**Creating your own sound starts here!**

MAGIX Music Maker 16 turns making music into a real experience. Just get started and make your own exciting songs from the start! Use practical info videos and numerous options to develop your own musical style now – without any prior skills.

**Simply make music - your own songs. Your own albums. Your own sound.**

MAGIX Music Maker 16 includes over 1,500 diverse sounds and loops from the studios of internationally successful top producers.

Step-by-step to your own song: Simply combine audio building blocks, add effects, and export it – your own hit in is just a few clicks away!

## It's easy

### 1. Select sounds

Preview and select sounds in the Media Pool – or import your favorite songs from CD or MP3 and use them in your own song project.

### 2. Combine them

All sounds and loops can be easily cut, edited, copied, and arranged into your own song.

### 3. Mix them

Easily add effects, vocals, and adjust volume with the new mixer.

### 4. Publish it

Export the songs you create as MP3s, burn them to CD, or publish them on the web

### **NEW!** Get started without any prior skills

Music programs often seem so technical and complicated that the fun of making music is usually left out. MAGIX Music Maker 16 is different: To make getting started as easy as possible, support is available from the very first second!

The practical infobox and the new interactive tutorial help you become familiar with the program in the shortest time possible. Simply switch it on by clicking it and learn even more about making music during the process!

### Easy mode

If you want, only the most important areas will be shown to make it immediately clear to you so that you won't have to wait too long to make your first songs!

### Plus:

Practical help videos that help you make music like the pros in the shortest time possible.

### NEW! Sound archive

The new sound package features new loops and samples from every musical genre, e.g. rock, pop, dance, hip hop, disco house, techno, chillout, ambient, film music, minimal electro, and many more! Over 1,500 professional sounds provide the ideal basis for your sound experiments.

All sound building blocks can be combined without any problems and adjust automatically to the current song tempo – this ensures that you'll always be on the beat to let you concentrate completely on making your own sound.

### What are loops?

Loops are audio building blocks that are edited so that they play over and over without interruption. Melodies or drums are often played in loops to repeat multiple bars.

With an audio program like MAGIX Music Maker 16, slightly different loops can be combined to create your own songs. That's how you can make your own hits in record time.

### Record & remix

Record your own instruments and vocals directly, import MP3s and even your favorite songs from CD – everything is quickly and easily cut, remixed, edited, and enriched with effects!

**PLUS!** Expand your sound archive with your own recordings! Everything you record is immediately available for every song to add your own personal touch to your music.

### NEW! Instruments

MAGIX Music Maker 16 offers ultra-realistic simulations of real instruments like acoustic guitars, electric guitars, electric basses, bass, drums, grand pianos, electric pianos, power chords, synth bass, and much more

Thanks to the professional sound engine from Yellow Tools™, making music with real sounds becomes an acoustic experience!

### Get into the details when you want to

The practical MIDI editor enables melodies to be simply drawn in and changed! You'll also receive more exciting synthesizers like LiViD, the first-class virtual drummer.

**NEW!** Play any instrument right away with your PC keyboard

### BeatBox 2

The BeatBox 2 Plus drum machine is the ideal tool for creating your own grooves and beats: Drum kits full of dynamics, unlimited possibilities for sound shaping, high-quality effects, and much more.

The famous BeatBox 2 principle is fun and quickly provides exciting results – no matter whether you are a pro or a beginner: It's never been easier to build complex and layered beats!

### Mixing & effects

Use the integrated studio-quality effects to get the most out of your smash hits!

Mix your music like a pro: All of the tracks can be adjusted to suit each other with the integrated mixer, and a click adds enriching real effects – that's how to make your sound brilliant, pumping, and crystal clear!

Tip! Thanks to numerous effects and templates, which have been provided especially by pros, it's easy for everyone to find their own perfect sound.

### Vintage Effects Suite

Vintage effects provide even more possibilities for your own sound!

Make music with a personal touch – thanks to typical effects for any musical style. Numerous professional effects templates make using the Vintage Effects Suite child's play, and exciting results are produced quickly.

### NEW! Top-quality guitar sounds

With Vandal SE, the authentic guitar and bass amplifier, making music becomes a real experience.

Thanks to unbelievable sound fidelity and plenty of effects, your own songs become real hits with fantastic vintage sounds – that makes discovering new sounds a blast.

### NEW! essential FX

With the new **essential FX effects series**, any sound can be changed quickly and easily. Effects like chorus or flanger make exciting tones and real sound design a reality.

Get the sound of the pros on your own PC – without any prior skills or technical knowledge.

### Export and publish

Find new listeners quickly – who doesn't want that? Publish songs directly on the web, transfer them to an MP3 player, and create your own demo or album CDs. Everything is possible with one click.

Feature your own songs online on video portals like YouTube™ or **NEW!** MySpace™ – directly from within the program.

**The perfect combination: Music for videos, photos, websites, and much more**

**MAGIX Music Maker** lets everyone add their own

unique polish to their work, without prior skill and without long learning periods to create perfect slideshows, video clips, presentations, and much more.

Who wouldn't like it? Hollywood-style cinematic sound, made by you and perfectly tailored to all of your needs. The songs you make will turn your own videos and slideshows into a unique experience.

**Tip!** Anyone who is already familiar with MAGIX photo and video software will be able to get started with MAGIX Music Maker quickly and easily.

### Online extras

Catooh – the Online Content Library is the online sound archive. Whatever you're looking for – drum loops, instruments, vocals, or sound effects Direct connection to this massive sound library supports every song idea with the right material.
