Industry-leading software application delivers Polycom’s premium quality audio, video, and content sharing to your PC and USB camera.

Polycom PVX brings unprecedented video conferencing technology to your PC. Utilizing the industry’s highest quality audio/video algorithms, Polycom PVX is the only PC application capable of delivering true VGA resolution, secure communications, and People+Content™. PVX can be purchased with a high resolution USB web camera for optimal video quality at the desktop, thereby eliminating the need for a separate video camera and reducing clutter in your workspace. And when used in conjunction with your laptop and USB webcam, Polycom PVX provides the ultimate in portability.

For users of group conferencing systems, the premium performance and advanced features of Polycom PVX will perfectly complement larger room systems while maximizing end-to-end conferencing and collaboration quality. The graphical user interface delivers a rich feature set, including:

- Sizable and detachable video windows for personal desktop layout supporting local video, remote video, and content video
- Intelligent call directory with search capability to quickly locate and call other end users
- Multiple location profiles simplify network connectivity from home, office and travel locations
- Continually monitors system and network for errors and alerts end user of status changes
- Intuitive navigation with context sensitive help screens and embedded user manual available in 13 languages for ease of use and fast adoption
- Multiple monitor support adds richness to conferencing and PC collaboration
- Web user interface enables remote management and monitoring from Web browser

The iPriority™ features of the Polycom PVX enable your PC to deliver high-quality video conferencing over IP networks. And as an integrated component of the Polycom Office™, Polycom PVX gives your PC the ability to conduct one-to-one or one-to-many communications in offices, home offices, or small businesses. Bring remote colleagues, offices, and telecommuters together easily and affordably with the Polycom PVX conferencing software application.

In today's Internet-driven world, the ability to conduct real-time communication and collaboration has become critical to an organization's survival. As the market leader in voice, video, data, and Web solutions, our award-winning conference technology makes it easy for people to interact and maximize productivity with high quality voice and video and content sharing — over any network, anywhere around the globe. That's why more organizations worldwide use and prefer Polycom conferencing solutions. Because when people work together, great things happen.
