is 15 minutes or longer.
Browser Display

Use this menu to select the default display mode for the audio browser screen. The default setting is **Grid View**. Examples of both grid and list views are shown below.

![Grid View](image1.png) ![List View](image2.png)

Photo Settings

Use the menus on this category to configure the display size and slideshow settings when viewing your image files.

![Photo Settings](image3.png)

**Slideshow Sequence**

Use this menu to set the slideshow sequence mode. The default setting is **Normal**.

- **Normal** – The slideshow is played once. When the last image is displayed, the previous browser screen is displayed.
- **Shuffle** – The slideshow is played in random order until you press **Stop**.
- **Repeat All** – The slideshow is played repeatedly until you press **Stop** or **Back**.
- **Repeat All and Shuffle** – The slideshow is played continuously in random order.

**Slideshow Transition**

Use this menu to select the method used to display the next slide in a slideshow. The default setting is **Normal**.
Slideshow Interval Time

Use this menu to set the time interval between pictures in the slideshow. You can select from 3 seconds (default) to 5 minutes.

Photo Scaling

Use this menu to define how pictures are scaled when you view them. This also applies when pictures are viewed in a slideshow. Options include:

- **Keep as original** – Maintains the original resolution of the image (default).
- **Fit to screen** – Fills as much of the display area as possible while maintaining correct image proportions.
- **Display in full screen** – Fills the display area with the image (this can lead to image distortion).

Browser Display

Use this menu to select how media files are displayed in their respective folders. The default setting is **Small Grid View**. Examples of both grid and list views are shown below.
**Network**

Use the menus in this category to configure and view the media center’s network settings. Press ▲/▼ to make a selection from the list of options, then press OK.

**Network Setup**

See “Network Setup” on page 68 for information and instructions.

**Previously Connected Wireless Network**

This menu displays a record of your wireless network settings. After performing a wireless network setup, the media player keeps a record of the LAN access point. Use this menu to reconnect to the local network without having to rekey the password.

**Check Connection**

See “Checking the Network Connection” on page 72 for information and instructions.

**Device Name**

The name shown in the device name field helps you identify the media center on the network. Use this menu option to change the device name using the onscreen keyboard.

**DLNA Media Server**

This option is **On** by default so that other DLNA media devices on the network can see the media center. If set to **Off**, other DLNA media devices on the same network will not be able to see the media center on the network.

See specific DLNA media device user manuals for instructions on connecting a DLNA device to your local area network. Go to [http://www.dlna.org](http://www.dlna.org) for a list of DLNA-certified devices and for further information.

**iTunes Server**

The iTunes server is set to **Off** by default. Turning it **On** allows you to share audio files to iTunes on the same network.
Network Share Server
Must be set to On to use network services. See “Network Services” on page 74 for information and instructions.

Workgroup
Allows you to join a specific workgroup on your network. Windows-based computers and devices in the same workgroup may allow each other access to their files, printers, or Internet connection. Members of different workgroups on the same local area network and TCP/IP network can only access resources in workgroups to which they are joined.

To create a new workgroup, select the existing Workgroup Name then press OK. Enter a new workgroup name.

Proxy
Proxy is used by corporations to view and filter online transactions. All requests in the corporate environment go through a proxy server to perform such actions as recording the IP address of a web site, checking the IP address that is being opened to make sure it’s not on a blocked list, and checking outgoing attachments for spam or viruses.

If you plan to use the media server in a corporate environment, select On, then enter the Proxy address and port using the on-screen keyboard to access online services.

Clear Login Info for Network Share
Use this menu to clear login information (preset password) for the network share.

Operation
Use the menus in the Operation screen to set preferences for the media center.
Remote Settings

Select a function for the A, B, C, and D function buttons on the remote controller. The remote settings menu displays the functions currently assigned to each button.

To change functions, press ▲/▼ to select a function button, then press OK. Press ▲/▼ to select functions such as display mode, filter menu, Music, Video, Services, Setup, Capture Snapshot (saves screen snapshots to internal storage), etc., then press OK.

To reset the function buttons to default settings, select Reset, then press OK.

Delete Music Preset (Buttons 0-9)

To clear a music file or playlist preset from one of the 0-9 buttons, press ▲/▼ to select a numbered button. Press ► to select the ▼, then press OK.
Sync From USB Storage
This option allows you to turn the USB sync feature Off, Sync All Files, or Sync Supported Media Files Only. See “Step 5 - Connecting a USB Device (Optional)” on page 21.

Sync Content From A Network Shared Folder
Allows you to setup a sync process to a shared folder on your network. Any new content added to the new folder automatically syncs to the media center’s internal drive.

Auto Play
Select the type of media (music or video) that plays automatically when a USB device is connected to USB port 1 on the front of the media center. The media files must be located in the USB device’s root directory for Auto Play to function.

Note: The auto play function will only work if the USB device is plugged into USB port 1 on the front of the media center.

System
Use the menus in this category to configure the media center’s general functions. Press ▲/▼ to make a selection from the list of options, then press OK.

Set Time & Country
Use this menu to select your local time zone and turn Daylight Savings Time Off or On so that the media center displays the current time.

Media Library
Use this menu to enable, disable, or clear the media library (turn Off, On, or Clear Media Library). The media library consolidates the media contents of an internal hard drive, USB drive, or network drives into one database so you can locate media
files based on metadata information. See “Media Library” on page 201 for more information.

**Media Library Manager for Network Share**

Use this option to manually add individual share folders to the media library. Select **Add network share to media library** to connect to a Windows or Linux Share (see “Network Share” on page 76 for more info). While browsing the content inside, press **Option** to add a share folder to the Media Library. A maximum of 10 shares can be added. You can also set automatic file scanning on network shares. Choose from **During Standby Only**, **Once An Hour**, **Once A Day**, **Once A Week**, or **Once A Month**.

**Get Content Info**

Use this menu to set options for how you want to attach metadata (such as artwork and additional information) to your music and video files. **Manual Only** is the default setting, and you can also set this menu to **Auto**.
Meta-Source Manager

Use this menu to select a meta-source that provides metadata information and artwork for your media files. Select **Movie**, **Music**, or **TV Show** to display and select available meta-sources for the media type.

Select **Add New Meta-Source** and select the meta-source XML file from the network or attached USB storage. You can also create your own meta-source. Go to [www.wdtvlive.com](http://www.wdtvlive.com) to download a sample meta-source, and for more information about meta-sources.

Device Security

Use this menu to set a security password to access and control folder locking and parental control features. Select **Device Security** and use the navigation buttons ▲▼◄► to type in your password (you will need to enter it twice before initial use) to enable the features. The following screen displays:

From here, enter the **Folder Lock** or **Parental Control** menus or **Set New Password**.

Folder Lock

Select **Set Default Lock Folder** to select a folder containing files you want to prevent access to. Once selected, the folder displays on the screen. Select **Lock** to
prevent access to the folder, **Unlock** to provide access to the folder, or **Disable** to disable the feature.

![Folder Lock Setup](image)

**Parental Control**

Parental control allows you to password protect an Internet service so the user can access it only if the correct password is entered. There are two options:

1. **Show** – default option. The service is not password protected.
2. **Ask** – the password must be entered to access the service.

![Parental Control Setup](image)

**Additional Encoding Support**

Press ▲/▼ to select an encoding support for a secondary language, then press **OK**. This prevents garbled characters in file names and subtitles defined in the selected language.
Disk Manager

This option displays information about the media center and attached drives when you select the drive then press OK, including:

- Storage Type
- Free Space
- Total Size
- File System

Disk Manager also allows you to format the internal drive. Select WDTVLiveHub, then press OK. Select Format, then press OK.

**Important:** Reformatting the internal drive erases all its contents. If you have already saved files on the internal drive, be sure to back them up before reformatting it.

Device Registration

To register your WD product using the Setup menu:

1. Make sure your media center has an active network connection.
   
   Go to “Network Setup” on page 68 for instructions on how to set up a network connection.

2. Press Setup or navigate to the Home | Setup menu, then press OK.
3. Press ▲/▼ to select **System**, then press **OK**.
4. Press ▲/▼ to select **Device Registration**, then press **OK**.

5. On the Register Product screen, press ▲/▼ to select **First Name**, then press **OK**.
6. Use the navigation buttons ▲▼◄► to type in your first name using the on-screen keyboard. Select **Submit**, then press **OK**.
7. Press ▲/▼ to select **Last Name**, then press **OK**.
8. Use the navigation buttons ▲▼◄► to type in your last name using the on-screen keyboard. Select **Submit**, then press **OK**.
9. Press ▲/▼ to select **Email**, then press **OK**.
10. Use the navigation buttons ▲▼◄► to type in your email address using the on-screen keyboard. Select **Submit**, then press **OK**.
11. On the Register Product screen, press ◄► to select **OK**, and then press **OK**.

**WD LED Light Control**

Use this menu to turn off the WD LED light (**Always Off**). If turned off, the WD LED will only appear during start up then disappear after the device has booted up. The default setting is **Normal**.

**Device Reset**

Use this menu to perform device reset options:

---

**Reset All Settings Back to Factory Default** – restores all media center system preferences and playback settings to their default factory values. This may correct problems caused by a failed firmware upgrade or faulty configuration settings.
**Reset All Settings Except Online Service Accounts** – restores all media center system preferences and playback settings to their default factory values with the exception of your internet Services personal account information.

**Reset All Online Service Accounts** – clears all account information and logins you have entered for Services.

**Reset Web Interface Login** – clears the user-created Web UI password and resets it to the default password. See “Using the Web UI” on page 86 for details.

---

**Important:** If you specified a static IP address (or any other non-standard configuration), the media center will no longer appear on the network after the reset. Also, be sure to reset the media center to factory defaults and reset all online service accounts before returning or otherwise transferring the device to purge your internet services personal account information, network shares passwords, and wireless network passwords.

Device Reset only clears user settings from the device. To clear all the data and content from the media center’s internal drive, you need to reformat the drive. See “Disk Manager” on page 194.

To perform a device reset:

1. Press ▲/▼ to select **Device Reset**, then press OK.
2. Press ▲/▼ to select a device reset option, then press OK.
3. Select OK in the confirmation screen, then press OK.

**Device Restart**

Press OK to restart the media center.

**Check Latest Firmware**

This menu displays the current firmware version. Press OK to check for new firmware.

**Auto Detect New Firmware**

Use this menu to turn the automatic detection of new firmware On or Off. See “System Firmware Upgrade” on page 203 for further details.
Mobile Access/WD Photos

Use this menu to share files on the media center with mobile devices that have the WD Photos app loaded. You can provide access for up to four mobile devices. For further information on WD Photos, go to http://wdphotos.wdc.com.

![Mobile Access/WD Photos](image)

Mobile Sharing

Mobile Sharing is turned On by default, allowing access for mobile devices. Selecting Off disables access for mobile devices.

Mobile Devices

To add mobile devices:

1. Select Mobile Devices and press OK to begin adding devices.
2. Press OK to Add Mobile Device.

3. Install WD Photos on your mobile device either from the App Store or the Android Marketplace.

Note: Be sure to use WD Photos version 1.2 or later.
4. Launch WD Photos and tap **Connect Now**.

5. Tap **WD TV Live Hub**.

6. Select **Get Code** on the media center screen. Press **OK**.

7. Enter the activation code shown on the media center’s screen on your mobile device (code expires after 24 hours) then tap **Activate**.

8. Press **OK** on the media center’s remote. The device is now listed in the Mobile Devices screen. Repeat the steps above to add additional mobile devices. You can now use WD Photos on the mobile devices you’ve added.

**Removing a Mobile Device**

1. Navigate to a device in the Mobile Devices screen, then press ► to select ■. Press **OK**.

2. Select **OK**, then press **OK**.
Upload Content to the Media Center

You can take a photo or video clip with your mobile device and upload it directly to the built-in hard drive on your media center.

To upload content:

1. Open WD Photos on your mobile device.
2. Tap the folder icon next to media center's device icon.
3. Tap on an album containing the photo or video you want to upload.
4. Tap on each thumbnail of a photo or video you want to upload or tap Select All, then tap Upload.

The content you upload appears in a folder on the media center’s internal drive under Photos or Videos. The name of the folder corresponds to the name of the mobile device. For further information about WD Photos, refer to WD Photos Help or go to http://wdphotos.wdc.com.
About

Select this option to display the network info, firmware version currently installed, part number, and serial number of the device as well as online service info.

- Select **Network Info** then press **OK** to view info such as the device’s MAC and IP addresses, mobile access type, etc.
- Select **Device Info** then press **OK** to view the firmware version currently installed, part number, and serial number of the device.
- Select **Online Service Info** to view online service account info such as your Netflix ESN.
Media Library

Media Library scans and consolidates the media contents of the internal hard drive, USB drive, and network drives into a database through which you can easily locate media files. This feature is set to on by default.

The following conditions will prevent the Media Library from processing your media.

- The USB device has read-only protection.
- There is not enough hard drive space on the USB device. Your media center needs some space to cache information, so that searches and scans are faster.

A note about metadata

Metadata is information about the data in a file that describes how, when, and by whom a particular set of data (video, music, photographic, or any other type of data) was collected, and how the data is formatted.

Not all files have metadata loaded. To add and edit metadata so that Media Library can aggregate the files properly, you can use one of several tools including:

- Adobe® Bridge (part of the Adobe Creative Suite)
- abcAVI Tag Editor (freeware)
- XnView 1.93.2 (freeware)
- iTunes
- Windows Media Player

Editing Metadata

Editing metadata with iTunes:

1. Open iTunes and click the song you want to edit.
2. Open the File menu, then click Get Info.
   A window opens, showing all of the information you can edit for the song that you selected. You can edit the song’s:
   - Name
   - Artist
   - Year released
   - Album name
   - Composer
   - Track number
   - Genre
3. When you are done, click OK. To edit the next song listed in your iTunes library, click Next.

Editing metadata with Windows media center:

1. Open Windows media center.
2. Click the Library tab.
3. Right-click the title or other item to edit.
4. When the menu opens, click Edit.
Converting The Content Into A Usable Format

There are several fast, easy-to-use applications available online that can convert photos, videos, and music files into formats optimized for use on your media center. The software also allows simultaneous conversion of multiple files in batches regardless of their original formats.

Examining Your Files

MediaInfo (free software) can provide technical and tag information about your video or audio files.

MediaInfo provides the following kinds of information:

- General—title, author, director, album, track number, date, and duration
- Video—codec, aspect, fps, and bitrate
- Audio—codec, sample rate, channels, language, and bitrate
- Text—language of the subtitles
- Chapters—number and a list of chapters

MediaInfo supports the following formats:

- Video—MKV, OGM, AVI, DivX, WMV, QuickTime, Real, MPEG-1, MPEG-2, MPEG-4, DVD (VOB) (Codecs: DivX, XviD, MSMPEG4, ASP, H.264, AVC)
- Audio—OGG, MP3, WAV, RA, Dolby Digital Plus, AAC, M4A, AU, AIFF
- Subtitles—SRT, SSA, ASS, and SAMI

With MediaInfo, you can:

- Read many video and audio file formats
- Use several methods of viewing information, such as text, sheet, tree, and HTML
- Customise views
- Export information as text, such as CSV and HTML

To examine your files:

1. Use your browser and go to http://mediainfo.sourceforge.net.
2. Download the software and install it on your computer.
3. Follow the instructions as prompted.
System Maintenance

The system software of your media center can be upgraded to the latest release, which can improve support for media file playback and includes bug fixes and product enhancements. To ensure that you receive the latest update, we recommend registering your product at http://register.wdc.com.

This chapter describes how to upgrade the system firmware and perform simple troubleshooting. If you encounter an error message, refer to the “Common Error Messages” on page 208 for possible corrective action.

Solutions to more serious problems may require contacting your dealer or an authorized service center for assistance. For more information, refer to “WD® Service and Support” on page 2.

System Firmware Upgrade

Firmware is an important set of instructions that tells your media center how to operate, what the interactive screens look like, and how to do what you tell it to do. Upgrading the firmware is important because WD is always developing newer, faster, and more efficient ways of doing things that your media center needs to know.

Important: Make sure the media center’s AC power adapter remains connected during the firmware update. A power disruption during the update process can corrupt the system firmware. Also, make sure that you do not unplug the USB storage device if doing a manual update.

Automatic

The New Firmware menu appears in the media center’s Home screen when updated firmware becomes available, providing the option to automatically upgrade the firmware.

Note: You must have Auto Detect New Firmware set to On to automatically upgrade firmware. See “Auto Detect New Firmware” on page 196.
To update the firmware automatically:

1. Press HOME, then select New Firmware. Press OK.
2. Select Update device on the firmware update prompt, and then press OK. This restarts the system. You can also select What's New in This Update? to see the changes.

3. After restarting, the system automatically enters firmware upgrade mode.

4. Once the update process finishes, the media center restarts. When the media center restarts, the new firmware loads automatically.

**Manual**

To update the firmware manually:

1. Go to http://support.wdc.com and download the latest firmware update file for the media center.
2. Click “Downloads,” then the product name (or photo). Download the WD TV Live Hub Media Center firmware zip file to your computer.
3. Using an unzip utility, extract the zip file contents to the root directory of a USB device connected to your computer.
4. Safely remove the USB device from the computer and attach it to the media center.
5. Connect the USB device to the media center’s USB port. If the Sync and Transfer screen appears, select Cancel, then press OK.
6. Follow steps 1-4 under “To update the firmware automatically:” on page 204.
7. If the Sync and Transfer screen appears, select Cancel or OK if you want to access video, music, or photo files on the attached USB device.
## Troubleshooting

### Problem | Solution
--- | ---
The slideshow pictures are distorted. | Navigate to the Home | Settings | Photo screen and select Keep as original or Fit to screen in the Photo Scaling field.

### FILES
File does not play. | • Verify compatibility. Refer to “Supported Formats” on page 211.
• Use a media converter program to convert the file to a usable format.

### AUDIO
There is no sound. | • Make sure the volume on the entertainment unit is not muted.
• Navigate to the Home | Settings | System screen and make sure the correct audio output setting is enabled.
  - If you are using the composite audio cable, the **Stereo** setting should be enabled.
  - If you are using an S/PDIF (optical) or HDMI connection, the **Digital** setting should be enabled.
• If you are watching a video that supports multiple audio channels, make sure that the Audio Off option is disabled. Press Options | <Icon>, and then press **OK** repeatedly until the intended audio channel is displayed.

### NETWORK
The media center is not visible on the network. | • Make sure the Setup > Network Settings > Network Share Server option is set to **On**.

### USB DEVICE
The Media Library process failed. | Make sure that:
• the USB device has no read-only protection.
• the USB device is not using the HFS+ file system with Journaling enabled.
• there is enough storage space on the USB device.

The attached USB device is not visible on the Home screen. | • The media center only supports mass USB storage mode. Make sure that the USB device is configured as a "mass storage device."
• Make sure the USB device’s file system is supported (NTFS, FAT/FAT32, or HFS+).

### REMOTE CONTROL
The media center remote control does not work.

- Press only one button at a time.
- Make sure the batteries are properly inserted.
- The batteries may already be drained out. Replace batteries with new ones.
- Make sure that the path between the remote control and the media center is not blocked.

**FIRMWARE UPGRADE**

The firmware upgrade recovery splash screen is shown after you turned on the media center or the media center keeps rebooting to the splash screen.

The previous or current firmware upgrade process failed.

- Repeat the firmware upgrade process. Go to page 204 for instructions.
- If you are still unable to update the system firmware, perform a system reset. Go to page 195 for instructions.

FAQs

How do I find media files and create playlists?

Several media center applications are currently available, such as Winamp and iTunes, that let you play, arrange, and edit media files. These media centers also let you create playlists and edit the metadata information for media files. You can search the Internet with your browser to locate where these applications are available for download.

How do I copy the files from my music CD to my computer?

Digital audio extraction, or Ripping, is the process of copying audio (or video) content to a hard drive, typically from removable media, such as CDs or DVDs, or from media streams.

To rip music from CDs to a computer:

1. Insert the CD into the optical drive of your computer.
2. Open the program that you use to rip the music to your computer, such as iTunes or Windows Media Player.
3. Press the Import button (using iTunes),
   - OR -
   Press the Rip button (using Windows media center).
4. Click the music you want to copy (Windows media center) and note where the music files are saved after they are copied. iTunes imports the entire CD into your iTunes music library.
5. Click the Start Rip button (Windows Media Player).
6. When ripping is complete, remove the CD. The music is now on your computer.

*Note: Some music may be covered by copyright laws which prevent its copying or distribution.*

Can I use a universal remote control with the media center?

You can use most popular universal remote control devices such as the Logitech Harmony models.
## Multiformat Content Playback

Multiformat is a file type that groups other files of the same digital content but may be encoded in different digital formats. For example, a single video file may actually include a few components such as video, audio, and photo grouped together. The media center is capable of playing several different types of multiformat files. For a detailed list of supported formats, refer to “Supported Formats” on page 211.

An audio receiver is required for multi-channel surround sound digital output.

Video notes:
1. MPEG-2 MP@HL up to 1920x1080p24, 1920x1080p30, or 1280x720p60 resolution.
2. MPEG4.2 ASP@L5 Rectangular shape video decoding up to 1280x720p30 resolution, support for B Pictures, data partitioning and error resiliency. No support for global motion compensation (GMC).
3. WMV9/VC-1 MP@HL up to 1280x720p60 (<90% of the P-picture macroblocks have 4 motion vectors) or 1920x1080p24 resolution. Up to 1280x720p30 or 1920x1080p25 resolution if unconstrained 4MV bitstream.
4. VC-1 AP@L3 up to 1920x1080p60 resolution, 1920x1080p24 resolution if unconstrained 4MV bitstream. Up to 1920x1080p25 resolution if unconstrained 4MV bitstream.
5. MPEG-4.10 (H.264) BP@L3 up to 1280x720p60 resolution, including FMO and ASO.
6. MPEG-4.10 (H.264) MP@L4.1 and HP@L4.1 up to 1920x1080p24, 1920x1080p30, or 1280x720p60 resolution (constrained to match BD and HD-DVD specifications), 180 Mbits maximum for CABAC streams.

Regulatory Compliance

FCC Class B Information

This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the manufacturer's instruction manual, may cause interference with radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, you are encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the retailer or an experienced radio/television technician for help.

ICES-003/NMB-003 Statement

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

This device complies with Canadian ICES-003 Class B.

Safety Compliance

Approuvé pour les Etats-Unis et le Canada. CAN/CSA-C22.2 No. 60065:03, UL-60065 7th Ed. Appareils audio, vidéo et appareils électroniques analogues - Exigences de sécurité.

This device is only for use with the compatible UL Listed AC adapter.

Cet appareil n’est destiné qu’a` des adaptateur compatibles marqués “UL Listed.”

CE Compliance for Europe

Marking by the CE symbol indicates compliance of this system to the applicable Council Directives of the European Union, including the EMC Directive (2004/108/EC) and the Low Voltage Directive (2006/95/EC). A “Declaration of Conformity” in accordance with the applicable directives has been made and is on file at Western Digital Europe.

I marchi con il simbolo CE denotano la conformità di questo sistema alle direttive del Consiglio dell'Unione europea, ivi compresa la Direttiva EMC (2004/108/CE) e la Direttiva Bassa Tensione (2006/95/CE). In adempimento con le vigenti direttive è stata rilasciata una " Dichiarazione di conformità", depositata presso Western Digital Europe.

La marca con el símbolo CE indica el cumplimiento de este sistema con las correspondientes directivas del Consejo de la Unión Europea, que incluye la Directiva CEM (2004/108/CE) y la Directiva de bajo voltaje (2006/95/CE). Se ha realizado una "Declaración de conformidad" de acuerdo con las directivas correspondientes y se encuentra documentada en las instalaciones de Western Digital en Europa.

Маркировка символом CE свидетельствует о соответствии настоящей системы положениям применимых директив Совета Европейского Союза, в том числе Директивы об электромагнитной совместимости (2004/108/EC) и Директивы о низковольтном оборудовании (2006/95/EC). Заявление о соответствии положениям применимых директив, сделанное компанией Western Digital, находится в архиве её европейского подразделения

Warranty Information (All Regions Except Australia/New Zealand)

Obtaining Service

WD values your business and always attempts to provide you the very best of service. If this Product requires maintenance, either contact the dealer from whom you originally purchased the Product or visit our product support Web site at http://support.wdc.com for information on how to obtain service or a Return Material Authorization (RMA).

If it is determined that the Product may be defective, you will be given an RMA number and instructions for Product return. An unauthorized return (i.e., one for which an RMA number has not been issued) will be returned to you at your expense. Authorized returns must be shipped in an approved shipping container, prepaid and insured, to the address provided on your return paperwork. Your original box and packaging materials should be kept for storing or shipping your WD product. To conclusively establish the period of warranty, check the warranty expiration (serial number required) via http://support.wdc.com. WD shall have no liability for lost data regardless of the cause, recovery of lost data, or data contained in any Product placed in its possession.

Limited Warranty

WD warrants that the Product, in the course of its normal use, will for the term defined below, be free from defects in material and workmanship and will conform to WD's specification therefor. The term of your limited warranty depends on the country in which your Product was purchased.

The foregoing limited warranty is WD’s sole warranty and is applicable only to products sold as new. The remedies provided herein are in lieu of a) any and all other remedies and warranties, whether expressed, implied

APPENDIX – 217
Warranty Information (Australia/New Zealand only)

For consumers purchasing products in Australia and New Zealand, please refer to this warranty information.

Nothing in this warranty modifies or excludes your legal rights under the Australian Competition and Consumer Act or the New Zealand Consumer Guarantees Act. This warranty identifies WD’s preferred approach to resolving warranty claims which is likely to be quick and simple for all parties.

No other warranties either express or implied by law, including but not limited to those contained in the Sale of Goods Act, are made with respect to the Product. If you purchased your Product in New Zealand for the purposes of a business, you acknowledge and agree that the New Zealand Consumer Guarantees Act does not apply.

In Australia, our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if goods fail to be of acceptable quality and the failure does not amount to a major failure. What constitutes a major failure is set out in the Australian Consumer Law.

Warranty

WD warrants that the Product, in the course of its normal use, will for the term defined below, be free from defects in material and workmanship and will conform to WD’s specifications. The term of your warranty is 3 years in Australia and New Zealand, unless otherwise required by law. The term of your warranty period shall commence on the purchase date appearing on your purchase receipt from an authorized distributor or authorized reseller. Proof of purchase shall be required to be eligible for this warranty and to establish the commencement date of this warranty. Warranty service will not be provided unless the Product is returned to an authorized distributor, authorized reseller or regional WD return center where the Product was first shipped by WD. WD may at its discretion make extended warranties available for purchase. WD shall have no liability for any Product returned if WD determines that the Product was (i) not purchased from an authorized distributor or authorized reseller, (ii) not used in accordance with WD specifications and instructions, (iii) not used for its intended function, or (iv) stolen from WD, or that the asserted defect a) is not present, b) cannot reasonably be rectified because of damage occurring before WD receives the Product, or c) is attributable to misuse, improper installation, alteration (including removing or obliterating labels and opening or removing external enclosures, including the mounting frame, unless the product is on the list of limited user-serviceable products and the specific alteration is within the scope of the applicable instructions, as found at http://support.wdc.com), accident or mishandling while in the possession of someone other than WD.

PRODUCTS ARE COMPLEX AND FRAGILE ITEMS THAT MAY OCCASIONALLY FAIL DUE TO (A) EXTERNAL CAUSES, INCLUDING WITHOUT LIMITATION, MISHANDLING, EXPOSURE TO HEAT, COLD, AND HUMIDITY, AND POWER FAILURES, OR (B) INTERNAL FAULTS. SUCH FAILURES CAN RESULT IN THE LOSS, CORRUPTION, DELETION OR ALTERATION OF DATA. NOTE THAT YOU SHALL BE RESPONSIBLE FOR THE LOSS, CORRUPTION, DELETION OR ALTERATION OF DATA HOWSOEVER CAUSED, AND FOR BACKING UP AND PROTECTING DATA AGAINST LOSS, CORRUPTION, DELETION OR ALTERATION. YOU AGREE TO CONTINUALLY BACK UP ALL DATA ON THE PRODUCT, AND TO COMPLETE A BACKUP PRIOR TO SEEKING ANY GENERAL SERVICE AND TECHNICAL SUPPORT FROM WD.

In Australia, if the Product is not of a kind ordinarily acquired for personal, domestic or household use or consumption, provided it is fair and reasonable to do so, WD limits its liability to replacement of the Product or supply of equivalent or better Product.

This warranty shall extend to repaired or replaced Products for the balance of the applicable period of the original warranty or ninety (90) days from the date of shipment of a repaired or replaced Product, whichever is longer. This warranty is WD’s sole manufacturer’s warranty and is applicable only to Products sold as new.

Obtaining Service

WD values your business and always attempts to provide you the very best of service. Should you encounter any problem, please give us an opportunity to address it before returning this Product. Most technical support questions can be answered through our knowledge base or e-mail support service at http://support.wdc.com. If the answer is not available or, if you prefer, please contact WD at the applicable telephone number shown in the front of this document.

If you wish to make a claim, you should initially contact the dealer from whom you originally purchased the Product. If you are unable to contact the dealer from whom you originally purchased the Product, please visit our product support Web site at http://support.wdc.com for information on how to obtain service or a Return
Material Authorization (RMA). If it is determined that the Product may be defective, you will be given an RMA number and instructions for Product return. An unauthorized return (i.e., one for which an RMA number has not been issued) will be returned to you at your expense. Authorized returns must be shipped in an approved shipping container, prepaid and insured, to the address provided with your RMA number. If following receipt of a qualifying claim under this warranty, WD or the dealer from whom you originally purchased the Product determines that your claim is valid, WD or such dealer shall, at its discretion, either repair or replace the Product with an equivalent or better Product or refund the cost of the Product to you. You are responsible for any expenses associated with a claim under this warranty. The benefits provided to you under this warranty are in addition to other rights and remedies available to you under the Australian Competition and Consumer Act or the New Zealand Consumer Guarantees Act.

Your original box and packaging materials should be kept for storing or shipping your WD product. To conclusively establish the period of warranty, check the warranty expiration (serial number required) via http://support.wdc.com.

GNU General Public License (“GPL”)

Firmware incorporated into this product may include third party copyrighted software licensed under the GPL or Lesser General Public License (“LGPL”) (collectively, “GPL Software”) and not Western Digital’s End User License Agreement. In accordance with the GPL, if applicable: 1) the source code for the GPL Software may be downloaded at no charge from http://support.wdc.com/download/gpl or obtained on CD for a nominal charge from http://support.wdc.com/download/gpl or by calling Customer Support within three years of the date of purchase; 2) you may re-use, re-distribute, and modify the GPL Software; 3) with respect solely to the GPL Software, no warranty is provided, to the extent permitted by applicable law; and 4) a copy of the GPL is included herewith, may be obtained at http://www.gnu.org, and may also be found at http://support.wdc.com/download/gpl.

Modification of or tampering with the Software, including but not limited to any Open Source Software, is solely at your own risk. Western Digital is not responsible for any such modification or tampering. Western Digital will not support any product in which you have or have attempted to modify the Software supplied by Western Digital.

Spotify Third-Party Licenses

Several fantastic pieces of free and open-source software have really helped get Spotify to where it is today. A few require that we include their license agreements within our product. Consider it done. As we enjoy giving credit where it’s due, we included the entire list below. This means you can not only see which software we’ve been using, but the terms of the licenses too. A big thanks from all of us at Spotify to the smart people behind the fantastic programs listed. Rock on!

THE WORK (AS DEFINED BELOW) IS PROVIDED UNDER THE TERMS OF THIS CODE PROJECT OPEN LICENSE ("LICENSE"). THE WORK IS PROTECTED BY COPYRIGHT AND/OR OTHER APPLICABLE LAW. ANY USE OF THE WORK OTHER THAN AS AUTHORIZED UNDER THIS LICENSE OR COPYRIGHT LAW IS PROHIBITED.

BY EXERCISING ANY RIGHTS TO THE WORK PROVIDED HEREIN, YOU ACCEPT AND AGREE TO BE BOUND BY THE TERMS OF THIS LICENSE. THE AUTHOR GRANTS YOU THE RIGHTS CONTAINED HEREIN IN CONSIDERATION OF YOUR ACCEPTANCE OF SUCH TERMS AND CONDITIONS. IF YOU DO NOT AGREE TO ACCEPT AND BE BOUND BY THE TERMS OF THIS LICENSE, YOU CANNOT MAKE ANY USE OF THE WORK.

1. Definitions.
   a. Articles* means, collectively, all articles written by Author which describes how the Source Code and Executable Files for the Work may be used by a user.
   b. Author* means the individual or entity that offers the Work under the terms of this License.
   c. Derivative Work* means a work based upon the Work or upon the Work and other pre-existing works.
   d. Executable Files* refer to the executables, binary files, configuration and any required data files included in the Work.
   e. Publisher* means the provider of the website, magazine, CD-ROM, DVD or other medium from or by which the Work is obtained by You.
   f. Source Code* refers to the collection of source code and configuration files used to create the Executable Files.
   g. Standard Version* refers to such a Work if it has not been modified, or has been modified in accordance with the consent of the Author, such consent being in the full discretion of the Author.
   h. Work* refers to the collection of files distributed by the Publisher, including the Source Code, Executable Files, binaries, data files, documentation, whitepapers and the Articles.
   i. You* is you, an individual or entity wishing to use the Work and exercise your rights under this License.

2. Fair Use/Fair Use Rights. Nothing in this License is intended to reduce, limit, or restrict any rights arising from fair use, fair dealing, first sale or other limitations on the exclusive rights of the copyright owner under copyright law or other applicable laws.

3. License Grant. Subject to the terms and conditions of this License, the Author hereby grants You a worldwide, royalty-free, non-exclusive, perpetual (for the duration of the applicable copyright) license to exercise the rights in the Work as stated below:
   a. You may use the standard version of the Source Code or Executable Files in Your own applications.
   b. You may apply bug fixes, portability fixes and other modifications obtained from the Public Domain or from the Author. A Work modified in such a way shall still be considered the standard version and will be subject to this License.
   c. You may otherwise modify Your copy of this Work (excluding the Articles) in any way to create a Derivative Work, provided that You insert a prominent notice in each changed file stating how, when and where You changed that file.
   d. You may distribute the standard version of the Executable Files and Source Code or Derivative Work in aggregate with other (possibly commercial) programs as part of a larger (possibly commercial) software distribution.
   e. The Articles discussing the Work published in any form by the author may not be distributed or republished without the Author’s consent. The Author retains copyright to any such Articles. You may use the Executable Files and Source Code pursuant to this License but you may not repost or republish or otherwise distribute or make available the Articles, without the prior written consent of the Author.

Any subroutines or modules supplied by You and linked into the Source Code or Executable Files this Work shall not be considered part of this Work and will not be subject to the terms of this License.
4. Patent License. Subject to the terms and conditions of this License, each Author hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, import, and otherwise transfer the Work.

5. Restrictions. The license granted in Section 3 above is expressly made subject to and limited by the following restrictions:
   a. You agree not to remove any of the original copyright, patent, trademark, and attribution notices and associated disclaimers that may appear in the Source Code or Executable Files.
   b. You agree not to advertise or in any way imply that this Work is a product of Your own.
   c. The name of the Author may not be used to endorse or promote products derived from the Work without the prior written consent of the Author.
   d. You agree not to sell, lease, or rent any part of the Work. This does not restrict you from including the Work or any part of the Work inside a larger software distribution that itself is being sold. The Work by itself, though, cannot be sold, leased or rented.
   e. You may distribute the Executable Files and Source Code only under the terms of this License, and You must include a copy of, or the Uniform Resource Identifier for, this License with every copy of the Executable Files or Source Code You distribute and ensure that anyone receiving such Executable Files and Source Code agrees that the terms of this License apply to such Executable Files and/or Source Code. You may not offer or impose any terms on the Work that alter or restrict the terms of this License or the recipients’ exercise of the rights granted hereunder. You may not sublicense the Work. You must keep intact all notices that refer to this License and to the disclaimer of warranties. You may not distribute the Executable Files or Source Code with any technological measures that control access or use of the Work in a manner inconsistent with the terms of this License.
   f. You agree not to use the Work for illegal, immoral or improper purposes, or on pages containing illegal, immoral or improper material. The Work is subject to applicable export laws. You agree to comply with all such laws and regulations that may apply to the Work after Your receipt of the Work.

6. Representations, Warranties and Disclaimer. THIS WORK IS PROVIDED "AS IS", "WHERE IS" AND "AS AVAILABLE", WITHOUT ANY EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS OR GUARANTEES. YOU, THE USER, ASSUME ALL RISK IN ITS USE, INCLUDING COPYRIGHT INFRINGEMENT, PATENT INFRINGEMENT, SUITABILITY, ETC. AUTHOR EXPRESSLY DISCLAIMS ALL EXPRESS, IMPLIED OR STATUTORY WARRANTIES OR CONDITIONS, INCLUDING WITHOUT LIMITATION, WARRANTIES OR CONDITIONS OF MERCHANTABILITY, MERCHANTABLE QUALITY OR FITNESS FOR A PARTICULAR PURPOSE, OR ANY WARRANTY OF TITLE OR NON-INFRINGEMENT, OR THAT THE WORK (OR ANY PORTION THEREOF) IS CORRECT, USEFUL, BUG-FREE OR FREE OF VIRUSES. YOU MUST PASS THIS DISCLAIMER ON WHENEVER YOU DISTRIBUTE THE WORK OR DERIVATIVE WORKS.

7. Indemnity. You agree to defend, indemnify and hold harmless the Author and the Publisher from and against any claims, suits, losses, damages, liabilities, costs, and expenses (including reasonable legal or attorneys’ fees) resulting from or relating to any use you make of the Work by You.

8. Limitation on Liability. EXCEPT TO THE EXTENT REQUIRED BY APPLICABLE LAW, IN NO EVENT WILL THE AUTHOR OR THE PUBLISHER BE LIABLE TO YOU ON ANY LEGAL THEORY FOR ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES ARISING OUT OF THIS LICENSE OR THE USE OF THE WORK OR OTHERWISE, EVEN IF THE AUTHOR OR THE PUBLISHER HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

   a. This License and the rights granted hereunder will terminate automatically upon any breach by You of any term of this License. Individuals or entities who have received Derivative Works from You under this License, however, will not have their licenses terminated provided such individuals or entities remain in full compliance with those licenses. Sections 1, 2, 6, 7, 8, 9, 10 and 11 will survive any termination of this License.
   b. If You bring a copyright, trademark, patent or any other infringement claim against any contributor over infringements You claim are made by the Work, your License from such contributor to the Work ends automatically.
   c. Subject to the above terms and conditions, this License is perpetual (for the duration of the applicable copyright in the Work). Notwithstanding the above, the Author reserves the right to release the Work under different license terms or to stop distributing the Work at any time; provided, however, that any such election will not serve to withdraw this License (or any other license that has been, or is required to be, granted under the terms of this License), and this License will continue in full force and effect unless terminated as stated above.

10. Publisher. The Publisher hereby confirm that the Publisher shall not, under any circumstances, be responsible for and shall not have any liability in respect of the subject matter of this License. The Publisher makes no warranty whatsoever in connection with the Work and shall not be liable to You or any party on any legal theory for any damages whatsoever, including without limitation any general, special, incidental or consequential damages arising in connection to this license. The Publisher reserves the right to cease making the Work available to You at any time without notice.

11. Miscellaneous
   a. This License shall be governed by the laws of the location of the head office of the Author or if the Author is an individual, the laws of location of the principal place of residence of the Author.
   b. If any provision of this License is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this License, and without further action by the parties to this License, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.
   c. No term or provision of this License shall be deemed waived and no breach consented to unless such waiver or consent shall be in writing and signed by the party to be charged with such waiver or consent.
   d. This License constitutes the entire agreement between the parties with respect to the Work licensed herein. There are no understandings, agreements or representations with respect to the Work not specified herein. The Author shall not be bound by any additional provisions that may appear in any
communication from You. This License may not be modified without the mutual written agreement of
the Author and You

**Microsoft**  
This product contains technology subject to certain intellectual property rights of Microsoft. Use or distribution of this technology outside of this product is prohibited without the appropriate license(s) from Microsoft.  
Content owners use Windows Media digital rights management technology (WMDRM) to protect their intellectual property, including copyrights. This device uses WMDRM software to access WMDRM-protected content. If the WMDRM software fails to protect the content, content owners may ask Microsoft to revoke the software’s ability to use WMDRM to play or copy protected content. Revocation does not affect unprotected content. When you download licenses for protected content, you agree that Microsoft may include a revocation list with the licenses. Content owners may require you to upgrade WMDRM to access their content. If you decline an upgrade, you will not be able to access content that requires the upgrade.  
Content owners use Microsoft PlayReady content access technology to protect their intellectual property, including copyrighted content. This device uses PlayReady technology to access PlayReady-protected content and/or WMDRM-protected content. If the device fails to properly enforce restrictions on content usage, content owners may require Microsoft to revoke the device’s ability to consume PlayReady-protected content. Revocation should not affect unprotected content or content protected by other content access technologies. Content owners may require you to upgrade PlayReady to access their content. If you decline an upgrade, you will not be able to access content that requires the upgrade.
Adobe®
This product features Adobe® Flash® technology. For further information, visit http://www.adobe.com/software/flash/about/.

The wall mount system located at the bottom of the unit is not designed for general usage by the end user.
